

Adventure Vacation Newsletter

Volume 7, Issue 3 - July '93

Everywhere Travel is proud to introduce our newest professional travel service: Everywhere Adventures. Everywhere Adventures designs exotic, semi-custom vacation adventures to far-away places for small groups of our most demanding clients. We'll plan everything using experienced guides, our global network or affiliates and a dash of creativity to fashion once in a lifetime experiences. Adventures currently under development include a Nepal/Thailand experience, a three week sojourn through the Himalayan mountain kingdom and the Southeast Asian paradise...

Our well seasoned guides-- many of whom have lived in the foreign countries while pursuing advanced degrees-- will lead you on an authentic trek expedition in Nepal through the Annapurna circuit. The Annapurnas are widely recognized as the most beautiful mountain range in the world. From the Annapurna Base Camp at a 13,000 foot elevation, you'll face a 360 degree panorama of some of the world's most striking peaks, including the famous Machapuchre, or FishTail. You'll dine on Tibetan bread and spice tea along a string of primitive mountain lodges. Averaging approximately 2,000 feet of elevation gain per day, you'll also be getting an excellent cardiovascular workout. (No special conditioning necessary.)
