## **Microsoft Word for MS-DOS 6.0**

### **Great-Looking Documents Are Easier with Word 6.0**

Go way beyond traditional letter formats -- be creative and be noticed. Microsoft Word makes it easier than ever to do everyday tasks like creating tables, writing form letters, and adding bullets, symbols, and borders. Check your grammar, make you text bold, italic, and underline or even change fonts with just one click of the mouse. Microsoft Word will make your everyday easier!

### **New Time Saving Features Make Tasks a Breeze**

Choose from a large selection of features and automatically add bullets or numbers to your text. Create a table in one easy step, click the ribbon to change fonts, or use drag-and-drop to move words, sentences, or whole paragraphs simply by using your mouse or by using keystrokes. Also use on-line context-sensitive help or ask WordPerfect Help for the answers to your questions. The on-line tutorial feature gives you the support and guidance you need to learn Microsoft Word for MS-DOS quickly so you can be on your way to designing the documents you need to get ahead in today's competitive world.

### **Other Great Word Features:**

Built-in network support

File sharing with other products

Cross-referencing

Multilingual spelling support

Password protection

Search and replace

Word 5.0/5.5 macro converter

And a great deal more!
