

The first module for your %1 is included with the price of the disc. You can choose either the Diagnosis and Repair information module, or the Service Bulletin module.

You may also choose both options for the price listed to the left of the choice.

Diagnosis and Repair - This module gives you access to; repair procedures, diagrams, charts, specifications and Diagnostic information for **your specific vehicle**. Most people choose this module as their first choice!

Service Bulletins - This important module gives you access to the Service Bulletins issued by the **manufacturer** of your car. Included in this module are; **bulletins on recalls, field fixes, and problem areas**. Once again, these are specific to your vehicle. These **TSBs** keep you informed about **your** vehicle and provide a **valuable resource** of information not found elsewhere.
