Microsoft Profit 1.0

Business Management and Accounting Made Easy

The easy-to-use business management and accounting solution for your business, Microsoft Profit helps you simplify and automate your bookkeeping and keep your records straight. Profit meets all generally accepted accounting principles, so you don't need to know accounting to keep track of your books. Just choose one of the common business forms, enter your transactions, and Profit does the rest. You can get a clear picture of your business instantly using reports and Profit Signs. Easily available reports include cash flow, sales, and inventory reports. Let Profit keep track of the numbers so you can do what you do best: manage your business and make a profit.

Helps You Manage Your Business

Profit Signs shows you at once how your business is doing. You can choose from more than 30 pre-defined reports, including cash flow and sales. Use the built-in calendar to schedule tasks, such as loan payments and invoicing, so you're reminded when they're due.

All the Accounting You Need Made Easy

Profit helps you keep your books in order even if you don't know accounting, producing balance sheets, income statements, and all other standard financial statements.

Get Up and Running In No Time

The automatic setup walks you through the creation of a financial system designed for your type of business. You can enter transactions easily using business forms you're familiar with, such as invoices, purchase orders, and checks. Let *Wizards* work for you, balancing your checking account, producing billing statements, mailing labels, and more.
