QuickCards for Windows 3.1

The Quickest and Easiest Way to Learn Windows

How often do you get frustrated at your on-line help when it gives you a philosophical discussion about your topic instead of telling you how to do it? All you really want are easy step-by-step instruction telling you how to complete your task as quickly as possible. After all, your time is valuable. That's why we at Usability Sciences have developed QuickCards to help you unlock the power of Windows 3.1.

QuickCards are simple, step-by-step instructions that stay on the screen as you complete your tasks. They are easy to install and can be accessed by clicking the QuickCards button on your application title bar. When you see green text in a Quick Card, you can click on it to get a definition. Click on red text to see a picture of an icon. Each set of QuickCards includes fifty different topics that range from everyday tasks to things you never knew you could do in Windows!

Unlock the Power of Windows

QuickCards for Windows will help you be more productive with Program Manger, File Manager Terminal, Write, Paintbrush, and Print Manager. For example, you can create an application shortcut key from Program Manager. Just click on the topic in the Main index and the QuickCard will appear on your screen. Even difficult processes will be made easy as you follow the simple steps in each QuickCard. Stop wasting your time with documentation and on-line help, and get the most from Windows.
