

October 1994
Announcement

Introducing . . .

“Digital’s Venturis Line, a new standard for corporate value desktop users”

Agenda

- October 31, 1994 Desktop Announcement**
- Digital's Venturis Line**
- Key Features**
- Market Segmentation**
- Target Customers**
- Specifications**
- Configurations**
- Options**
- Beyond The Box**
- Transition Plan**
- Positioning**

The Digital Venturis Line

The new Digital Venturis Line of desktop PCs:

 Venturis 433sx

 Venturis 450s2

 Venturis 466

 Venturis 4100

 Venturis 560

 Venturis_{FP} 450s2

 Venturis_{FP} 466

 Venturis_{FP} 4100

Key Features of the New Digital Venturis Line

-  **Value-oriented, spacesaving, easy access enclosures**
-  **Full-profile enclosures combine easy access with maximum expandability**
-  **Zero insertion force socket for Intel Verified Pentium OverDrive processor upgradeability**
-  **Enhanced IDE on local bus providing faster data throughput and maximum device connectivity**
-  **Flash BIOS for easy and cost-effective BIOS upgrades**
-  **Software-based advanced power management reduces system energy consumption and associated energy costs**
-  **PCMCIA connectivity to share data and peripherals between mobile and desktop systems**

Everything you'd expect from a Digital PC:

-  Proven 486-class price/performance
-  Digital quality and reliability
-  U.S. EPA Energy Star Compliance
-  Multi-level security
-  Extensive operating system certifications and testing
-  Common series options
-  Preinstalled MS-DOS 6.22 and Windows for Workgroups 3.11
-  Industry-standard compatibility

Environmentally Conscious... with New Digital Venturis Line

-  **U.S. EPA Energy Star Compliant for reduced energy consumption costs**
-  **No Chlorofluorocarbons (CFCs) or toxic inks in packaging and documentation**
-  **Recycleable materials used in packaging and documentation**

Energy Consumption: Conventional PCs vs. Power Managed PCs

Kilowatts

Dollars

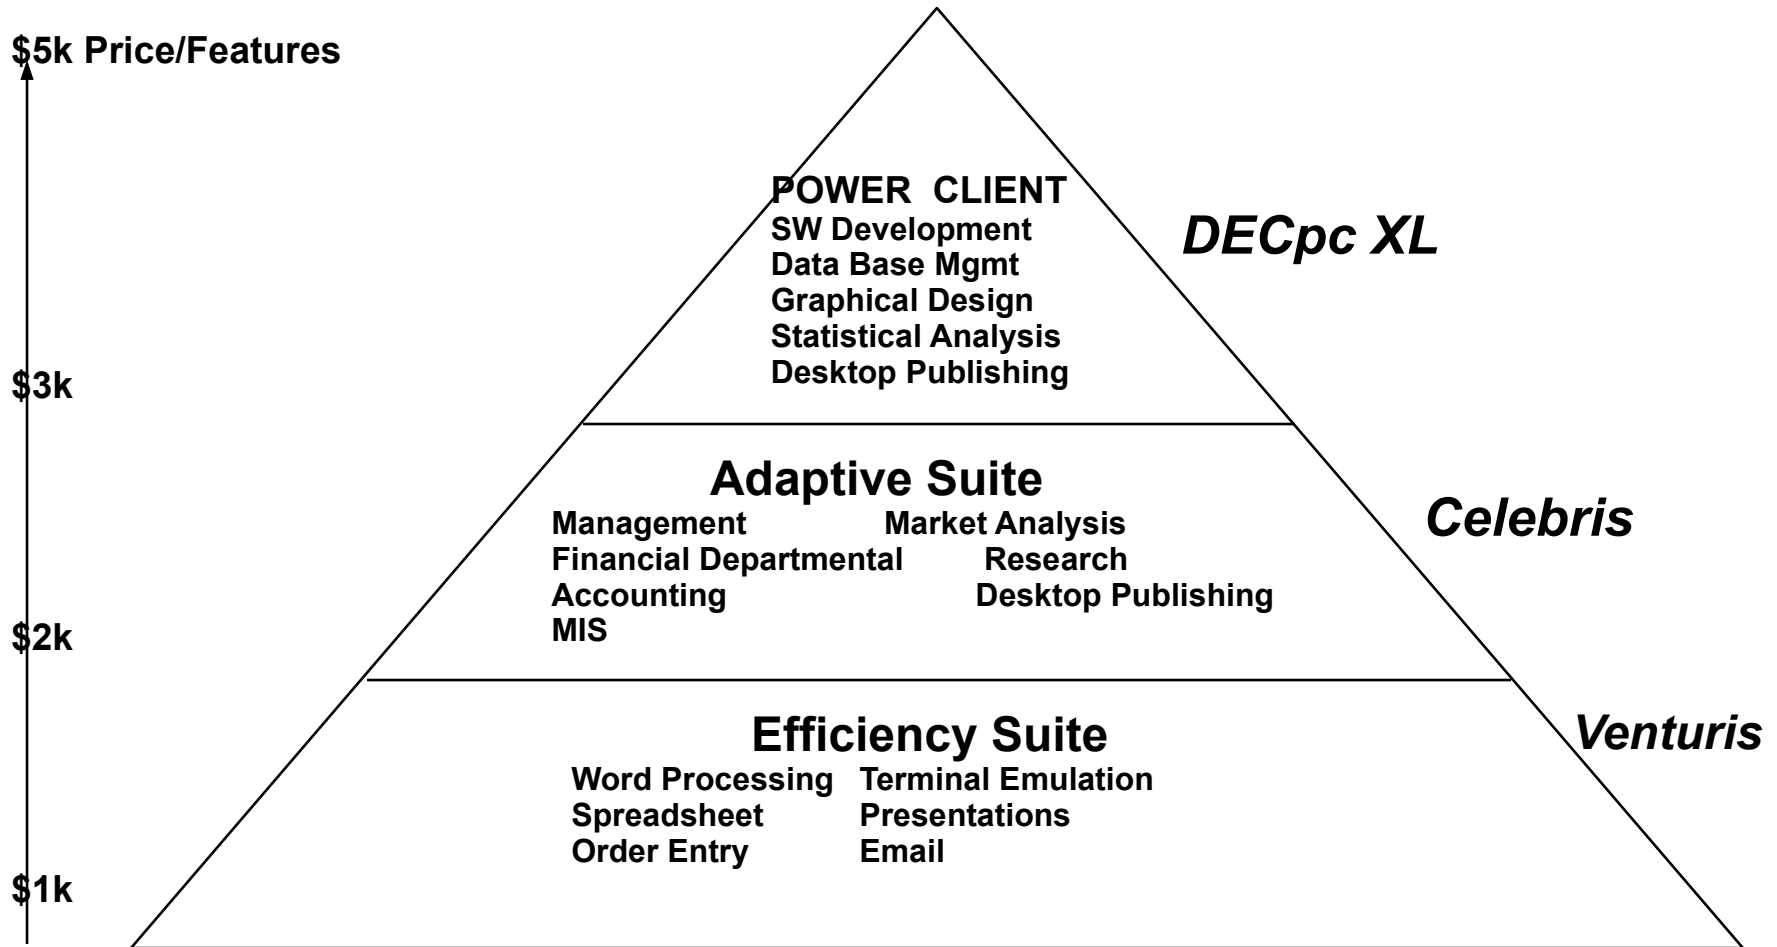

Kilowatts per Year

Dollars per Year

- Conventional System On All Day**
- Power Managed System On All Day**

- Conventional System On During Day, Off at Night**
- Power Managed System On During Day, Off at Night**

Market Segmentation

Digital Venturis Line Target Audience

Typical User

-  General business users requiring integrated technology for maximized return on investment
-  MIS administrators requiring basic deployment system with extensive network certification
-  Users looking for industry standard computing power in a system that is 486 feature rich and upgradeable at a value price
-  Department or workgroup manager looking for desktop systems for use a stand-alone personal computer or as a low cost LAN workstation

Venturis 433sx/450s2/466/4100 Feature Specifications

i486SX/33
Am486SX2/50
Am486DX2/66
IntelDX4/100

- 4/8MB RAM Models, expandable to 68MB
- Scaleable 128KB Secondary Cache (option)
- Expansion Slots
 - three 16-bit ISA (2 full-size, 1 half-size)
- Integrated S3 Trio 32-bit Graphics Accelerator w/1MB DRAM (standard)
- Plug and Play Integration
- Slimline Desktops
 - one 3.5"x1.0", one 5.25"x1.6", two 3.5"x1.0"
- Enhanced IDE on local bus
- Flash ROM BIOS
- EPA Energy Star Compliance
- Multi-level Security
- 100W Power Supply
- Two buffered serial ports, one enhanced parallel port (EPP/ECP), PS-2 style mouse and keyboard ports
- MS-DOS 6.22/Windows for Workgroups 3.11 "Ready to Run"

Venturis 560

Feature Specifications

Pentium 60

- 4/8MB RAM Models, expandable to 64MB
- 256KB Secondary Cache (standard)
- PCI Local Bus Architecture
- Expansion Slots
 - one ISA (full-size), one PCI/ISA (full-size), one PCI (half-size)
- Integrated S3 864 64-bit Graphics Accelerator w/1MB DRAM (standard)
- Plug and Play Integration
- Slimline Desktops
 - one 3.5"x1.0", one 5.25"x1.6", two 3.5"x1.0"
- Enhanced IDE on PCI local bus
- Flash ROM BIOS
- EPA Energy Star Compliance
- Multi-level Security
- 100W Power Supply
- Two buffered serial ports, one enhanced parallel port (EPP/ECP), PS-2 style mouse and keyboard ports
- MS-DOS 6.22/Windows for Workgroups 3.11 "Ready to Run"

Venturis^{FP} 450s2/466/4100 Feature Specifications

Am486SX2/50
Am486DX2/66
IntelDX4/100

- 4/8MB RAM Models, expandable to 68MB
- Scaleable 128KB Secondary Cache (option)
- Expansion Slots
 - five 16-bit ISA (4 full-size, 1 half-size)
- Integrated S3 Trio 64-bit Graphics Accelerator w/1MB DRAM standard
- Plug and Play Integration
- Full-Profile Desktops
 - two 5.25"x1.6", one 3.5"x1.0", two 3.5"x1.0", one PCMCIA
- Enhanced IDE on local bus
- Flash ROM BIOS
- EPA Energy Star Compliance
- Multi-level Security
- 200W Power Supply
- Two buffered serial ports, 1 enhanced parallel port (EPP/ECP), PS-2 style mouse and keyboard ports
- MS-DOS 6.22/Windows for Workgroups 3.11 "Ready to Run"

Digital Venturis Line Feature Positioning

System	Venturis	Venturis Pentium	Venturis ^{FP}
Processors	SX-33, SX2, DX2/66, DX4	Pentium 60	SX2, DX2/66, DX4
Enclosures	Slimline Desktops	Slimline Desktops	Full-Profile Desktops
Upgradeability	OverDrive/P24T	P54C	OverDrive/P24T
Bus Architecture	ISA	PCI/ISA	ISA
Memory	4/8MB-68MB	4/8MB-64MB	4/8MB-68MB
Secondary Cache	0/128Kbytes	256Kbytes	0/128Kbytes
Expansion Slots	3 ISA	1 ISA, 1 PCI/ISA 1 PCI	5 ISA
Device Bays	4 (2 ext, 2 int)	4 (2 ext, 2 int)	6 (3 ext, 2 int, PCMCIA)
HDD	0/270/540MB	270/540MB	0/270/540MB

Plug & Play	Yes	Yes	Yes
Windows 95 Logo	Yes	Yes	Yes
Intel Verification	Yes	Yes	Yes

Digital Venturis Line Model 1

Model 1 System Configuration

-  Base Unit
-  4MB RAM
-  0Kbyte Secondary Cache
-  S3 Trio 32-bit (slimline) and S3 Trio 64-bit Graphics Accelerator (full-profile) w/1MB DRAM
-  3.5" 1.44MB Diskette Drive
-  PS/2-style 101-key Keyboard
-  PS/2-style Two-button Mouse
-  Utility Diskettes
-  No Operating System
-  No Hard Disk Drive

Product Configurations

Digital Venturis Line - 433sx, 450s2, 466, 4100, 560

Venturis 433sx, 450s2, 466, 4100, 560 will be housed in Digital's newly designed slimline desktop enclosure

Model	P/N	Description
433sx	FR-851AA-AD	i486SX-33MHz, 4MB RAM, 1.44MB diskette drive, S3 Trio 32-bit graphics accelerator, 0KB cache, No HDD, keyboard, mouse
433sx	FR-851AA-WB	i486SX-33MHz, 4MB RAM, 1.44MB diskette drive, S3 Trio 32-bit graphics accelerator, 0KB cache, 270MB IDE HDD, keyboard, mouse, MS-DOS/ WFW 3.11
433sx	FR-851AA-WC	i486SX-33MHz, 8MB RAM, 1.44MB diskette drive, S3 Trio 32-bit graphics accelerator, 0KB cache, 540MB IDE HDD, keyboard, mouse, MS-DOS/ WFW 3.11

Product Configurations

Model	P/N	Description
450s2	FR-852AA-AD	Am486SX2-50/25MHz, 4MB RAM, 1.44MB diskette drive, S3 Trio 32-bit graphics accelerator, 0KB secondary cache, No HDD, mouse
450s2	FR-852AA-WB	Am486SX2-50/25MHz, 4MB RAM, 1.44MB diskette drive, S3 Trio 32-bit graphics accelerator, 0KB secondary cache, 270MB IDE keyboard, mouse, MS-DOS/ WFW 3.11
450s2	FR-852AA-WC	Am486SX2-50/25MHz, 8MB RAM, 1.44MB diskette drive S3 Trio 32-bit graphics accelerator, 0KB secondary cache, 540MB IDE keyboard, mouse, MS-DOS/ WFW 3.11
450s2	FR-852AA-01	Am486SX2-50/25MHz, 4MB RAM, 1.44MB diskette drive, S3 Trio 32-bit graphics accelerator, 0KB secondary cache, 270MB IDE keyboard, mouse, MS-DOS/ WFW 3.11, Ethernet adapter

Product Configurations

Model	P/N	Description
466 diskette drive,	FR-854AA-AD	Am486DX2-66/33MHz, 4MB RAM, 1.44MB S3 Trio 32-bit graphics 0KB secondary cache, No HDD, keyboard, mouse accelerator,
466 cache, 270MB IDE HDD, keyboard, DOS/ WFW 3.11	FR-854AA-WB	Am486DX2-66/33MHz, 4MB RAM, 1.44MB diskette drive, S3 Trio 32-bit graphics accelerator, 0KB secondary mouse, MS-
466 diskette drive, S3 Trio 32-bit graphics cache, 540MB IDE HDD, keyboard, DOS/ WFW 3.11	FR-854AA-WC	Am486DX2-66/33MHz, 8MB RAM, 1.44MB accelerator, 0KB secondary mouse, MS-
466 cache, 270MB IDE HDD, keyboard, DOS/WFW 3.11, 2X CD-ROM Reader, card, speakers, headphone, microphone	FR-854AA-03	Am486DX2-66/33MHz, 4MB RAM, 1.44MB diskette drive, S3 Trio 32-bit graphics accelerator, 0KB secondary mouse, MS- 16-bit audio

Product Configurations

Model	P/N	Description
4100	FR-855AA-AD	IntelDX4-100/33MHz, 4MB RAM, 1.44MB diskette drive, S3 Trio 32-bit graphics accelerator, 0KB secondary cache, No HDD, mouse keyboard,
4100	FR-855AA-WB	IntelDX4-100/33MHz, 4MB RAM, 1.44MB diskette drive, S3 Trio 32-bit graphics accelerator, 0KB secondary cache, 270MB IDE keyboard, mouse, MS-DOS/WFW 3.11 HDD,
4100	FR-855AA-WC	IntelDX4-100/33MHz, 8MB RAM, 1.44MB diskette drive, S3 Trio 32-bit graphics accelerator, 0KB secondary cache, 540MB IDE keyboard, mouse, MS-DOS/ WFW 3.11 HDD,

Product Configurations

Model	P/N	Description
560	FR-856AA-WB	Pentium 60MHz, 4MB RAM, 1.44MB diskette drive, S3 864 64-bit graphics accelerator, 256KB secondary cache, 270MB IDE HDD, keyboard, mouse, MS-DOS/ WFW 3.11
560	FR-856AA-WC	Pentium 60MHz, 8MB RAM, 1.44MB diskette drive, S3 864 64-bit graphics accelerator, 256KB secondary cache, 540MB IDE HDD, keyboard, mouse, MS-DOS/ WFW 3.11

Product Configurations

Digital Venturis^{FP} Line - 450s2, 466, 4100

Venturis^{FP} 450s2, 466, 4100 will be housed in Digital's newly designed full-profile desktop enclosure

Model	P/N	Description
450s2	FR-861AA-AD	Am486SX2-50/25MHz, 4MB RAM, 1.44MB diskette drive, S3 Trio 64-bit graphics accelerator, 0KB secondary cache, No HDD, keyboard, mouse
450s2	FR-861AA-WB	Am486SX2-50/25MHz, 4MB RAM, 1.44MB diskette drive, S3 Trio 64-bit graphics accelerator, 0KB secondary cache, 270MB IDE HDD, keyboard, mouse, MS-DOS/ WFW 3.11
450s2	FR-861AA-WC	Am486SX2-50/25MHz, 8MB RAM, 1.44MB diskette drive, S3 Trio 64-bit graphics accelerator, 0KB secondary cache, 540MB IDE HDD, keyboard, mouse, MS-DOS/ WFW 3.11

Product Configurations

Model	P/N	Description	
450s2	FR-861AA-01	Am486SX2-50/25MHz, 4MB RAM, 1.44MB diskette drive, S3 Trio 64-bit graphics accelerator, 0KB secondary cache, 270 HDD, mouse, 10BaseT Ethernet adapter	keyboard,

Product Configurations

Model	P/N	Description
466 diskette drive,	FR-862AA-AD S3 Trio 64-bit graphics 0KB secondary cache, No HDD, keyboard, mouse	Am486DX2-66/33MHz, 4MB RAM, 1.44MB accelerator,
466 cache, 270MB IDE HDD, keyboard, DOS/ WFW 3.11	FR-862AA-WB drive, S3 Trio 64-bit graphics accelerator, 0KB secondary mouse, MS-	Am486DX2-66/33MHz, 4MB RAM, 1.44MB diskette
466 diskette drive, S3 Trio 64-bit graphics cache, 540MB IDE HDD, keyboard, DOS/ WFW 3.11	FR-862AA-WC accelerator, 0KB secondary mouse, MS-	Am486DX2-66/33MHz, 8MB RAM, 1.44MB
466 cache, 270MB IDE HDD, keyboard, DOS/WFW 3.11, Ethernet SIR, PCMCIA	FR-862AA-01 drive, S3 Trio 64-bit graphics accelerator, 0KB secondary mouse, MS- adapter	Am486DX2-66/33MHz, 4MB RAM, 1.44MB diskette

Product Configurations

Model	P/N	Description
466	FR-862AA-03	Am486DX2-66/33MHz, 4MB RAM, 1.44MB diskette drive, S3 Trio 32-bit graphics accelerator, 0KB secondary cache, 270MB IDE keyboard, mouse, MS-DOS/WFW 3.11, Reader, 16-bit audio card, headphone, microphone
		HDD, 2X CD-ROM speakers,

Product Configurations

Model	P/N	Description
4100	FR-863AA-AD	IntelDX4-100/33MHz, 4MB RAM, 1.44MB diskette drive, S3 Trio 64-bit graphics accelerator, 0KB secondary cache, No HDD, mouse keyboard,
4100	FR-863AA-WB	IntelDX4-100/33MHz, 4MB RAM, 1.44MB diskette drive, S3 Trio 64-bit graphics accelerator, 0KB secondary cache, 270MB IDE keyboard, mouse, MS-DOS/WFW 3.11 HDD,
4100	FR-863AA-WC	IntelDX4-100/33MHz, 8MB RAM, 1.44MB diskette drive, S3 Trio 64-bit graphics accelerator, 0KB secondary cache, 540MB IDE keyboard, mouse, MS-DOS/ WFW 3.11 HDD,

Digital Venturis Line Options Summary

Memory

 4MB 70ns SIMM Upgrade	FR-PCVAM-AA
 8MB 70ns SIMM Upgrade	FR-PCVAM-AB
 16MB 70ns SIMM Upgrade	FR-PCVAM-AC
 32MB 70ns SIMM Upgrade	FR-PCVAM-AD

Diskette/Floppy Drives

 3.5" 1.44MB	FR-PC7XR-AA
 3.5" 2.88MB	FR-PCTXR-AA
 5.25" 1.2MB	FR-PC7XR-BA

IDE Hard Disk Drives

 3.5" 270MB IDE HDD	FR-PCXAR-CK
 3.5" 540MB IDE HDD	FR-PCXAR-CL

Digital Venturis Line Options Summary

Monitors

 14" Monochrome VGA	FR-PC7XV-KA
 14" Color VGA	FR-PCXCV-GE
 14" Color SVGA	FR-PCXBV-PF
 15" Color SVGA	FR-PCXBV-PC
 17" Color SVGA	FR-PCXAV-EC
 21" Color SVGA	FR-PCXAV-HA

Tape Drives

 120/250MB SCSI QIC	FR-PCXAT-BB
 525MB/1.0GB SCSI Internal	FR-PCXAT-AA
 QIC Driver for OS/2	FR-PCXDT-BB
 QIC Driver for Windows	FR-PCXDT-BC
 QIC Driver for NetWare	FR-PCXDT-BD

Digital Venturis Line Options Summary

NUL Secondary Cache

NUL 128KB secondary cache

FR-PC75M-BB

NUL CD-ROM Reader (Internal)

NUL 5.25" CD-ROM AT/IDE 2X

FR-PCTAZ-AE

NUL 5.25" CD-ROM ISA 2X

FR-PCXCR-AC

NUL Video Memory

NUL 1MB Video DRAM Upgrade

Digital Venturis^{FP} Line PCMCIA Options Summary

PCMCIA Ethernet Cards

 XIRCOM 10BaseT Ethernet Adapter	FR-CF003-EX
 XIRCOM 10Base2 Ethernet Adapter	FR-CF003-EY
 XIRCOM 10BaseT/10Base2	FR-PCPAN-AA
 EtherWORKS TURBO PLUS	DEPCM-BA
 Parallel Port Ethernet Adapter	DEPEA-AA

Beyond The Box ...

Venturis Line “Getting Started” - User Interface

Digital Venturis Line Upgradeability

NVL Simple cost-effective processor upgradeability

NVL Intel 486-based OverDrive Processor (ODP) upgrade path

NVL 237-pin Zero Insertion Force OverDrive Socket for Pentium OverDrive processors

NVL Scaleable secondary cache performance

NVL Fast 15ns SRAM secondary cache option

NVL 0 - 128Kbyte secondary cache upgrade

NVL Video DRAM upgrade

NVL 1MB video DRAM upgrade kit (Venturis only)

FP

Digital Venturis Line Expandability

System Memory Expandability

-  SIMM-based memory expansion to 68MB

-  Industry-standard 4, 8, 16, 32MB 70ns SIMM upgrade kits

Industry-standard Architecture Expansion slots

-  Venturis slimline features three ISA expansion slots

-  Venturis full-profile features five ISA expansion slots

Device Expandability

-  Venturis slimline includes four device bays

-  Venturis full-profile includes six device bays

Digital Venturis Line Multi-level Security Features

- cover key lock (standard)
- power-on password
- supervisor password
- user password
- keyboard and mouse password
- diskette drive boot control
- diskette drive write control
- hard drive control
- parallel port interface control
- serial port interface control
- setup password

Digital Venturis Line Ease Access Enclosure

**Quick Quarter-turn
Release Latches**

Digital Venturis Line Ease Access Enclosure

Power supply and device bays easily swing out of the way.

Tasks such as installing a network interface card, expanding system memory or adding a second hard disk drive are easier than ever before !

Digital Venturis Line Plug and Play Integration

- Plug and Play defines a means for peripherals to communicate with a system's BIOS and operating system, and resolve resource conflicts**
- Plug and Play defines automatic configuration techniques that make system configuration simple**
- With Plug and Play you won't have to worry about DMAs, IRQs, and I/O addresses**
- Plug and Play will be one of the key building blocks of Windows 95**
- Digital's Venturis Line will display from Microsoft - the Windows 95 logo indicating Plug and Play compatibility**

WHY Digital?

- Quality and Reliability**
- Industry Standard Compatibility**
- Regulatory Compliance**
- Worldwide Service and Support**
- Customer Satisfaction**

Quality and Reliability

-  **Designed by Digital engineers for superior performance and high reliability**
-  **Highly integrated chipset and controllers for greater reliability**
-  **Advanced surface mount manufacturing line**
-  **ISO 9000 certification standards**

Industry Standard Compatibility

-  **MS-DOS 6.2x**
-  **Windows for Workgroups 3.11**
-  **Intel OverDrive Verification**
-  **Microsoft Windows 95 Logo Compliance**
-  **Intel Plug and Play Verification**
-  **Windows 3.1**
-  **OS/2 2.X**
-  **Windows NT V3.1**
-  **SCO Unix 3.2.4 Certified**
-  **Digital Pathworks v5.0 Certified**
-  **Novell Netware 386 v3.11, 4.0 Certified**
-  **Banyan Vines 5.0 (Venturis_{FP} models only)**

Regulatory Compliance

Safety:

- UL-listed
- CSA-listed
- TUV/VDE
- N-mark (Nemko)
- D-mark (Demko)
- S-mark (Semko)
- FI-mark (SETI)

Emissions:

- FCC-Class B
- Korean EMI
- VCCI-2 (Japan)
- CISPR-22 (Class B)

The Right Service: Worldwide Extended Warranty

- NUL 3-year comprehensive worldwide warranty**
- NUL 1-year on-site, years 2 + 3 Return-to-Digital**
- NUL Return-to-Digital - 48 hour turnaround**
- NUL PC warranty supplemental services**
- NUL Full service Multivendor support**
- NUL Service and Support provided either by Digital or by Digital Authorized Reseller**

Digital Technical Support

-  **Free Product Lifetime Technical Support**
-  **Service-in-a-Box User Support Services**
-  **Technical Support Alliances**
-  **24 hours a day DECpc Bulletin Board Service**
-  **1-800 InstaFacts Technical Product Information**
-  **1 year free O/S Support from Digital**

Customer Satisfaction

- NUL Delivering a wide range of desktop PCs with the right features to meet specific customer requirements at an affordable price**
- NUL Adhering to quality and reliability in product design**
- NUL Continuing commitment to industry standard compatibility**
- NUL Incorporating innovation design and today's technologies in general business desktop PCs**
- NUL Providing comprehensive service and support programs**
