KEENDM01.EXE	372832	09-26-92	KEEN DREAMS. This is not what people are advertising as the lost Commander Keen. It is in fact a game that was done by ID software for a mail order Company called Softdisk USA. It was used as their monthly offering of the club disk in August 1990. This is NOT an Apogee game. Never the less it is a Commander

			Keen game, whereby Keen throws balls to kill off the various attacking vegetables to work his way through the numerous levels. You can see thats it was a forerunner to Goodbye Galaxy and Aliens. One word of warning. There is an offer for people who register to get 10 games. I can tell you that this one and a game called Catacombes were the only two that ID ever produced for Softdisk. We are led to believe that the rest of the offer is made up of very poor quality games. But this game is quite good, and worth the download.
