Video Linguist™ French

The Easy Way to Learn and Relearn Language Skills

The Video Linguist™ is a revolutionary new interactive multimedia foreign language learning system. Using real television clips from foreign TV stations, in a wide variety of fun and interesting topics, the system compels the student to learn the language by immersing the student in the culture of the country. Students can learn the language from features on Food and Wine, Travel Destinations, Arts, Festivals, Lifestyles and much more.

The Student Controls the Learning Process, using the simple point-and-click interface to:

LISTEN to language spoken by a native speaker, and **WATCH** the spoken word come to life in the video.

REPEAT the **PHRASE** or sentence you just heard. The Video Linguist knows where each phrase begins, making it easy to concentrate on individual phrases.

Use **SLOW SPEECH** button to hear the phrase spoken slowly and clearly.

DISPLAY the spoken word in the text of the foreign country, and in English.

DEFINE any word or expression by pointing to the word and clicking on it. The Video Linguist Electronic Dictionary will display the definition of the word. If it is a word you've looked up before, The Video Linguist will display the actual video where you saw the word before, so you can remember the context in which you saw the word, after which you will still see the definition.

RECORD your own voice, and **PLAY** it back, so you can compare your pronunciation with the native speakers' to improve your accent.

PRINT a copy of the words and phrases you looked up, for further study.

Minimum System Requirements:

CPU: 80386SX/20 or higher

RAM: 4 MB

Hard disk space: n/a

Graphics card/monitor: VGA or higher; Super VGA recommended

Mouse: Required

Operating system: DOS 5.0 and Windows 3.1

Sound card: SoundBlaster-compatible

Other: CD-ROM drive; QuickTime for Windows 1.1 (included with Video Linguist)
