ManagePro 2.0 for Windows

Meet Goals. Manage People. Solve Problems. Succeed!

If you're a manager who wants to succeed, ManagePro puts you on the right path. It lets you plan, track, and organize all the key information about your goals, people, and action plans -- in one place. One glance shows you how each influences the other and what you and your team need to do to keep your goals in focus. Just enter information in easy-to-use planners and ManagePro automatically creates color-coded status boards, timelines, calendars, and reports. More than 30 standard reports are only a click away. And if that's not enough, you can create an unlimited number of custom reports with ManagePro.

Easily Plan, Delegate, and Track

Simplify the task of achieving goals and managing people. One glance shows you the status of your goals and where you need to focus to keep them on track. One simple screen prompts and prioritizes your people management activities for you.

One Click, Maybe Two

That's all it takes to gain instant access to all your important management information from ManagePro's integrated button bar. And when you boot up ManagePro, it immediately scans your database and provides you with today's "to-do" list and management activities requiring immediate attention.

Management Advisor

Management tips and techniques, written by management experts, are always available to help you make decisions.

Minimum System Requirements:
