Lotus Freelance Graphics® for Windows Release 2.01

The Fastest, Easiest Way To a Great Presentation

Dazzle your audience with help from Freelance Graphics, the fastest and easiest way to create professional-looking slides, overheads, and handouts. The trick is a simple, intuitive, 3-step process. Just select a look, choose an appropriate layout for each page, then fill in the blanks. Freelance Graphics is as intuitive as it is powerful. Only you will know how effortless it was to put together your brilliant presentation.

Using Freelance Graphics Is Such a Breeze

An animated QuickStart tutorial gets you up and running in under 30 minutes. On-line Help from menus and dialog boxes is available, as are "Tips" buttons that provide advice and guidance for common tasks. SmartMaster Design Sets allow you to pick from 65 unique templates to assure a great looking, consistent presentation. There are 11 standard page layout formats to choose from --Title Page, Bulleted List, Bullet & Chart, etc. -- for each new page, as well as "Click Here" prompts that show you where to add text or graphics.

Everything You'll Ever Need or Want

Browse through Freelance Graphics' gallery of 108 chart styles. Import data from 1-2-3, MS Excel, and more with step-by-step cues. Use the text, drawing, and editing tools to automatically create a series of new slides, utilize scanned image support functionality, and view all pages in your presentation at a glance, and then rearrange them if necessary. Create the highest-quality color or B&W 35mm slides, overheads, handouts, and speaker notes in minutes!

A Great Presentation is at Your Fingertips

Choose from over 100 SmartIcons for "one-click" access to common functions and commands. A toggle switch allows you to simply click to view your presentation in either color or B&W. You can also browse through pre-defined styles for Data Charts, Org

Charts, Symbols, Tables, and Curved Text.
