

## **The Best Word Processor for Windows**

### **UPGRADE VERSION -- scroll to end for details on how to qualify!**

WordPerfect 6.0 for Windows is the most comprehensive word processor ever written. It gives you the power and flexibility to create the documents you want, the way you want. You'll find everything you need to easily put together a simple memo or a complex newsletter or report. And because WordPerfect for Windows can adapt to your style of working, you'll complete your tasks using fewer steps in less time. WordPerfect for Windows is tailored to fit your every need.

#### **Customizable Interface, Templates, and Graphics!**

The customizable Button Bar, Power Bar, and Ruler Bar let you bring the tools you need right to your screen for one-click access. Use Template feature and skip formatting altogether, with more than 70 pre-designed ExpressDocs (including fax cover sheets, memos, invoices, and more) -- all you do is plug in the text. WordPerfect provides a full palette of graphics and drawing tools (including Bezier curves, text on a curve, and watermarks) that lets you easily enhance your ideas with logos, borders, and other illustrations. With a simple click of your mouse, you can turn your spreadsheets or other figures into pie, bar, scatter, hi-lo, or area charts. And, your words can take on a new shape or color with WordPerfect's TextArt feature!

#### **Integration . . .Compatibility**

As an OLE and DDE client and server, WordPerfect for Windows lets you easily access other programs. In addition, you can directly import databases, spreadsheets, and files from programs such as dBASE, Paradox, Oracle, Lotus 1-2-3, and Microsoft Excel. You can also bring your existing WordPerfect documents and macros into WordPerfect for Windows, and you can avoid learning new keystrokes -- just select the WordPerfect for DOS keyboard. No other product makes it easier as you transition to Windows.
