Business in Motion

An Amazing Collection of Videos of Business in Motion

Take a look at who's working. From steel mills to Wall Street, from retail stores to science labs, workers are making a difference in manufacturing, agriculture, aerospace, telecommunications, construction and more -- a difference you can translate into your own software with dozens and dozens of video clips. And the vibrancy of each industry can be accented by the more than half an hour of orchestrated themes included in this CD-ROM. And as with all Jasmine Multimedia titles, these videos can be used royalty-free in any computer presentation.
