To install the program to your hard drive, double click on the "setup.exe" from the file manager in your Windows "Main" program item. As you are installing the program, the setup will ask you questions as to the type of sound card you have (8 or 16 bit) and what type of CD ROM drive you have (Double speed[2X] or Quad speed[4X]). The setup will also install the latest version of Video for Windows (TM) and TrueMotion ® Video decompression program. If the video in this application is not playing, try manually installing the Video for Windows program under the VFW1_1 directory on this disk. You then must install the TrueMotion ® program under the TMOTION directory also on this disk.

****NOTE****

Also, Please remember that the multimedia images and sounds you are seeing and hearing are coming from a CD-ROM. We have tried to optimize the media so that it will run smoothly from a CD-ROM, however, the access time from a CD-ROM is much slower than from a hard drive so please be patient when making your selections.

Prohibited use:

1. Copying files in any format or taping the audio and video output and giving these copies to anyone else.
2. Placing any of these files on a BBS

3. Placing any of these files on a shareware disc, or any other medium.

Uses where royalties are required:

1. Commercial broadcast/cablecast
2. Incorporating any files into any product.
3. Distribution or use of the run time files for any other program.
4. Any other use not listed herein.

***** ABOUT THIS DISC *****
