PC Tools for Windows 2.0

Simplify and Protect Your Work In Windows

PC Tools for Windows gives you a better way to work in Windows today -- increasing your productivity, protecting your data, and boosting your system's performance. Now you can make Windows work the way you want to work. Use the innovative MultiDesk desktop manager and visual file management. The exclusive WinShield utility is another advantage. It is the first to provide Windows-based automatic operation of all vital data protection and recovery functions. For you it all adds up to safer, simpler and faster computing.

Desktop

Immediate access to often-used folders. Unlimited project/task-oriented virtual desktops. Integrated file and program manager with drag-and-drop file support.

System Enhancement

Automatic disk defragmentation in Windows. System Consultant for enhanced performance. INI-Consultant explains INI files in plain English.

Data Protection

Award-winning hard disk backup with SCSI tape support. Comprehensive Windows-based disk analysis and repair. Award-winning virus detection and cleaning. Emergency DOS system recovery disk. Crash Guard warns of low memory and disk space conditions.
