RECOMMENDED SYSTEM CONFIGURATION
It is advisable to have a MPC 486/66 or faster, 8MB RAM (16MB RAM recommended),
Windows 3.1, 95 or NT, QuickTime for Windows 2.1.2 (included in installer),
640x480 256 color display, and a double Speed CD-ROM drive.

To install the Macromedia Multimedia Showcase:

for Windows 3.1 users:
1) Insert the Showcase CD-ROM in your CD-ROM drive with the label facing up.
2) Open the File Manager and choose the disk drive that contains the Showcase CD-ROM.
3) Choose Run from the File menu.
4) In the Command Line field, type SETUP.EXE after the disk drive name and click OK.
5) Follow the instructions on screen.

for Windows 95/NT users:
1) Insert the Showcase CD-ROM in your CD-ROM drive with the label facing up.
2) Select and open your computer icon (on the desktop).
3) Select and open the CD icon.
4) Select and launch the setup icon.
5) Follow the instructions on screen.

On low end configurations, set your monitor to display 256 colors before running the
Showcase application. This will reduce application RAM requirements, and improve
performance and playback of animations. On faster machines with at least 16MB RAM,
select thousands of colors for optimal QuickTime video quality.
