## Quattro Pro® for Windows 5.0

### Windows Spreadsheet Power Made Easy

All the help you need with a spreadsheet is just a mouse-click away with Quattro Pro, so you are up and running the very first day. The entire manual is yours in hard copy *and* on-line. Use your own data in each tutorial, so you learn the lesson and finish your work simultaneously. Then delegate routine, time-consuming jobs you want to do. More tools give you more ways to analyze data -- and make better choices. Quattro Pro lets you see the big picture, and forecast with confidence using Scenario Manager.

### Manage Business Finances -- Painlessly

With Quattro Pro you can perform the same sophisticated analyses successful businesses do. Chose from more than 350 engineering, financial, statistical, and scientific Analytical Functions. Compute instant profit-and-loss projections, and automate the travel expense report-writing process, at last.

### Your Personal Finances

Calculate your mortgage or closing costs using Quattro Pro's Experts and its Mortgage Refinancing @ Function. Or set up a long-term savings plan for college, retirement, or a second home. Estimate long-term interest payments for personal loans, and calculate your net worth.
