

Pixie Dust

Welcome to Weeville, an ordinary town with an uncommon atmosphere.

Pixie Dust has been carelessly spread about by mischievous elves and now the town and the townsfolk are enchanted. Cute, funny, adorable and innocent is what they are up to, they can't help themselves. Everything they do is cute, funny, adorable or innocent. At times it's sweet enough to make you worry about tooth decay just by breathing the air, but most of the time it's a blast of fresh air compared to the world outside of Weeville.

Wander around on a self-guided tour of this micro hamlet and discover poetry, music, art and children that have been here for over 100 years waiting to tell you the stories of your life. Soon you will discover the spellbinding hold Pixie Dust has on the little folk of Weeville and why they never, ever want to leave.

A place of undescrivable richness, beauty, love, joy, compassion and warmth awaits you as you begin your journey. There is enough here to keep you pleasantly diverted from your worries for months to come, but don't become too enamored lest you be transformed into one of the wee folk by the mysterious ingredients in Pixie Dust.

Pixie Dust - the magic dust that brings wonder to life!
