How to Upgrade Greetings 99 to Home Publishing 99

The information in this article applies to:

 - Microsoft Graphics Studio Greetings 99
 - Microsoft Graphics Studio Home Publishing 99

SUMMARY
=========

This article discusses how to upgrade your software from Microsoft
Greetings 99 to Microsoft Home Publishing 99. Home Publishing 99
contains all the functionality of Greetings 99 plus a lot more. But because
they share some components, you cannot have both Greetings 99 and Home
Publishing 99 on the same system.

MORE INFORMATION
==================

When you install Home Publishing 99, Microsoft recommends that you install
it into the same folder where you have Greetings 99. If you install Home
Publishing 99 to a different location without uninstalling Greetings 99,
Greetings 99 will still be disabled.

NOTE: You can open any projects created with Greetings 99 in Home
Publishing 99.

Upgrading to Home Publishing 99

To upgrade from Greetings 99 to Home Publishing 99, follow these steps:

1. Insert the Home Publishing 99 Disk 1 into the CD-ROM drive.

2. Follow the on-screen instructions to install Home Publishing 99.

NOTE: If you want to install Greetings 99 on a system where Home Publishing
99 is installed, you must first uninstall Home Publishing 99.

You can open any project created in Home Publishing 99 in Greetings 99.
