Employee Appraiser

Cut Review Writing Time in Half!

One of the hardest parts of writing a performance appraisal is getting the words just right. Employee Appraiser takes the struggle out of creating polished reviews because it puts an extensive set of carefully developed samples at your fingertips. Just click the Place Example button when you've located the sample you want, and the program automatically personalizes the example and moves the text into your document.

Over 400 Writing Samples Developed by Experts

Employee Appraiser was created by a writing team that included human resource professionals, business school university professors and a major California labor law firm. The program contains a separate notebook feature that you can use to keep track of significant events during the evaluation period. Employee Appraiser can even scan your completed document and offer advice when it finds potentially troublesome or inappropriate language.
