

## Words that we couldn't say

We couldn't say them  
So now we just pray them  
Words that we couldn't say  
Funny ain't it  
Games people play  
Scratch it paint it  
One in the same  
We couldn't find them  
So we tried to hide them  
Words that we couldn't say  
It hurts don't it  
Fools on parade  
Taint it own it  
Chase it away  
We couldn't make them  
So we had to break them  
Words that we couldn't say  
Sometimes baby  
We make mistakes  
Dark and hazy  
Prices we pay  
I sit here on my shelf  
Just talking to myself  
Words that we couldn't say  
Someday maybe  
We'll make it right  
Until that day  
Long endless nights  
We couldn't say them  
So now we just pray them  
Words that we couldn't say  
We couldn't say them  
So now we just pray them  
Words that we couldn't say  
Someday maybe  
We'll make it right  
Until that day  
Long endless nights  
We couldn't say them  
So now we just pray them  
Words that we couldn't say
