Anytown, WA 98999

Dear Lou Picard:

What could be better than the Tater Dicer Mark II? That's easy — the Mark II+!

Although you might find it hard to believe, we have significantly improved the Tater Dicer Mark II, adding safety and operating features that make it faster and easier to prepare potatoes.

The new Tater Dicer Mark II+ offers the following:

- Improved control over size and shape of potato slices for attractive and uniform pieces
- Foot-pedal attachment for "hands-free" operation
- Improved safety shield that protects your fingers without obstructing your view of the feed chute

The Mark II+ has a suggested list price of \$250.00, but because you already own the Tater Dicer Mark II, you can upgrade to the Mark II+ for only \$59.00. The upgrade kit includes parts that can be quickly installed with a few simple tools. It will take only a few minutes to turn your Mark II into a potato powerhouse!

The Mark II+ upgrade is available now, so don't delay! Complete the enclosed order form and fax or mail it to us before July 31, 1993 to take advantage of this special upgrade offer.

Sincerely,

Chris Fields

Account Representative
