Influence™ 1.01

The Easy-To-Use Personal Mail Manager

Tired of government as usual? Looking for a powerful tool to organize personal mailings? Influence™ is just such a tool. It provides high powered word processing capabilities coupled with a simple-to-use mail merge utility. Influence™ comes with over 600 names, addresses and phone numbers of federal government officials. You can also create your own custom directories. Logically arranged data entry screens allow you to spend less time building databases and more time composing letters. And if you get stuck, full-page on-line help is never more than a keystroke away.

Communicate More Effectively

Eliminate spelling errors with the built-in 15,000+ word dictionary. Influence can manage thousands of addresses. You can easily merge letters with these addresses to stay in touch with your representatives, business associates, or anyone else in your personal directories.

Continue Expanding

Over 50 Ready-Lists™ are offered, including the most recent address lists for selected leaders in the Federal Government, the State Governments, and the top 500 U.S. corporations.
