CD Speedway 1.2

Makes your CD-ROM Reader up to 1000% Faster!

CD Speedway is the first cache designed specifically for CD-ROM readers.   It will dramatically increase the response time for any CD reader from any manufacturer by hundreds of times.   It's a new level of performance that will revolutionize the way you use your CD-ROM equipment -- and make it far more productive than you ever thought possible.

CD Speedway is a unique software solution that employs the proven "Intuitive Caching" technology that transfers data to your hard disk, RAM Disk or any drive device for almost instant access. You'll find that the more you work with CD Speedway and your CD-ROM titles, the faster they will perform.   And CD Speedway is simple to use -- it installs in seconds and includes an easy-to-understand interface that allows you to configure CD Speedway for absolute maximum performance.

Features

* Speed up access to CD-ROM data by 1000% or more.

* Increase the value of your CD-ROM reader by reducing access time.

* Easy to use and install.
