## REPORT ON HARTFORD '83 CONFERENCE

By Marge and Bill Miller

On July 13-16 we were privileged to attend the Hartford '83 Genealogical Conference sponsored by the Federation of Genealogical Societies, the Association of Professional Genealogists, and the Connecticut Society of Genealogists. There were almost 1,000 attendees, and the conference was a great success. There were five simultaneous papers for most of the three days, a total of 55 papers, plus seven meal events, including the banquet at which the speaker was James D. Walker, formerly the genealogical specialist at the National Archives. Most of the papers were printed in advance, and we are presenting one set (five volumes) to the PGGGS Library.

We took advantage of the opportunity to tour and work in the local research facilities, the Connecticut Historical Society and the Connecticut State Library and Archives.

## NATIONAL ARCHIVES GIFT FUND

By Bill Miller

The first project for the National Archives Gift Fund was announced at the Hartford '83 Conference. It will be the microfilming of the street indexes for the 39 major cities in the 1910 census. These indexes were recently discovered in the hands of the Bureau of the Census, and they will greatly facilitate 1910 census research in those cities. The indexes yield the Enumeration Districts when the street addresses are known. The \$7,000 in the fund matches the amount needed for this project.

The campaign for the next project is now getting underway. It will probably be the microfilming of some portion of the Civil War or War of 1812 Pension Application Files. You may give your \$1 per year to Treasurer James Reep at our September 7 meeting. All members are asked to give \$1 per year to the fund in this national campaign for which the Federation of Genealogical Societies acts as the collection agency.

(Now that we can see the results of where our money is going, let's be sure and contribute each year. Make your tax-deductible check for any amount, payable to the Society, marked ARCHIVES GIFT FUND. Wouldn't it be wonderful to be able to microfilm your own Civil War records just like the Revolutionary War Records?) Ed.

## VITAL RECORDS

In a number of states new restrictions are being placed on vital records by genealogists, but in a few States, such as Iowa, organization by the genealogical community has resulted in improving access. The Federation of Genealogical Societies has committed itself to dissemination of the State-by-State story on vital records, both successes and failures, through its monthly newsletter. There is now a regular Vital Records Column, edited by Bill Miller, Chair of the FGS Vital Records Comm.

There was a consensus at Hartford of the Vital Records Committee on July 15, to secure modification, if possible, of the Model Vital Statistics Act published by the Bureau of Public Health, so as to improve access to vital records data for genealogists.

(Tri-State-Trader, June 18, '83, ACCESS TO RECORDS BECOMING IMPORTANT. This article dealt with the problem of the National Archives and states of Illinois, Missouri, Oklahoma and Kansas.

Genealogy Today, July 15, '83, PRIVACY FOR THE DEAD? deals with Minnesota and their legislature problems.

Genealogists should be aware that there is continual agitation in the legislatures throughout the US to close records to the public.) ED.

At the June 1st meeting the members elected the following officers for the coming year.

"STONES AND BONES" PROJECT MOVING RIGHT ALONG

Records Chairman, Jean Sargent, reports that the manuscript of our book "Stones and Bones - Cemetery Records of Prince George's County" is making good progress with only eight cemeteries yet to be turned in for final typing. All of the histories of the churches and their cemeteries have been written and are now being circulated among Board members and historians for proofreading and checking the accuracy of contents. Over 380 pages of final typing have been completed. After the last eight cemeteries come in, we will have to number the pages and commence the gigantic task of indexing the complete book.

This means that the researchers have checked in person the cemeteries of 13 Catholic churches, 11 Episcopal churches, 15 Methodist churches, 1 Lutheran Church, 1 Assembly of God, and many private cemeteries. Not yet completed are 4 Episcopal cemeteries, 2 Methodist, 1 Presbyterian, and 1 Laurel Mill/Ivy Hill, and we hope these will be completed very shortly.

We know that many of you can hardly wait to see the book, and Jean says that she can hardly wait to get it done because her whole dining room has had to become an assembly line for the progressive stages of the book and the reference materials. There have been over 30 people involved in the actual researching, and all have commented on the excellent cooperation which they have received from the churches. One of the most challenging problems has been to try to find the history of some of the tiny church cemeteries where the buildings have long since disappeared, and perhaps the replacement church, if any, is many blocks away. However, we have become expert sleuths at solving these mysteries.

## Book Reviews

By Shirley Langdon Wilcox, C.G.

MARYLAND MILITIA, WAR OF 1812, Vol. 5, St. Mary's & Charles Counties by F. Edward Wright. 1983. 121 pp. A gift of the author. Books may be purchased from Family Line Publications, 13405 Collingwood Terrace, Silver Spring, MD 20904 for \$10.50.

The material abstracted in this volume is taken from muster, pay and receipt rolls held at the National Archives. There is also a list of the enrollment of the militia in Saint Mary's County for 1794 when the new militia law was introduced. Following this are sections titled, Record of Commissions, St. Mary's County--12th Regiment, St. Mary's County --45th Regiment, Charles County --43th Regiment, 4th Regimental Cavalry District, and Bounty Land and Pension Applications. A comprehensive index makes searching for names a speedy task. Persons with Maryland ancestry can indeed be thankful for the many helpful volumes being published by Cdmr. Wright.

The Book of Names, Especially Relating to the Early Palatines and the First Settlers in the Mohawk Valley by Lou D. MacWethy. Baltimore. Genealogical Publishing Co., Inc., 1981 (originally pub. 1933) Gift of Sherman Rainwater.

The author states that the purpose of the book was to compile a listing of the settlers in the Mohawk Valley. Sixteen different authorities were consulted, including one in London. Each list of names is presented separately, usually after a brief comment about that group of records. About 20,000 names are included. The separate lists are usually in alphabetical order. The Kocherthal Church Records have a special index at the back of the book, but for the other lists there is no index. An index to the complete book, while greatly increasing the number of pages, would none the less have been appreciated by researchers as a page search is very time consuming.

Dutch Glory, Church Register 1791-1860 of the Bethlehem Lutheran and Reformed Church, Bethlehem Township, Washington, County, Pennsylvania by Margaret Miller Somon, Mahoning County Chapter Ohio Genealogical Society, Youngstown, Ohio, 1981, 90 pp. A gift of Mrs. Robert Wilms.

On March 1789 Michael and Anna Ottilia Somon conveyed 2 1/4 acres to the Trustees of the German Lutheran and the German Presbyterian congregations. A two room log schoolhouse was built in 1788 and the first log church was dedicated in 1797. The first baptisms were entered in 1792. These records show the names of the parents, name of the child, birth and baptism dates of the child and sponsors. A number of footnotes concerning the Baptism Register make it clear that great care was taken in transcribing. Another large section is devoted to a transcription of stones in the Bethlehem churchyard. There are several smaller miscellaneous sections and all are indexed at the back of the book.

Emigrants to Pennsylvania, 1641-1819 by Michael Tepper, Genealogical Publishing Co., Inc., Baltimore, 1979, 292 pp. A gift of Walt Keesey.

The lists of emigrants shown in this volume have been consolidated from those that appeared between 1877 and 1934 in the Pennsylvania Magazine of History and Biography. The content of each list varies. A few show the names of wives and children. Almost two hundred pages are devoted to indentured servants and apprentices bound and assigned at Philadelphia. These records show approximately 3,000 persons including masters and bondsmen. A number of the apprenticeships give the name of either a father or mother who gave consent. In a few cases ages are given. This book will be a valuable addition to our growing collection of standard books on early emigrants to the colonies.

LEDGER OF PAYMENT TO MARYLAND REVOLUTIONARY WAR PENSIONERS UNDER THE ACTS OF 1818 AND 1832, PAYMENT PERIOD OF 1833-1848. From the Office of the Third Auditor of the Treasury as found at the National Archives in Vol. E, pp 65-69, T718, roll 5 by Jane R. McCafferty C.G.

These pension payment volumes often show the dates of death of many pensioners. If the date of the pensioner is shown, his heirs are often named on a final payment voucher. If the date of death is not shown, it is to be inferred that the pensioners died shortly after the last payment date was recorded and that no heirs are named in the payment vouchers.

Of these 80 pensioners of this act all were listed as privates and received a monthly allowance of \$8 and started with the March 1833 payment except for the few mentioned that were otherwise.

THE DAR LIBRARY has increased its daily fee to \$5 for all non-members. The special lunch time rate and SAR members have been eliminated.

All military records at the National Archives have to be ordered from Room 400 now. They are picked up every half hour and then pulled. Only 3 records per hour will be honored. This means that if you have several records to look at, it can turn into an all day job. ARE WE TO BECOME CLOCK WATCHERS AS WELL AS RESEARCHER, too?

THE FL ST. GEN. SOC., INC. has FLORIDA PIONEER DESCENDANT CERTIFICATES. A certificate is awarded if you can prove your ancestor was settled in FL before 3 Mar 1845. A county certificate will be awarded if your ancestor was in a county before it was formed. (Muriel E. Lewis)

DEPRESSION PROPERTY CAN BE CLAIMED, via Muriel E. Lewis & Wash. Post 30 June '83.

Do you have an ancestor who lost everything when the banks failed in the Great Depression? For 50 years the government has stored 1605 cartons containing family records and keepsakes left in the vaults around the country. These boxes are now stored at the office of the comptroller in L'Enfant Plaza. The comptroller's office has released a list of names of 22,475 last known owners of this material left in bank vaults prior to 1934. Copies of the list and procedures to be followed are available from the comptrollers of the currency's CLAIM PROCESSING UNIT, Wash., D.C., 20219.

△ NGS Newsletter, Vol. 9 #3, Elizabeth P. White, the Writing Contest Chrm. had these suggestions..."Be careful to completely identify the wives of your ancestors. After many years of inspecting colonial marriage records, I would say that the median age at marriage for women was age eighteen. Age sixteen was common. Age fourteen was most uncommon. Any age younger than that is suspect and is almost certainly the result of confusion between women of the same name who may have been cousins.

In the case of a bride under age sixteen, it is an absolute requirement that a probate record be found to substantiate the relationship. Courts considered children under the age of fourteen as "infants" and usually gave guardianship to their mothers. Children between the ages of fourteen and eighteen were allowed to choose their own guardians, usually an uncle or older brother. That guardian had to give permission for a girl under the age of eighteen to marry. If you find that an ancestress was married at an unusually young age, investigate further. You want your family history to be correct."

△ OREGON PIONEER CERTIFICATES. To obtain a certificate, the applicant must descend from an ancestor who settled in Oregon prior to Oct 1872 (when the RR came through). MINUTES OF THE PRINCE GEORGE'S COUNTY GENEALOTICAL SOCIETY MEETING  
1 JUNE 1983

The last meeting of Prince George's County Genealogical Society for 1982-1983 was opened with introduction of guests by the First Vice President, Mary Ruth I. Stultz, in the absence of President James A. McCafferty, at 7:31 P.M. at Greenbelt Library, Greenbelt, Md. The meeting followed the customary hospitality period at 7 P.M., presided over by Mr. and Mrs. Frank K. Gold. The Acting President turned the meeting over to Elise H. Jennings, who introduced the guest speaker Vera Foster Rollo, who presented "Publishing Your Findings."

After a question-answer conclusion of the program, the Acting President proceeded with the business meeting at 8:18 P.M. with Show and Tell presentations. The minutes of the previous meeting were approved as printed.

Treasurer James W. Reep, having circulated copies of the Operating Report, July 1, 1982 to May 18, 1983, and of the Proposed Budget, 1983-1984, advised that the books will be closed as of June 30, 1983, for audit. The Treasurer reported balances as follows: Checking Account, \$1,036.35; Savings, \$3,432.71; Money Market Fund, \$553.42; Cash in hand, \$2.00, making a total of \$5,024.48. The Treasurer submitted a Proposed Budget accepted by the Council with an Anticipated Income of \$3,685.00, which added to Balance Brought Forward of \$250.00 made a total of \$3935.00. Anticipated Expenses were \$3,935.00. The Treasurer explained that projected income from savings and money market were less than in the previous year and that under Expenses, more was allotted to Program because of rising cost of space for meetings. Rising postal costs will also affect Regular Publications. The Treasurer pointed out that the donation to Archives Gift Fund will be underwritten by the Society if not forthcoming from the membership. Mrs. Mary D. Faust made a motion that the proposed budget be accepted as submitted. Past President Catherine M. Mayhew seconded the motion. The motion was carried.

Speaking for Archivist H Ivan Rainwater, Mrs. Karen D. Miles reported that nine new donations of books had been made to the Society Library, and she extended invitations to use the Library every Wednesday 10 A.M. to 1 P.M., as well as every second Sunday each month except August. Reporting for Bible Committee Chairman William A. Wiseman, Mrs. Miles stated four Bible records had been submitted in the last two weeks.

Records Chairman Jean A. Sargent indicated most of the Catholic Church graveyards had been recorded, as well as the Presbyterian ones for the Cemetery Project. The work is continuing on the Episcopal and Methodist cemeteries.

Second Vice President Dorothy D. Haney reported 204 members renewed their membership and that eleven new members had joined the Society.

Among announcements, Mrs. Stultz reported that the Council had conferred its first Honorary Membership on Charter Member Barbara Crissey Dash. Mrs. Stultz read a letter of acceptance from Mrs. Dash. During the proceedings of the meeting, the Acting President requested the membership to use a circulating clipboard to suggest ideas for next year's programs. Mrs. Stultz announced that Greenbelt Library had been reserved for the September meeting but that the new Program Chairman should have the opportunity to decide the location of next year's meeting place.

After the slate of officers, submitted by the Nominating Committee Chairman Phyllis L. Cox at the May meeting, was presented for consideration by the membership, the Acting President asked for nominations from the floor. Since no nominations were forthcoming, the motion

was made and seconded that nominations be closed and that the nominees be elected. The motion was carried. The following are officers for 1983-1984: President, James A. McCafferty; First Vice President, Cdr. Frederick E. Wright; Second Vice President, Dorothy D. Haney; Treasurer, James W. Reep; Secretary, Faith Payne Waite.

The meeting was adjourned by the President at 9:09 P.M. with 80 members and guests present.

DON'TS' WHEN USING CENSUS RECORDS, compiled by Jan DeWitt, publ. in Westward Into Nebraska, Greater Omaha Gen. Soc. via Tri-St. Trader, July 16, '83

Census records are easy to use; what can go wrong? Plenty, both for the beginner and the experienced researcher. Here are some negative ideas.....

---Don't stop with the soundex findings, go back to the original census record!

---Don't believe the census indexes to be either correct or complete.

---Don't assume the spelling of the name is as you know it now.

---Don't assume the relationship to the head of the household is as stated; Any one found listing of niece-in-law for instance?

---Don't assume the wife is the mother of any or all the children listed.

---Don't assume the ages given provide a birth year.

---Don't forget to copy the info at the top of the page, as well as all the data to the right of the occupation column.

---Don't forget to copy all the entries for your surname in the county. And better look over the neighbors too. Four Smiths in a row with a Jones in the middle could easily mean a married daughter and her family.

---Don't think the records before 1850 can't help. They may only have the one name listed but at least you'll know how many to look for...for a whole family.

---Don't think census data gives all the answers.

---Don't forget the 1880 plus records when you're stuck in the early 1880's. 1880 and later give the birth state of the father and mother.

---Don't forget the 1890 veterans census if your ancestor was in the military. Widows area also listed.

---Don't forget about state census records.

The fact that there are 13 "don'ts" is no coincidence; any one of the above could mean bad luck.

The re-introduction of the National Archives census film lending program has been announced. Diane Woodward, is Program Director. Write CENSUS MICROFILM RENTAL PROGRAM, P.O. BOX 2940, HYATTSVILLE, MD 20784 for details. The cost is \$2.25 for 7 days and must be used at your library or association. They say the program is designed for prompt shipment with no wait longer than 60 days. Out of town members should write for the details.

All those members interested in computers should look at CONSUMER REPORTS MAGAZINE for September. It has a 28 page special section on home computers. Answers such questions as What they can do..How readers are using them...How to buy one... Compares 17 brands and discusses taking one into your home. They say that by the 21st century, computers will be as common in the American home as TV sets are today.

## PRESIDENT'S MESSAGE

After a restful summer it is time to look to the coming months for opportunities to learn and share information on genealogy. For the greatest success this means finding persons who are searching the same family line. It means making those trips to court houses and other places where records can be studied and copied.

One of the advantages of belonging to our Society is that the Education Program is available. October 4, 11, 18 and 25 will feature a Seminar on Searching for Your Ancestors at the Oxon Hill Branch Library. (Further information appears in the Bulletin.) Each month beginning in November there will be trips or activities which will enable you to become familiar with local research facilities.

Our Records Committee Projects continue to hold our attention. STONES AND BONES is nearing completion. Watch for the advertisement. The SURNAME FILE is taking shape. New cards which are submitted will be held for the next publication of surnames. By popular demand the C and D Books of Prince George's Land Records will be transcribed.

The excitement created by our first speaker Mr. James D. Walker will inspire all of us to look into the Civil War records at National Archives. Just think those records are just waiting for each of us to discover them.

Finally, the technology of the 1980's, the personal computer, will make each of us to rethink the organization of our genealogical files. Take every opportunity to learn this application. One chance is the October 1, 1983 meeting of THE GENEALOGICAL COUNCIL OF MARYLAND. Following the business meeting which begins at 9:30 AM with lunch at 12:30 PM,

OCTOBER 5th

GREENBELT, LIBRARY

7:00

MR. JERRY McINTYRE

LAND RECORDS

Our program for October 5th will examine land records in detail. Good genealogists realize the value of this frequently overlooked source in revealing family relationships. Our speaker will look further at the tract descriptions themselves. This is something even good genealogists sometimes avoid.

Mr. Jerry McIntyre of Gaithersburg will lead us down metes and bounds and through the Rectangular Survey System. Mr. McIntyre has worked for the Bureau of Land Management in the Department of Interior for twenty-five years. He is a professional forester, having studied forestry at Stephen F. Austin State University.

Mr. McIntyre's interest in genealogy reaches back to his study of his own lineage. He is also, President of Clan MacIntyre Association.

EXCERPTS FROM JAMES D. WALKER'S TALK ON MILITARY RECORDS at our Sept.7th meeting.  
By Jane McCafferty

As usual, Mr. Walker, held our audience spellbound with his knowledge and tips on the CIVIL WAR MILITARY RECORDS that were available at the National Archives. His vast knowledge of information about the different record groups at the National Archives, is a tremendous aid to all people seeking answers in that area.

The first point he made was that the Federal Military Records are incomplete. The new GUIDE TO GENEALOGICAL RESEARCH AT THE NATIONAL ARCHIVES still does not identify many major series of military records. Many of the important series are glossed over or not mentioned.

#### CONFEDERATE RECORDS

The Confederate records are easier to use as the volume of these records are not as great as the Union records. The War Department Collection of Confederate Records, is RG #109. This group of records was started in 1877 and was completed in 1948. They are incomplete, can be incorrect and they lack personal details to identify. This group of records was made up after the war from records that were in the custody of the Union Army and from records that were loaned or sold to the War Dept. A great many records were never sent for processing. Many records had been lost or destroyed when they got ready to do the index. This record group is supplemented by Prisoner of War records, Hospital files, intercepted correspondence files and other sources.

By 1958, there were three living Confederate and 2 Union pensioners. The U.S. Congress passed special legislation for this group to receive pensions. This was due mainly for the benefit of the widow of the Confederate Gen. Jackson.

Many states gave pensions to their Confederate veterans. They establish homes, grave sites and parcels of land.

The main thing in looking for a Confederate soldier to see if he received a pension is TO KNOW WHERE HE LIVED AFTER THE WAR. If he had moved from the state that he served in, he would have applied for a pension from his new address.

There were two kinds of Confederate veterans. Those who served for the Confederate Government and those that served for the State Militia Units.

You usually find a complete record of a veterans when a man died in service. Look for the claim filed by the widow or the parent of that veteran. There also, was some conniving about a soldier's age at the time of enlistment. The Conscription Act for the Confederates was 17 to 55 years, but some men 12 to 80 were drafted. For the Union the age limits were 17 to 55 years. This difference in age limits was a necessity due to the continually regrouping of the units of the Confederate Army. THE UNIT THE SOLDIER SERVED IN COULD THUS BE DIFFERENT FROM HIS STATE OF RESIDENCE. The Conscription Act was different from the Draft Act. When northern state people were living in the south at the time of the war, they had to join the southern army whether they wanted to or not. When they got close to the northern army, they deserted. Mr. Walker told of the term "Galvanized "Yankee". This was considered a very dirty term. Many southern men also joined the Union Army instead of the Confederate due to the known pension benefits they would receive.

On the State indexes, they identify the men in the units. There could be more than one man with the same name. To help in identifying if this is the same man or several men, look to see if the terms served are consecutive or do they overlap. If the time periods overlap, then they are for two different men with the same name. A man could serve his term, be released and then be drafted again and again if he was needed.

#### OTHER CONFEDERATE RECORDS THAT YOU SHOULD CHECK

1. CONFEDERATE UNFILED PAPERS, M347. These are the residue of papers from the compiled index. They could refer to some original record, letters, vouchers, requisitions, paroles or oaths of allegiance. These personal papers are the originals of documents relating solely to the particular soldier.
2. THE CONFEDERATE CITIZENS FILE. M346, alphabetically arranged and show people who

made a claim showing they gave services or supplies.

3. THE UNION PROVOST MARSHAL GENERAL FILE. M345. Marshall law as imposed on a place that was occupied by the Union forces. They issued citizen resident permits for almost every thing. These are a vital source and all states are listed.
4. CONFEDERATE ADJUTANT AND INSPECTOR GENERALS RECORDS, M474. These are correspondence files and the most likely source for you to find out about a family.
5. CONFEDERATE SEC. OF WAR RECORDS, M437, are correspondence files of high ranking routine business, usually by officers or the legislature.
6. SOUTHERN CLAIMS COMMISSION, RG 217. DISALLOWED CLAIMS are in RG 233. This is a rich source of local history and family residence info. The states of DE & MD are included.
7. CONFEDERATE NAVY AND MARINE PERSONNEL, M260. These are partially indexed in the General Index. There is additional info in the Record of the U.S. Navy series, but they are not in easy access (room 8W N.A.)

The National Archives does have the largest collection of Confederate records available but many records are still in the states that supplied troops to the Confederate Govt. The state of OK has their pension index on micro. MS was the last state to grant them in 1933.

#### UNION ARMY SOURCE RECORDS.

In 1923 the legislature passed a bill for a consolidated index for the Union Army records, the only trouble was they forgot to fund the money for the project at the same time. There are 40 separate indexes to Union records and they all aren't on microfilm. The first place to go is straight to the ....

1. UNION ARMY PENSION SERIES, T288. Many Maryland men could have served in units from the states of MA, NY, NJ, PA or DE as well as Maryland units. The New England troops stopped in Baltimore to quell the riots. They lost many of their men, and the Maryland men filed in for the ones that were lost.

Men would take a commission in any State Regiment that would pay more money. Find the place of residence at the time of induction in order to learn more about your soldier.

2. DRAFT RECORDS. The Fed. Draft Act started in July 1863. You can't rely on draft records until after 1863. The states retained these records for the first two and a half years. Draft records identify the man who served, his name, age, place of birth, residence, and occupation. They show whether he was inducted or excused. They show if a man furnished a substitute. (Abe Lincoln wasn't subject to the draft but he hired a substitute to serve for him anyway.)

3. ENLISTMENT PAPERS. These are not indexed but Room 8W will check a name for you. Look only at these after you know the date of enlistment.

JULY 1863 is an important date. For the years 1861-62 a man enlisted for periods of 30, 60, 90 or 120 days. He got out and when he was needed again, he reenlisted. There might be several enlistment papers for one man. After 1863 he was drafted or served for a period of three years.

Check all files for a name that you are interested in. There is a large duplication of names in the Union Army, particularly in German foreign names. The progression in rank can be important, but men also went back in rank to that of private.

Union Army records are very good. They are nearly all complete, but some have been destroyed. Look for the branch of service. (Ex. 14 U.S. Inf.) The U.S. means it was the regular army. If a state is named in the branch of service, it was not part of the permanent army.

4. REGISTER OF ENLISTMENTS IN THE U.S. ARMY, M233, you must have the date of enlistment before using this group of records.
5. APPOINTED COMMISSION AND PERSONNEL RECORD GROUP. M1064 & M1125. This is an important record group for officers which includes five pieces of info. 1. The application for commission. 2. Letters for tender of the commission. 3. The letter of acceptance, which will reveal his age, place of residence and marital status. 4. Signed Oath of Allegiance and 5. Termination of service papers. (p76 New G.)

The most available information source to get this same information is in Frederick Heitman's book HEITMANS HISTORICAL REGISTER OF OFFICERS OF U.S. ARMY. Copies are available in the microfilm room.

6. UNION NAVY AND MARINE CORP RECORDS. Many men were drafted into these branches. They could also have enlisted into the army and were transferred into the navy. This is a large series of records. There is no simple index to use. You must get your reference from some other source in order to use these records.

A large number of men served in the merchant fleet. They also served as civilians as teamsters, nurses, doctors and telegraphers. Check out a possible story about your veteran by turning to the laws. But remember the laws might be wrong. There was one law that said no black man could be commissioned. Another law that stated no women could enlist or be commissioned. It is on record that the state of MI had one Black Officer and a woman Chaplin serving in the war.

7. COURT MARTIAL RECORDS. M273 (N) & RG 153 Office of Judge Advocate General. There are many of these records.

Time always runs out and these were just a few of the records that Mr. Walker mentioned. This was followed by a short question period. Check your new Guide to the National Archives, ask questions and you should be able to find more answers to locate your soldier. (Most of the RG & M #'s were added by J. McC.)

In the 17 Sept 83 issue of the Tri-State Trader, John W. Heisey had an article TRACING CONFEDERATE KIN. He mentioned many of the same points that Mr. Walker did at our meeting. Besides Heitman's book, he also recommended these two books: TRACING YOUR CIVIL WAR ANCESTOR by Bertram Hawthorne Groene and CIVIL WAR GENEALOGY by Dr. Geo. K. Schweitzer.

He reminded us that Heitman's book contained an index of those Confederate officers who had previously served in the United States Army prior to the date they joined the Confederacy.

Mr. Heisey ended his article with, "Make American History come alive by tracing your Confederate kin, and add romance to your genealogy. Don't be ashamed that one of your own family fought on the other side. Kinfolk are kinfolk, no matter what they did. What would you have done in their place?"

After you know your soldier's place where he applied for a pension and the organization he served with you should be able to find more information at these various State record keeping places. (Fr. Handy Book For Genealogists)

# Book Reviews

By Shirley Langdon Wilcox, C.G.

JOHN LEMMON AND WIFE ELIZABETH MICKEY, Pioneer Settlers of Colonial Pennsylvania Ancestors and Descendants by Lawrence Clifton Lemmon. Baltimore, MD. Gateway Press Inc. 1983. 362 pp. A gift of the author. Copies may be ordered from the author at 12617 Kornett Lane, Bowie, MD 20715. \$25.00

Early records of the Lemmon family show that the name was spelled in many different ways including Lamon, Lamont and Lamond. Much circumstantial evidence suggests that John Lemmon was a son of William Lamond of West Pennsborough Twp., Cumberland Co., PA. One chapter is devoted to this man and his family who, as is shown by his will, did have a son John. For the early generations the author has included wills, deeds, tax records, census, church records etc. Material for later generations has often come from present day descendants but the author has been very careful to reference such data with the name and residence of the person from whom he obtained it. The text is completely indexed with double entries for married women; they being listed under both maiden and married names. Descendants of this family will certainly want to own a copy of this very readable genealogy.

MARYLAND MILITIA, WAR OF 1812 BY F. EDWARD WRIGHT. 4 VOLS. VOL 1: Eastern Shore, \$12.50; Vol 2: Baltimore, \$12.00; Vol 3: Cecil & Harford Cos.; Vol 4: Anne Arundel & Calvert Cos, \$12.00. Copies may be ordered from Family Line, 13405 Collingwood Terrace, Silver Spring, MD 20904. A gift to the Society by the author.

Previous to this series of books, researchers have relied on the published listings of William M. Marine's THE BRITISH INVASION OF MARYLAND, 1812-1815, edited by Louis Diehlman. Because this did not include the material found at the National Archives, less than half of the Maryland Militiamen were included. Cmdr. Wright's series of books now fill this gap. Vol 5 has been previously reviewed in this Bulletin. Each volume lists first the county, then the regiment, showing the names and ranks of the militiamen. This is then followed by an alphabetical listing of bounty land and pension applications. Vol. 2 for Baltimore includes an appendix showing the Baltimore Militia Registration of 1794. All volumes have been indexed. All genealogical libraries will certainly want to obtain copies of this series and many persons will also want these volumes for their personal libraries.

THE BRASHEAR-BRASHEARS FAMILY 1449-1929 by Henry Sinclair Brashear. 1929. 151pp. A gift of Marion E. Beall.

Benois and Robert Brassier, two Huguenot brothers landed in VA in 1653 and then moved to Calvert Co., MD. Their parentage is unknown. One branch of this family was in Prince George's Co. where the records of Queen Anne Parish show that Thomas, a son of Benjamin and Mary Brashears, was born in 1690. A number of Brashears later moved to KY. Copies of letters, newspaper clippings, bible, marriages, wills etc. are given throughout the text which adds to the value of the publication. Regretably there is no index.

THE FOREFATHERS AND FAMILIES OF CERTAIN SETTLERS IN WESTERN PENNSYLVANIA by Wm. Boyd Duff. 1976. 392pp. A gift of LaVerne Patty Taylor.

This book is a narrative genealogy of some of the authors own ancestral lines. He has chosen thirty-four surnames and has devoted a chapter to each. The names covered are DUFF, PATTERSON, WALLACE, BOYD, BRYSON, NIBLOCK, McKEE, MILLER, THOMAS, MARKLE, ROTHERMEL, SIEGFRIED, NEWLON, BENSON, McGREW, DIX, MADDOCK, ROBBINS, BATH-RICK, BUCK, MINER, BALDWIN, PALMER, BOARDMAN, KILLAM, PICKWORTH, ROSE, ALLYN, HUTCHINSON, BILLINGS, GEER, HOWARD, WELLMAN and SPENCER. MORMON RECORDS WILL CONTINUE TO EXPAND

From an article by Jack Houston and published in the Chicago Tribune recently, a spokesman for the church headquarters in Salt Lake City, Utah, said their records will continue to expand. The church hopes the advancing computerization of its massive archives, one day can provide ancestral data on everyone on record who has ever lived.

To accomplish this goal, an ancestral file is being developed that in about five years will be able to link family lines back as far as they have been researched. When operational, the system will eliminate years of study for persons researching their roots. The system is to be open to anyone for an access fee.

The Mormon church has collected ancestral material since its beginning 150 years ago, and microfilming started in 1938. Estimates are that the Archives has more than one billion names on file. About 70 million of the total have been extracted from the microfilm and put in to the church's International Genealogical Index (IGI), a file that gives public access to more information on persons being traced and the sources of the data. IGI is available at the central library and at 375 branch libraries worldwide.

In the effort to update the ancestral file, church members around the world are asked to submit family group sheets tracing pedigrees through the last four generations. Because much of the new information will involve the living, access will probably be limited, unless permission for release is granted.

In order for the projected system to become operational, the program manager said up to eight million names must be entered into the computer system over the next four years. Eventually, branch libraries will have access to the data through telecommunications systems, eliminating most of the need for a research trip to Salt Lake City.

The "high-tech family tree" is important to Mormons because they believe God has prescribed that families must be united eternally through a church rite called "sealing", or "binding together". To perform the ordinance, names of ancestors must be known.

LEDGER OF PAYMENT TO MARYLAND REVOLUTIONARY WAR PENSIONERS UNDER THE ACT OF 1818, from the Office of the Third Auditor of the Treasury as found in the National Archives, Vol. A, pp 313-365, T718, Roll 1, by Jane R. McCafferty, C.G.

This pension payment volume will show the final date of payment or the recorded death date for the MD Pensioners inscribed on the 1818 roll. If the death date is found, then the names of his heirs are often named on the final payment voucher, which can be requested in Room 200 at the Nat. Arch. If the death date has a(\*) after it, the date was found in a later Ledger of Payment. If a(-) is after the date, that date was found in THE SECRETARY OF WAR report issued 20 Jan 1820.

"STONES AND BONES" PROGRESSING WELL -- NEW LAND RECORDS PROJECT ANNOUNCED

Our manuscript "Stones and Bones - The Cemetery Records of Prince George's County, MD" is rolling right along. The basic research is almost complete; the histories are being checked by church historians; the final typing is past the 480-page mark; and we are close to pagination and indexing the whole book. Many thanks to all those who have helped on the project. Hope to be done and ready to go to the printer by Thanksgiving. Christmas?

Therefore -- now is the time to announce the start of an interesting new research project for the Society. We plan to abstract the deeds in the County Land Records Volumes C and D as we did Volume A several years ago. (Volume C goes from August 1702 to March 1709 and Volume D - which is on the back side of the court records for the time period - goes from June 1708 to June 1710) There is no Volume B, which may have been a Court Records book.

We plan to get pages of the microfilm printed and then would like to have members volunteer to abstract maybe 25 pages apiece. Each deed will have to be abstracted by one person and then checked by someone else. Of course it can be done at the Hall of Records from the books, but we are hoping that it will be much easier from the microfilm prints which can be taken home. Forms and instructions will be provided. Please let Records Chairman Jean Sargent know if you can help on this very worthwhile project in the coming year. Many hands make light work!!

If all goes smoothly, a new memorial for the slaves buried at Mount Vernon, will be unveiled 21 Sept a ceremony expected to be attended by Gov. Robb.

There were about 320 servants working at Mt. Vernon in 1799, the year Washington was preparing to free them. Most of these are buried there in unmarked graves between 1760 and 1860, with only one existing grave marker for all.

The cemetery has been cleaned up and a new memorial will depict that these people were carpenters, nurses and talented people and human beings who were forced into the institution of slavery. (Fr. Wash. Post 5 Sept '83)

RE: NY ADOPTIONS

Legislature relating to records of adoptees, held by the St. of NY was signed by Gov. Mario Cuomo on 20 Aug. The new law, will help thousands of adults who were adopted in NY get info about their natural parents. The law also provides for natural parents to be reunited with their children IF both parties agree.

## DID YOU KNOW THAT ?

NEWSLETTER, Ohio Gen. Soc., Vol. XIV, No.8, pp 126-128. Rose M. Rombeiro has a an article GENEALOGY AND ADOPTEES. As a genealogist, she states there are six to ten million people in our country that are either restricted or totally prohibited from examining their past due to various state laws affecting adoptees. Adoptions that took place in OH prior to 1951 are "open record" in that the original and "new" birth cert. are available public records. Adoptions that took place between 1951 and 1964 are "closed records" in that generally only the adopting parents or adoptee can obtain a copy of the original record but not the new one. Adoptions after 1 Jan 1964 are "sealed records" and only available by Court Order.

With her info and ideas, we might better understand the ways of looking into the adoption regulations in our own state.

TRI-ST. TRADER, 30 July 1983. Alex Haley visited the IN Historical Soc. to begin work on his new novel about the life of Madame C.J. Walker, a black millionairess who developed a modest cosmetic business into an empire. Haley announced that he first contemplated a TV series but is pursuing a Broadway option instead. Haley feels that Broadway needs this kind of "upbeat" story.

He will write his new book aboard a ship bound for Singapore because he got used to writing at sea when he was in the Coast Guard.

TRI-ST TRADER, 27 Aug 83, article on MANY SOURCES 'RECONSTRUCT' MISSING MADISON COUNTY, IN, RECORDS. They say that when the Madison Co. CH. burned in Dec. 1880, the marriage records were totally destroyed. In 1905 an over-all effort was made to obtain the most complete record possible. The Indiana Room at the Anderson Public Library has many named sources. Newspaper and individual churches sources were mentioned. (If this is your county, help is available.)

USA TODAY, 15 Aug 83, CENSUS FINDS 1.3M INDIANS. There are 1.3 million Am. Indians today in the Census Bureau's first accurate count of the group. The 1980 population count was 1,364,033-- up 72% from 1970, mostly due to new counting procedures that allowed people to identify their own ancestry. Slightly more than half live in cities; 1 in 4 lives on one of 278 Indian Reservations. Only 5% are 65 years or older compared with 11.3% for the USA.

PA HERITAGE QUARTERLY, FALL 1983, p33. A new and more complete index to Egle's seven volume NOTES & QUERIES has been completed by Eva Schory. It has been a five years in the making and includes over 48,000 names and has 487 pp. It can be purchased through the Decatur Gen. Soc., Box 2205, Decatur, IL 62526 for \$30.00.

THE BUTLER CO., PA HIST. SOC. Has announced Vol. 1 of Butler Co. Cemetery Inventory. It includes the Northern Twps of Mercer, Marion, Venango, Allegheny, Slippery Rock, Cherry, Washington, and Parker. Volumes containing the other Twps are to follow. Soft bound copy, \$32.65, hard bound \$35.65. Orders sent to Butler Co. Hist. Soc., Box 414, Butler, PA, 16003.

JOTS, Vol.X, No.1, p6. The DRAPER MANUSCRIPTS have been re-microfilmed recently, and a Guide prepared. There are 123 reels of film and an index to 40 of the 50 series. For info, send SASE to Microfilming Corp. Of America, 1620 Hawkins Ave., P.O.Box 10, Sanford, NC 27330. If you haven't used these, they contain first-hand reports, letters and info on early pioneer experiences in the areas of PA, KY and surrounding states.

WASH. POST, Metro Sec., 2 Sept 83. Mike Sager's article DUSTY DOCUMENTS DISPLAYED IN FAIRFAX (Co. VA) GIVE HISTORY BUFFS GLIMPSE OF THE PAST. "Several truck loads" of documents had been gathering dust in the Old Court House attic for as long as 200 years. With this exciting find the County Historians will be able to fill in a little more about the history of the County. A long range plan is to index and microfilm this great find.

James A. McCafferty, President  
 Prince George's County Genealogical Society  
 P.O. Box 819

30 AUG 1983

The following report is submitted in accordance with the Bylaws of the Prince George's County Genealogical Society. This is the annual Auditor's Report and concerns my examination of the records developed, accounting methods used, and overall financial well-being during the Society's fiscal year 1982-1983.

On August 20, 1983, I reviewed the ledgers, accounts, statements, and supporting documentation maintained by Mr. James W. Reep, Treasurer of the Society for the past year. Jim provided the attached "Financial Statement," dated 31 July 1983, which presents an accurate summary of transactions in the accounts of the Society for the period since the last audit. My audit consisted of examination of 58 transactions selected at random and verified in the appropriate ledger and account entries, review of each supporting voucher as submitted by the respective Society officer or Committee Chair, and sighting the cancelled checks. Further, statements from each of the financial institutions maintaining the accounts of the Society were verified against the "Financial Statement" as shown below.

|   |           |
|---|-----------|
| Checking Account (Suburban Bank, reconciled as of 9 AUG 1983) | \$ 675.99 |
| Savings Account (John Hanson S&L, posted as of 28 JUNE 1983)  | 3495.25   |
| Money Market Fund (Gov't. Investors, dated 31 JULY 1983)      | 1760.85*  |
|   | -----     |

TOTAL LIQUID ASSETS OF THE SOCIETY (31 JULY 1983) \$5932.09

\*An additional interest payment of \$5.97 was credited 7/31/83 which will be posted to the accounts for fiscal year 83-84.

Satisfactory "double-entry" accounting practices are being used and Jim is doing a good job of maintaining the necessary "books" for the Society. He has refined the accounting system developed several years ago, which now consists of 32 accounts, and a consecutively-numbered, three color voucher system to reflect receipts, expenditures, and "memo (transfer) entries." For next year, he may need some additional Presidential support to ensure the timely submission of completed vouchers from claimants as well as other collectors of the Society's funds.

Having been in his position before and after reviewing his records for the past year, I can appreciate the time and effort involved in his task. He deserves the thanks of the membership for a job well done.

Sincerely,

*Kenneth A. Clagett*

## LAND RECORDS

Mr. Jerry McIntyre, has been with the Bureau of Land Management at the Dept. of Interior for twenty-five years. He presented an interesting and informative program by describing and showing how to plot an actual early land record as described by the early metes and bounds system.

There are two basic systems of recording land. The Metes and Bounds, which is the oldest and is used in all the Colonial States and Texas. The Rectangular System is used by the rest of the states and became the official system 20 May 1785. These were the Public Domain Lands, original land that had never left Federal ownership.

The Rectangle System is broken down by SECTIONS. A section is usually divided into four tracts of 40 acres each. All land sold west of PA was sold this way. A TOWNSHIP is a subdivision of the public lands that measures approximately six miles on each side and contain's approximately 23,040 acres and is identified by its relationship to a base line and principal meridan. Townships always run north and south from a base line. RANGES always run east and west from a meridan.

Ohio has the first seven ranges that run from the western boundary of PA westward. Ohio's townships are measured from the Ohio River northward (which is the base line) and the township numbers are different in each range due where the Ohio river was in that range.

To plot your land from a metes and bound description, you need one inch square graph paper divided into 10th's, a straight rule and a protractor. By reading the description as written and drawing it to scale, your land can become more meaningful to you. Try it if you haven't already done it!

"ENGLISH ORIGINS OF  
MARYLAND SETTLERS"

by

ROBERT BARNES

WED, NOVEMBER 2ND

7:00 P.M.

GREENBELT LIBRARY

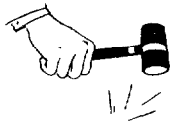

Our November meeting will present Robert Barnes in a talk on "English Origins of Maryland Settlers."

Mr. Barnes will discuss the genealogies of Early Marylanders.

Mr. Barnes is currently President of the Baltimore County Genealogical Society and past Preseident of the Maryland Genealogical Society. He is also verifying genealogist for the National Society of Colonial Dames in Maryland in addition to being verifying genealogist for the Society of Cincinnatti in Maryland.

His published works are numerous, many of which comprise early Maryland newspaper abstracts and church records. Mr. Barnes has performed genealogical research all over our state and he is especially reknown for his expertise in the Baltimore area.

PRESIDENT'S MESSAGE

Our October 1983 Seminar SEARCHING FOR YOUR ANCESTORS cosponsored by the Society and the Prince George's County Memorial Library System Adult Services has been a significant event for all of the participants. For example on a rainy night with the first World Series game underway 65 eager "genies" were present to learn how to use the library and our National Archives.

This interest is not something new. It is latent and needs such seminars to bring out our fine resource speakers and those who want to learn. This is an inspiration for each of us. Take every opportunity to improve your knowledge by attending similar seminars, attending Society programs and discovering how to improve your use of time when carrying out family research.

Mixed with our search of family lines is the history in which they lived. Names and dates on sheets of paper are a noble effort, but what did they do, what did they believe and what were their dreams? We cannot always answer those questions, but some can be determined through your efforts.

So when you carry out your research discover the local history at the time your ancestors lived by reading newspapers and books on the region. Find maps and directories which show where they actually or might have lived. You will be doing more than constructing a family tree, you will have planted ideas on paper which others long after us will read and cherish. Think about it!

Our special thanks to our Seminar Speakers and Society Members who assisted and to the Oxon Hill County Memorial Library staff for a great success.

Jim McCafferty, President

## Book Reviews

By Shirley Langdon Wilcox, C.G.

PASSENGER ARRIVALS AT THE PORT OF BALTIMORE 1820-1834, transcribed by Elizabeth P. Bentley, general editor, Michael H. Tepper. Balt. Gen. Pub. Co., Inc. 1982. 468 pp. A gift of Robert L. Stewart.

In his introduction, the editor states that "Customs Passenger Lists were originally compiled in compliance with an act of March 2, 1819 (3 Stat. 488). The object of this legislation was to assure ships' passengers a sufficiency of provisions and to alleviate overcrowding, which was to be achieved, in part, by fixing the limit of two passengers for every five ton of a ship's carrying capacity.

Several different sources were used in compiling this volume. All data has been merged into an alphabetical listing of all passengers found on the records used for this time period. Shown is the name of the passenger, age, sex, occupation, country to which they belonged, country they intended to inhabit, the name of the ship and the date of arrival.

MARYLAND HISTORY A SELECTIVE BIBLIOGRAPHY, Showing the Holdings of Some of the Major Libraries in the Baltimore-Washington Metropolitan Area by Elizabeth Lawton and Raymond S. Sweeney. The Montgomery County Historical Society. 1975. 210 pp. A gift of Pat Paulkovich.

As is apparent from the title, this is a bibliography of books in a number of larger libraries in the area. Those libraries included were: American University, Catholic University, Georgetown University, George Washington University, Montgomery County Public Library System, Montgomery College, Montgomery County Historical Society, Maryland Historical Society, Enoch Pratt Free Library, Prince George's County Public Library System and the University of Maryland. Each Library is given a code that when one finds a book of interest listed in the bibliography, it is easy to determine where to locate a copy. Genealogists will be especially interested in the sections of genealogy and also county and local history. Books concerning various time periods would also be of interest.

THE COUNTY COURT NOTE-BOOK VOLUMES I-X AND ANCESTRAL PROOFS AND PROBABILITIES, NUMBERS 1-4, edited by Milnor Ljungstedt. Gen. Pub. Co., Inc. Balt. 1972. Purchased by the Society.

The material in this volume is a reprint of two periodicals published by Mrs. Ljungstedt. Included is material relating to Maryland, West Virginia, Georgia, the Carolina's, Delaware, Kentucky and Pennsylvania. There are nine separate indexes that must be checked as the indexes were not consolidated for the reprint. The indexes are however on a colored paper so they are easy to find. There is no index for the last section which has several lists that are in alphabetical order. There is a vast amount of material in this book and we expect it to get much use by our members.

THE ENGLISH ANCESTRY AND HOMES OF THE PILGRIM FATHERS by Charles Edward Banks. Balt. Gen. Pub. Co., Inc. Reprinted with Additions and Corrections, 1980. 187 pp. A gift of Robert L. Stewart.

Included in this book are 113 Pilgrims who came on the Mayflower, the Fortune, the Anne, and the Libble James between 1620 and 1623. The author spent about four years searching various English records in an attempt to discover the ancestry of the Pilgrims. He was not successful in all cases, but often times does give clues that might be used for additional research. Additions and corrections which have appeared since this book was published, appear at the back of the book.

## DID YOU KNOW THAT ?

△ The Highlander, Vol. 21 #5, 10 MILLION SCOTS. The 1980 census figures listed 10 million Americans of Scottish ancestry. A little over 1 million listed themselves as single ancestry Scottish, while the balance listed multiple ancestry, Scottish/English for example. CA had the most Scots followed by TX, PA, FL, and NY in that order.

△ HISTORY OF ST. MARY'S CO., MD by Regina Combs Hammett. The third and final printing is now available. It has 646 pp, 107 pictures, and a dozen maps. Cost is \$15.00 plus \$1.32 for postage. The 53 page index contains almost 8,000 entries. Thorough footnoting, directs the reader to heretofore untapped sources of information. Books may be gotten from Regina Hammett, General Delivery, Ridge, Maryland 20680.

△ THE KY GAZETTE, 1787-1800 abstracted Karen Mauer Green. The KY GAZETTE was the first newspaper published in KY. At that time it was the only centralized form of communication in the frontier west of the Allegheny Mts. This means that no matter where your ancestor lived in early KY, he was probably mentioned at least once in this paper. The index contains over 15,000 entries of early KY pioneers. Cost is \$22.00 plus \$1.75 postage and will be delivered from the printers in late Dec. Order from Karen Mauer Green, P.O. Box 12933, Gainesville, FL 32604-0933.

△ PENNSYLVANIA MENNONITE HERITAGE has released its 44 pp tricentennial issue. It has special articles among which is European Mennonite Motivation for Emigration, 1650-1750 and maps of Germantown in 1688, the Germantown Mennonite Cemetery and the Zurich area of Switzerland are included. Available from the Lancaster Mennonite Hist. Soc., 2215 Millstream Rd., Lancaster, PA 17602 for three dollars.

△ ELY NEWSLETTER, Theresa Ryan is editing a quarterly newsletter the ELY HERITAGE, an old MD family since the early 1700's. If this is your family, contact her at 501 N. Paradise Rd., Aberdeen, MD 21001.

△ More on MI vital records rules via NGS NEWSLETTER VOL 9, #5, P 100. MI new rules became effective in April 1983. These rules restrict the inspection of marriage, divorce & death records to persons with a "legitimate research interest" in the records.

Joan Harvey, Legislative Chairwomen of the MI Gen. Council, says that these rules permit any genealogist to use any marriage, divorce or death INDEX or RECORD in the office of any local registrar...which is an amazing freedom in research!

Under the rules you are allowed access to the indexes and may request inspection of a record which is in the index. You are allowed to abstract info from the record or pay for a copy of that record. You are NOT permitted to peruse through books of records unless you can demonstrate to the county clerk that the record you are looking for is not located in the index or may be misfiled.

Under the MI law a person can write for a marriage, divorce or death record BUT only "an heir" may request a birth record. Their rules define "heir" as any "living relative of a deceased individual".

This info does give the genealogist more leeway.

△ Good news for the state of Arkansas vital records. They are still \$2 except for death certificates (\$3). For more info the Div. of Vit. Rec., St. Health Dept. has a nice recording (501-661-2336) telling you exactly how you may order these records.

△ TORONTO STAR, 20 Aug 1983. With the approach of Australia's 1988 bicentennial of its founding as a British colony, more and more people are beginning to research their pasts, a practice long avoided for the fear of what might be found. Australia began life as a British empire's foremost penal colony. This nation's founding fathers consist of swindlers, burglars and thugs; about 160,000 criminals were shipped from England, Scotland and Ireland during the colony's first 80 years. Embarrassed by their beginnings, many Australians over the years have gone to great lengths to hide their backgrounds. Whole sides of families were forgotten.

Not all Australian pioneers were convicts, but oddly enough, those with criminal backgrounds become easier to trace than those of the free settlers. Three groups of "jail bird" descendants have been formed and the members are proud to say that "that I've got a convict forebearer."

## PRESIDENT'S MESSAGE

The Holiday Season is a challenge to the genealogist. It is the time when families probably become the closest, often coming many miles to share a few precious moments. Each of us wants to be absorbed in the festivities and maybe overlook our genealogical pursuits. But is this wise?

Shouldn't we get together our questions about our family traditions. For certain like the Holiday decorations we put on display, we can anticipate that without tender loving care these decorations and our own traditions will suffer.

So the care and nurturing of our Holiday needs will spill over into the care we give to our family tree. So get your questions ready, buy some tape for your tape recorder or video recorder, buy some film for your camera and make this a rewarding Holiday for your family tree.

And what about gifts? Children and grandchildren can be surprised with a story you have written about the family. Perhaps a letter much like columnist James J. Kilpatrick writes to his grandchildren. Or consider a book about the community where they live with a fitting note on the flyleaf. For some of you with skills in the crafts, something home made, a wooden toy, a sweater, a play house, or a doll you have dressed, will long be treasured and handed down, as hopefully such things were handed down to you. Maybe you already have bequeathed one of your heirlooms for this purpose, but why not be there in person when the gift is unwrapped? Think about it.

The Society continues to see its efforts rewarded with increasing membership, strong support for our Library and Research facility, high attendance at our programs as well as our events sponsored by our Education Committee. We are delighted with this.

With size and increased resources we move away (nostalgically) from a small band of genealogists to a large group of persons with varied interests and concerns. Early in 1982 I announced that we were looking into incorporation. On October 19 the Society's Council approved The Articles of Incorporation drawn up by John R. Miles, of O'Malley, Miles, Farrington and McCarthy of Upper Marlboro, Maryland. On November 2, 1983 at its regular meeting the membership approved The Articles of Incorporation. In a special ceremony the President signed the Articles. It was witnessed by Shirley Wilcox, C.G. who had twice served as the Society's President and officially notarized by Mary E. Cox, Notary Public.

Also present for the signing were Past Presidents Freeman E. Morgan and William E. Miller as well as all current Officers and Chairs of Standing Committees.

The Articles have been forwarded to the Secretary of State for Maryland. We will share the actual Articles in a future SOCIETY BULLETIN.

HAVE A GREAT AND SUCCESSFUL GENEALOGICAL HOLIDAY SEASON.

Jim McCafferty, President

## IGCO CEASES OPERATIONS

(Last month we printed reports from this organization about various consumers.) From TRI-STATE-TRADER 1 Nov 83. The Bd. of Trustees of the International Genealogy Consumer Organization (IGCO), voted on 4 Oct 1983, to dissolve IGCO and to close down all of its operations by Nov 15th.

The Board feels that it has successfully accomplished the main purposes for which it was organized, and that such purposes should now be handled by other genealogical organizations. Purposes of the IGCO were to distribute free and specific information to consumers, freely register professional genealogists, and freely resolve consumer and professional complaints as they related to genealogy.

Action has been taken to terminate all of the above purposes, files have been destroyed and non-expired subscription monies for IGCO's Reports will be returned.

## FAMILY ORGANIZATION WORKSHOP

This past June some of our members expressed an interest in a seminar or workshop on "the family organization." On Jan. 21st 1984, Jim Reep will present a session covering many facets of developing and administering a family type organization.

This 9:00 AM to 3:30 PM session will cover: organizing, job functions, bylaws, program planning, publishing a newsletter, gimmicks, family archives, exhibiting family material, planning and conducting the reunion, tax exemption, incorporation, financing, record keeping and a number of other areas.

Because of space limitations, combined with the amount of handout material planned, attendance will be limited in number, and will be by reservations only. The Jan. BULLETIN will have details on how to make reservations and register. The morning sessions will be aimed at covering the subject material while the afternoon will be devoted to actual work at organizing a group and problem solving. Concluding the day's program will be a question and answer session. The workshop will be free, however, there will be a small fee to cover materials. Participants will be asked to bring a bag lunch.

Jim Reep is a C.G.R.S., a third term Treas. of our own Society and current Pres. of a 10 year old family association. He has been involved in genealogical research since 1972 and his instructor/teacher experience extends through the Scouting program and the Navy to 1963. Jim has published the Reep Family Review, the Assn's newsletter, for the past 6 years and has served as Archivist/Historian and Sr. VP of the successful Reep Family Association.

## Book Reviews

By Shirley Langdon Wilcox C.G.

MISSOURI MARRIAGES BEFORE 1840 by Susan Ormesher. Baltimore. GPC, Inc. 1982. 317 pp. Purchased by the Society.

This volume contains an alphabetical listing by the surname of the groom of marriages recorded in various counties prior to 1840. There is an index to the brides. A code lists the source. When published abstracts of marriage of individual counties had previously been made, these were used. For other counties the original marriage records were consulted. We call to your attention the fact that the St. Louis County & City marriages are not included in this publication. Readers will probably want to obtain copies of the original record once they find a citation in the book. Statewide indexes are always much appreciated by readers and can save countless hours of research.

A HISTORY OF THE INDIANA HISTORICAL SOCIETY 1830-1980 by Lana Ruegamer. Indianapolis. Indiana Hist. Soc. 1980. 383 pp. A gift to the Society by Pat Paulkovich.

This volume chronicles the growth of the Society from its beginning in 1830 until the 150th birthday in 1980. The end of the volume contains a listing on the contents of the first twenty-six volumes of the publications of the Indiana Hist. Soc. and a list of the special publications of the Society. Readers may want to check these listings to see if they might want to consult additional volumes published by the Society.

OLD KENTUCKY ENTRIES AND DEEDS by Willard Rouse Jillison. Baltimore. GPC. 1978. 571 pp. (Originally published as Filson Club Publications: No.34) Purchased by the Society.

This is a companion volume to KENTUCKY LAND GRANTS which was Publication No.33 of the Philson Club. It contains chapters on Lincoln Entries (1779-1787), Fayette Entries (1782-1794), Jefferson Entries (1779-1785), Military Warrants (1782-1793), Military Entries (1784-1797), Court of Appeals, Deeds, Grantees & Grantors (1783-1846), Wills (1769-1850) and Attorneys (1781-1853). There is no index but each section is listed alphabetically. Dates and book and page numbers are given where applicable so that one could easily check the original document for the complete record. Chapter one gives the location of these records in 1926. This book makes a fine addition to our reference library.

ROSTER OF SOUTH CAROLINA PATRIOTS IN THE AMERICAN REVOLUTION by Bobby Gilmer Moess. Baltimore. GPC, Inc. 1983. 1023 pp. A gift of Robert L. Stewart.

This book contains an alphabetical listing of all South Carolina patriots that the author was able to find by consulting a number of different primary and secondary sources. Entries show the capacity in which the patriot served, the names of commanding officers, dates of service and other pertinent data. Some entries show birth, marriage and death information. At the end of each entry is a source code so that the reader can refer to the original reference as needed. Thousands of names are shown, and this volume is sure to get much use by Society members.

VIRGINIA WILLS BEFORE 1799 by William Montgomery Clemens. Baltimore. GPC Inc. 1981 reprint. 107 pp. A gift of Robert L. Stewart.

Over 600 wills are arranged alphabetically in this volume. They have been copied from the records found at Amherst, Bedford, Campbell, Loudoun, Prince William and Rockbridge Counties. Each entry gives the name of the testator, the county, the date the will was filed and the names and relationships of persons named in the will.

ENGLISH ORIGINS OF MARYLAND SETTLERS  
By Robert Barnes as presented to our Society the 2nd of Nov.

The early Maryland colonists were made up of people from the working class as well as the landed gentry. The gentry class seems to be overlooked in the literature that is available.

Where did our English Colonists come from? First, from the professional, landed gentry and mercantile classes. Second, as interest became more aroused it expanded to the bonded servants. The parish from where these servants came was sometimes listed and thus sometimes points out a pattern through statistics.

Mr. Barnes has been working on two groups of settlers. The first group is of 125 known or believed to be mercantile-landed gentry people who paid their own way over and their parentage could be established in England. The second group was made up of anybody whose county and parish of origin were known. So far he has 1457 people in this group including both gentry and servants.

For the first group of 125 he tried to find the period of greatest migration. Most people came in the first fifty years of our countries history. In 1634 to 1659 24 people came; 1660-1685, 17 people came; 1786-1711, 8 came; 1712-1737 only 5 came; 1738-1763 had 10 people and 1764-1789 only 2 people came.

He looked at some of the adventurers who came over on the Ark & Dove Expedition in Harry Wright Newman's book Flowering of the MD Palatinate. Of these people he looked at, he found only 6 that had their parentage established. The rest were just servants or people we didn't know anything about. Seventeen people were known to have married, 13 were known to have children, only 5 were known to have died in MD. Many were known to have gone to VA or other places and even back to England. Of these 50 people, eight were styled Gentlemen and 7 held offices in the colonies.

So as we suspect, the gentry were in the minority in the early expedition but because the facts arene't known, more investigation has to take place.

Of the 125 in the first group they could be broken down as to where they settled. Most seemed to settle on the western shore. Nine settled in Pr. George's Co.; 6 in Charles Co.; 15 in Baltimore Co.; 10 in Anne Arundel Co.; and only 21 could be placed on the eastern shore. Several moved around a good bit and he was unable to determine where they settled.

Of the 125 settlers, 78% had their parentage established; 73% were known to have married; 68% were known to have children; 44% stayed in MD and 39% held some office. When the landed gentry came after the Ark & Dove, then we know a little more about them.

WAYS OF DETERMINING THE PLACE OF ORIGIN OF THE SETTLERS....

1. Coats of Arms can help to confirm where someone came from (bookplates, silverware and seal rings are ex.).
2. Parish Registers (England and this country)
3. Old Letters
4. Work done by other scholarly people who have published articles. (Check work)
5. Wills sometimes contain clues.
6. Deeds can show references to former residences.
7. Land Grants can give clues from the names given the new land.
8. Newspapers
9. Modern time census', letters, passenger lists, declaration of intentions, etc
10. Unusual names given to children of the immigrant.
11. Use of a distinctive seal can sometimes be helpful.

Once you have established the origin and parish of your immigrant ancestor you have several options. One, you can say you aren't interested in doing any English searching. Two, hire an English genealogist and three, do some of the English research right here in MD.

The best place to start is the Peabody Library (PL) in Baltimore. They have an excellent collection of published English Parish Records and Probate Records and other records.

BOOKS THAT ARE HELPFUL FOR LOOKING FOR YOUR PEOPLE IN ENGLAND:

1. The Genealogist Guide by George W. Marshall. First came out in England about 1903. GPC republished in 1970's. This indexes any family that had 3 generations or more in short form that were listed in hundred's of published County Histories, magazines etc. The introduction in the reprint tells you where to turn for help in finding material published since 1903. (At PL & MHS)
2. Whitmore's Genealogical Guide. A 4 vol. series continues the work of Dr. Marshall and goes from 1903 down into the late 1940's or early 1950's. (At PL & MHS)
3. For the Landed Gentry: Burke's Landed Gentry and John Burke's A Genealogical and Heraldic History of Commoners in Great Britain & Ireland. GPC

Other series can be more helpful:

1. Victoria County Histories of England came out about 1901. Each county has a multiple series of volumes describing the county, its history, churches and parishes, & families that lived on the manor. Families are usually described by line of descent, father to oldest son. Sometimes a noteworthy younger son is mentioned. The series is not complete.
2. Published histories of the counties or portions of the county can be helpful.
3. Lists of students of the British Schools & Universities.
4. Marriage Licenses were usually published when a couple didn't want to stay in the parish or didn't want to post the bonds and wanted to get married in hurry. In these cases they had to have a special license.

The Peabody Library has several hundred printed parish registers and there are several guides to them that you can consult.

1. Key to the Ancient Parish Registers of England and Wales by Arthur Meredyth Burke. GPC. This lists the parishes by county and the earliest known date they started and whether they were published by 1900. Many counties have Societies that transcribe and publish their parish records.
2. A Genealogical Gazetteer of England by Frank Smith. GPC. This lists the parishes by county, the date of the earliest entry and other info.
3. The Peabody has a typescript done by Sylvia A. Timmons, 1979, which lists all the parish registers that Peabody has. Printed English & Welsh Parish Records in the George Peabody Library, Enoch Pratt Library.

The St. Margaret's Parish in Westminster seems to be the ancestral parish of at least 6 MD families and probably more. Devonshire has 23 known parishes containing MD settlers (PL-4); Lancashire has 44 known (PL-18); Kent has 34 known (PL-1)

The Heralds Visitation series of records must be used with care. The heralds were sent around to the areas and the people had to bring in proof that they could use their coats of arms. If there is a ten generation pedigree chart attached, take that with care. The heralds didn't ask for proof of the pedigree. A false pedigree could go in by paying the herald a sum of money. If you didn't have a crest, some herald's suggested designing one for you, again for a sum of money.

Inquisition Postmortem records are another source of information. When a land owner died (down into the 17th cent.) there was an informal inquiry with a jury that established that the man had died, what property he owned or held it from, and who held it from him, either his wife or who his next heir was and what his age was. They seldom mention younger children and these are the ones who came to the colony. There are a number of these published volumes of records at the Peabody.

As a whole, what did he find out about the settlers?

In the group of 125, 11 each had paternal lines in London and Kent. Ten each in York and Lancashire, 5 from Cheshire and 5 from Middlesex.

From the second group of 1457 people...284 came from Middlesex, 264 from London, 85 from Lancashire, 71 from Yorksire, 64 from Surry and the rest were from Gloucester-

shire, Kent, Essex, Norfolk and Cheshire counties.

The conclusions are that some of the best places to begin your MD research of your English ancestors are in the counties of Yorkshire and Lancashire in the northern area and London and the surrounding counties in the southern area.

Some additional bibliography suggestions....

1. List of Emigrants From England to America 1682-1692 by Michael Ghirelli.
2. List of Emigrants From England to America 1718-1759 by J. & M. Kaminkow.
3. Bonded Passengers to America by Peter Wilson Coldham, 5 vols in 3. Convict records.
4. English Estates of American Colonists covers the Am. Wills & Administrations in the Prerogative Court of Canterbury. One book each for years 1610-1699; 1700-1799; and 1800-1858. By P.W. Coldham.
5. Annotated Copies of Some Letters Sent to MD in the Early 18th Century by McKendry Howard.
6. Harlane's Society Visitation Series, Vol 23. Published Allegations for Marriage Licenses by the Dean and Chapter of Westminster 1550-1669 and by the Vicar General of Canterbury for 1660-1679.

REPORT OF THE EDUCATION COMMITTEE

The recent completed autumn 1983 seminar series for beginners was held on four successive Tues. Evenings in Oct. at the Oxon Hill Branch of the P. G. Co. Memorial Lib. The first session attracted about 65 people in spite of the rainy eve. Many participants expressed their appreciation for the series.

These seminars are co-sponsored by the P.G.Co. Memorial Lib. System, Adult Services and our Society. The Library provides the meeting place, printing of the handouts and interpreters for the deaf and hearing-impaired. Our Society provides the speakers and a member of the Lib. staff is present at each session to provide assistance.

On behalf of the Ed. Comm. , I wish to express my appreciation to Shirley Wilcox, Donald Ray Barnes and Jean Sargent for their lectures and special thanks go to Jane McCafferty for stepping into the breach when needed. Mary Faust helped introduce a speaker when I was unable to be there.

Special thanks go to Phyllis Cox, Jim and Jane McCafferty, Shirley Wilcox, Pat Curran, Emerald Minor, Bill Miller and Ivan Rainwater for helping at the workshop.

## DID YOU KNOW THAT ?

PRESERVATION NOTES by Eden Harriss  
(Jots, Vol.X,#3,p7 West. PA Gen. Soc.)

A common question that comes up relates to the permanence of photocopy machines. According to John C. Williams, ret. Lib. of Congress expert on the chemical properties of paper, the only process that promises long life is the Xerox technique with its heat bonding of dyes into the paper. He recommends use of Xerox Archival Bond paper only, and feels that copies made from a well-adjusted machine should last 200-300 years or possibly even longer. The only possible problem with a Xerox is if the machine doesn't fuse the image properly. If the image rubs off or smudges when you rub it, don't use that machine until it is adjusted.

He also advised using Permalife paper by Gestetner or Hollinger or the Xerox Archival Bond when typing any important papers worth keeping. To improve your chances of retaining a clear typed image on into the future, use a carbon ribbon for better permanence.

The SEARCHER reports that a grant has been made to enable CA to develop a state-wide automation of newspaper records and preservation through the St. Lib. The 1st newspaper appeared in 1846, and there have been thousands since. The project is to end 30 June 1984, with the data to be put into CONSER, a nat. data base designed to catalog newspaper & periodical records. In addition they will micro all material.

COURT HOUSE RECORDS, Cornsilk Quarterly, (IL) Vol. III,#3. Phyllis Kelley gives us a new suggestion to look at the birth index for 1940's. There are delayed birth files. "Delayed births" records are birth certificates filed many years after the event by people who do not have an original record on file. There can be affidavits sworn to by a relative or the family doctor, or proof from baptism or family bibles.

In 1940, everyone who didn't have a certificate, suddenly needed one to get a Social Security card. So all of the people who were not previously recorded came in and filed their birth with the county clerk. The amazing thing is that some of these people were born as early as 1858.

SO WHEN YOU DON'T FIND AN EARLY BIRTH, LOOK IN THE 1940 INDEX.

NEWSPAPERS & THE GENEALOGIST,Coweta Co. Gen. Soc. Vol.3,#1. "Most of us have clippings on our families as-obituaries, birth & wedding announcements, graduations, etc. But there are many other items in a newspaper that can provide missing pieces to a puzzle."

Some suggested areas to look at.. Social & Community news, Registered Voter List, School news, Legal Ads, Church news, Commercial Ads, Civic Announcements, Elections, Jury Lists, Sports, and Club news.

EARLY COLONIAL MARRIAGES, MD Gen. Soc. Newsletter, Feb 83 & Mont. Co Club. Prior to the Revolution only a minister of the Established Church could perform the rites of matrimony. A marriage license might be procured which was ordinarily issued by the county clerk. The only record kept by the clerk was for the purpose of his financial settlement. This in part, accounts for the lack of marriage records prior to this period. However, since a bond was required to be given in the clerk's office that the marriage laws would not be violated, this added to perpetuate the record of marriage.

The SEARCHER, Nov 83 (So.CA Gen.Soc.) contains an article about the Borden and Beverley Patents of Orange & Augusta Co.'s VA. The 6 Nov 1739 Benjamin Borden Grant included 92,100 acres, and the Manor of Beverley Patent, dated 12 Aug 1736, encompassed 118,491 acres. An alphabetical listing of names, dates & acreage of later owners is included.

MINUTES OF THE PRINCE GEORGE'S COUNTY GENEALOGICAL SOCIETY MEETING 2 Nov. 1983

The Prince George's Co. Genealogical Society meeting was held 2 Nov 1983, at the Greenbelt Library, Greenbelt, MD. After the usual 7 PM hospitality period, the meeting was brought to order at 7:28 by the Pres. James A. McCafferty. Members and guests were welcomed to the meeting.

The speaker of the evening, Robert Barnes, was introduced by 1st VP, Cdr. Ed Wright. The topic was "Origins of Maryland Settlers in England" with a question and answer period following.

The business meeting commenced at 8:32 after a short break. Three guests were introduced followed by "Show and Tell". The Pres., in the absence of Jean Sargent, announced that the book Stones and Bones should be finished in December.

Editor, Jane McCafferty, apologized to the VA members who had not received their Bulletin. She explained that she had mailed them at the Bulk Mailing P.O. on Oct. 24th. She suggested a friendly complaint to their local P.O. to help clear up the problem.

The meetings of the last meeting were approved, after which the Treasurer, James W. Reep, reported balances: in checking acct. \$729.62, savings acct. \$3495.25, and money market fund \$1792.95 making a total of \$6,017.82.

Mrs. Dorothy Rainwater announced that Pat Paulkovich will provide assistance at the Nat. Archives on Nov. 9th. She reported a good attendance at the autumn seminar with about 65 in attendance at each meeting.

James W. Reep reported that on 14 Jan. 1984, he will present a program on how to successfully organize family reunions. The program will be presented at the Belair Mansion 9 to 3:30 PM. Registration slips will be available at the next meeting. Donations will be asked for to cover the cost of the handouts.

Dorothy Haney, 2nd VP, announced a total membership of 365, including 14 new members. Ed Wright announced the program subjects for the coming months. On Jan 11th, will be a talk on New Jersey genealogy. Feb. will be on the Mayflower passengers, March to be demonstrations with computers. Dec. will be an entertaining meeting with our members presenting some of their funniest and most unusual finds. A panel of judges will announce the winners. To participate call Ed at 384-0617.

Pat Paulkovich thanked the members for the refreshments and reminded people to sign up for other months. Bible Record Bingo was explained by Bill Wiseman. Members have to have contributed bible records to be a winner each month. The Pres. said the Surname Project has most of the transcriptions in. Members were asked to continue to submit cards for Volume II. Mr. McCafferty said that in recent seminars deaf and hard of hearing persons have attended with the aid of an interpreter. He asked the members encourage these people to attend our meetings.

Copies of the Articles of Incorporation were distributed to the members. John R. Miles, husband of Karen, drew up the articles for the Society. The Pres. reported that the Council had voted to accept these Articles of Incorporation as written. Since the Society is growing at a fast pace, it requires incorporation under the laws of MD so that our officers and committee chairs will not be held liable if a suit should occur. Incorporation of our Society improves our status as an organization and helps to provide permanency. After a short discussion, Lyla Gold made the motion to accept the Articles of Incorporation as written. Seconded by Phyllis Cox. The question as asked and the motion was carried. The Pres. then asked all Past Pres. and current officers to come forward to witness the signing of the articles. Notary Mary E. Cox was present to witness the event.

The meeting was adjourned at 9:20 PM after pictures were taken of the signing. Ninety members and guests were present.

December 7th Program

For those of you that missed our Dec. program, you missed your chance to share with us the many little events that make genealogy a meaningful thing for all of us.

We got hints from other members as to how they handled a certain situation plus shared some of their many unusual and funny events.

We had nineteen participants in this sharing experience. Ed Wright started the program off, followed by LaVonne Hanlon, Betty Hamilton, Ruth Stultz, Adele Worthington, Dr. C. Walter England, Freeman Morgan, Lyla Gold, Elise Jennings, Olive Batchelor, Joe Dorothy, Gwen Read, Milton Rubincam, Dan Rice, Jane McCafferty, Jim McCafferty, Don Wilson, Nada Poole, and Ruth Dungan.

After the audience voted and the votes were tallied Dan Rice and Dr. England tied for the funniest story told. LaVonne Hanlon told us the most unusual tale with Ruth Stultz sharing her biggest break.

The overall all 3rd place winner was Dr. England. Second overall winner was a tie between Dan Rice and Ruth Stultz.

THE OVERALL FIRST PLACE WINNER WAS LAVONNE HANLON for her story of looking for her grandparents in a PA Cemetery. It was an interesting and well told story. LaVonne received a certificate for Val Greenwood's book and all the winners received a pound of fresh honey from our President's hives.

MR. EDWARD RASER

On January 11th we take a look at research in our neighboring state of New Jersey. Our guide through the rich collections of genealogical records of this state will be Mr. Edward Raser, Associate Editor of The Genealogical Magazine of New Jersey. Mr. Raser has held this position over the past 25 years. The magazine has been the organ of the Gen. Society of New Jersey for 58 years.

Ed Raser has been researching and compiling New Jersey genealogies since 1945. He has written about 12 major genealogies of central New Jersey families. The surnames are: ALLEN, BOWNE, BORDEN, COX, DAVIDSON, ELLISON, GOODENOUGH, HAVENS, JEFFERY, KINNAN and POTTS.

Mr. Raser is a systems analyst for IBM, Rockville, having been in their employ for 32 years. Mr. Raser is a graduate of Cornell University. He and his wife live in Deerwood, MD.

This program will provide our members with a great amount of detail on searching the New Jersey records. Mr. Raser will cover all the major types of records, their history and sources.

PRESIDENT'S MESSAGE

Hope you aren't weary after the Holidays. Some of you may be thinking about writing a thank you for a gift. Why don't you sit right down and do it? What better time to ask about some information that you need to recall as you construct your family genealogy.

Recording voices both young and old are a way to make genealogy fun. Gather the children around you to tell about their first day in school this past year. For the oldsters ask them about their first job and what they did with their first pay check. If you have read some of the FOXFIRE books, these are based on conversations with many persons whose skills in weaving, wood working, farming and cooking are now in print. The records handed down by each generation by word of mouth are now shared with virtually thousands of readers. Now what you write down from the recordings may not be as important as the FOXFIRE books, but to your family, they will be cherished.

I am writing this following a brief trip Jane and I made to Williamsburg, Virginia. Not much has changed since we made a visit with the children perhaps 15 years ago. This attests to the effort of Colonial Williamsburg to remember the past so that we in the present can understand our heritage. A visit to this lovely Antique America as a visit to other similar places reminds us how necessary it is for us to leave a record.

Excited children see not only the beauty of Williamsburg, but the hardness of Colonial life and its simple fare. It is easy for us to understand it because of the living heritage of Colonial Williamsburg. How people lived is most important in putting together our family history. They are more than names, but describe their aspirations, fears, joys and suffering.

Make 1984 a great genealogical year for you and yours.

Jim McCafferty, President

MARYLAND 350th ANNIVERSARY and the SETTLEMENT OF THE MARYLAND FRONTIER: FREDERICK CO. 1730-1800 by, Dr. Elizabeth Kessel, at the NGS meeting, 22 Oct 1983. Dr. Kessel is Associate Prof. of History at Catholic Univ. and she spoke to our Society last Sept.

The primary mission of the early colonial area that was to become Maryland was that it would be a haven for persecuted Catholics. By 1632, George Calvert owned this colony and tobacco was found to be a good crop to grow and became the "American Gold" in Europe. In order to raise more tobacco, many more laborers were needed and had to be brought to the colony. These were people from the middling class rather than the Royalty and most were not Catholics.

They came mostly as an indentured servant or by a head right. A head right was a certain acreage given to the proprietors for each person that they brought to the colony. An indentured servant was usually a male, 15 -24 years of age, unmarried and from the lower class of England who labored for a certain number of years which was usually 7. These were the less colorful persons in the 17th century.

Three times as many men migrated during this period then women. The growth of the colony came from this on going migration of people to the colony. In 1690 there were 25,000 people in the area. By 1740 that number had risen to 105,000 people.

By the late 17th century, many indentured servants had served their time and were moving to PA, YORK and NJ. Maryland was losing it's laborers and this is the time that they turned to Africa for their laborers. Also, around this time period, tobacco began to lose its value as a crop.

Most of the population stayed around the Chesapeake but changes began to occur around 1740, mostly due to a diversifying economy.

The Calvert family who owned most of the original land, began to look for other land, and ended up buying the western lands. By 1732, the western lands were being opened up by Lord Baltimore. A family could get 200 acres free of taxes for three years. A single person could get 100 acres. People came from PA and the South and began to settle in Maryland.

Frederick County was established in 1748 from Prince George's Co. This included all of western Maryland. By 1790, there were 30,000 people in Frederick Co.

About this time Germany had been going through many on going wars with high taxation and religious persecution. Many people had died. The lure of this western land brought the German people to the colony. They came via Philadelphia and PA. The 200 acres of free land for three years was a big incentive compared to the small plots land they farmed in Germany. Michael DuLaney bought a very large tract of land. It was so large that he could divide it into 27 separate tracts.

The collective experiences of these individuals in western Maryland became an important aspect of her history. It was a cultural diversity. Maryland became rich and complex. The rise of Baltimore City was directly due to the development of the western lands.

By the time of the Revolution, some of the Germans ended up supporting the British, but many pacifist of the first generation Germans supported the Revolutionary Patriots. They thought they could remove their second class citizenship by serving in the Revolution. The Germans were a close knit society. We didn't see any intermarrying until the turn of the 19th century.

\*\* Dr. Kessel has made a study of the early land records, naturalizations and church records of the 271 early Frederick County settlers. Her dissertation about these families can be found at the Library of Congress. (Ed.)

## Book Reviews

By Shirley Langdon Wilcox, C.G.

VIRGINIA WILL RECORDS, From the Virginia Magazine of History and Biography, the William and Mary Quarterly, and Tyler's Quarterly. Baltimore. Genealogical Publishing Co., Inc. 1982. 984 pp. A gift of Robert Stewart.

As the subtitle implies, the material in this volume is composed of articles that appeared previously in three Virginia publications. Chosen for excerption were articles pertaining to estate records. These have been grouped into three sections, Will Indexes and Abstracts by County, Miscellaneous Will Records, and Verbatim Wills. New page numbers have been added and there is an everyname index to assist in finding names quickly.

THE COLONIAL CLERGY AND THE COLONIAL CHURCHES OF NEW ENGLAND by Frederick Lewis Weis. Baltimore. Genealogical Publishing Co., Inc. 1977. (Originally published 1836). 280 pp. A gift of Robert Sherman.

The bulk of this volume is an alphabetical listing of New England Clergymen of all denominations. Birthdates, birthplaces and parents are given when known. Degrees received, ordinations, places of settlement and date and place of death are given as known. A second useful feature is found in the back of the book which contains a list of New England towns, the names of churches, and the dates and names of the clergy who served. There is no index to allied names, but the names of the clergy themselves are easy to locate because they are in alphabetical order.

HISTORY AND GENEALOGY OF THE MAYFLOWER PLANTERS AND FIRST COMERS TO YE OLDE COLONIE by Leon Clark Hills. Baltimore. Genealogical Publishing Co., Inc. 1981 (originally published 1936 & 1941). 177 pp & 284 pp. A gift of Robert L. Stewart.

Originally published in two volumes, Mr. Hills' works have been combined into one volume for this reprint. The author's purpose was to provide a reference book for those interested in tracing the genealogies of Cape Cod families. There are a number of chapters on the history of the times and that of the Mayflower passengers in particular. The genealogical portions contain an emphasis on the descendants of Stephen Hopkins but numerous other families are included because of the intermarriages of this small colony.

MAHONING COUNTY, OHIO, WILLS AND ADMINISTRATIONS: ABSTRACTS 1846-1856, Volume I. Dawn Warner Bailey, Mary McCarty Weese and Joycelyn Fox Wilms, editors. Mahoning Co. Chapter, The Ohio Genealogical Society. 1979. 145 pp.

After county officials had finished microfilming the probate records it was discovered that the film had not included the loose papers of receipts etc. These records were saved and given to the Mahoning County Chapter of The Ohio Genealogical Society and abstracts of pertinent information appears in this volume. The material is arranged in chronological order and an everyname index appears at the back.

Vital Records in Virginia

Most cities in Virginia are independent of the counties within which they lie, so that the term "local registrar" is used to mean a registrar for any county or independent city.

Virginia was relatively early in requiring statewide registration of births, deaths and marriages, passing a vital records act in 1853. These records through 1896 are accessible on microfilm for genealogical research at the State Archives, Virginia State Library, Richmond 23219. The microfilm does not circulate and copies may not be obtained from it. All copies, even for the earliest periods, must be obtained from Bureau of Vital Statistics 109 Governor Street, Richmond 23219. The fee is \$3 per record, whether or not found. Copies are restricted in the same manner as shown below for the later records. The State Archives in the Virginia State Library also has microfilm for marriages through 1935. The same restrictions on copies apply as is the case for birth and death records. There are five-year cumulative indexes available to the researcher for births and marriages, but deaths are unindexed so far. (Here is a job for volunteers.)

During the period from 1896 until 1912 no statewide birth and death records were kept in Virginia, so that such records for this period are found only at the local level. Beginning with 1912, birth and death records are closed and are kept at the Bureau of Vital Statistics in Richmond as well as, in condensed form only, at the local level.

Statewide divorce records are also at the Bureau for 1918-present. No statewide index to these records exists before 1960, so that a request for a copy of an earlier divorce must contain the county and year of divorce.

The Bureau of Vital Statistics has computerized birth records from 1960 to the present and is now planning to computerize birth records for 1912-1930, this being the time bracket in which most pending retirees in the 1980's will have been born. Very detailed medical and personal data are re-

PGCS JAN 84

quired on the Virginia birth registration forms, and all of it is computerized.

Following the Federal model law (see our May 1983 column), Virginia requires that access to vital records be given only when the registrar is satisfied that the applicant "has a direct and tangible interest in the content of the record and that the information contained therein is necessary for the determination or protection of personal or property rights". Underlining has been added here. The underlined word "and" should be "or" to agree with the Federal model law. The registrar also "may permit use of data from vital records for bona fide research purposes subject to reasonable conditions" imposed by the State Registrar. It is our understanding that genealogists are not currently permitted to have access to the post-1911 birth and death records under this research clause.

Violations of the Vital Records Law (Code 32.1, Chapter 7) and associated regulations are considered Class 1 misdemeanors.

When access is granted, the search is made by the Registrar or his agent and a copy provided for \$3 per record. The fee is charged whether the record is found or not.

There are no provisions for opening records as they reach a given age as suggested in the model law. Note, however, that the earliest records may, in fact, be searched.

The act describes in general terms which records are open to the public and which are confidential. Of more importance to the Archives and those interested in records held by the Archives is a provision that all open records except adoption and specifically closed records, will be open after a period of 75 years, effective 1 Jan. 1984.
- CARROLLTONIAN, Vol.3, #2. They have started to publish the Carroll Co. Index to Wills, 1837-1899 and the Carroll Co. Index to Administrations, 1837-1898. Generally, the Index of Admin. contains all those listed in the Wills, plus those who died intestate. The first installment covers the A's through Henry Fowble. Once you find your name and want a copy, it is best to order through the Carroll Co. Gen. Soc., Carroll Co. Public Library, 50 East Main St., Westminster, MD 21157, for 50 cents a page plus postage. - AUSTIN QUARTERLY, Vol. 24, #4. NEW SOURCE FOR LOCATING OLD FAMILIES IN TEXAS. In 1974 the TX Dept. of Agriculture inaugurated the Family Heritage Program to register farms and ranches in TX that have been owned and operated by the same families for a century or more. The oldest estate registered in 1976 was The Noriacitas Ranch in Jim Hogg Co. It was established in 1740, some 36 years before the Declaration of Independence. The Dept. of Agriculture has annually published a Registry designed to record information about families that have held this land. Vol. I includes a valuable Glossary of Terms pertaining to land ownership in TX and a review of the land grant policy from the Spanish period until statehood in 1846/46.
- THE RILEY CO (KS) GEN. SOC. had a condensed article on the IMPORTANCE OF LAND RECORDS IN GEN. RESEARCH by Elaine Olney. She states "the study of land records is a very important part of Gen. Not only will land records add substance to your names and dates, but they will often provide the proof of parentage for that elusive ancestor." Some hints for checking: Be sure you have the correct county; study the time period(s); familiarize yourself with the indexes; Grantee & Grantor; A deed will show the residence of the grantee; a wife's name is usually on the deed except for the early years; by studying the land record of your ancestors neighbors you can often find out facts about your ancestor. In the early years Mortgage Records were used. Early plat books and atlases will help in finding where your ancestor lived. Besides the local records, the Federal Land Records can often add more clues for you.

MINUTES OF THE PRINCE GEORGE'S COUNTY GENEALOGICAL SOCIETY MEETING, 7 DEC. 1983

The meeting was brought to order at 7:30 PM following a hospitality period which began at 7 PM. President James A. McCafferty called on First Vice President Ed Wright who introduced the program for the evening which was "Can You top This One?" Several members told their most funniest, most unusual, most embarrassing and biggest break stories. Prizes were awarded to winners following the business meeting.

The usual break was omitted due to an emergency involving Bill Wiseman who received medical assistance from the Greenbelt Rescue Squad which arrived within five minutes of the call. He is doing fine.

The President asked for the approval of the minutes as printed in the December 1983 BULLETIN. They were approved as printed.

The Treasurer provided a report before he had to depart which shows a balance of \$5,957.85 as of December 7, 1983 distributed as follows: Checking Account - Suburban \$594.63; Savings Account - John Hanson, \$3,556.92 and Money Market Fund - Fund for Govt. Investors, \$1,806.30.

The President announced that the Surname File, Volume II, is open. Cards can be purchased for 2 cents each. Volume I will commence as soon as the computer program is prepared sometime in early 1984. Plans to complete the publication before June 1984. Volunteers who worked on transcribing the Surname Volume I records will receive the original listing to read against the computer listing when it is completed.

The Articles of Incorporation used the Post Office Box Number for the Society. This is inappropriate and therefore the Belair Mansion which is the address of our Society Library and Research Center was used and the papers resubmitted to the Maryland State Department of Assessments and Taxation. Photographs of the signing of the Articles of Incorporation were passed around to the membership.

Ed Wright gave a statement about coming programs.

Dorothy Haney provided her membership report via Ann Beck. The report was that we had 10 new members raising our total for the year to 375.

Ivan Rainwater indicated that because no holidays would interfere the Library and Research facility would be open on all Wednesdays, 10 AM to 1 PM, during December.

Dorothy Rainwater reported that there would be a Spring Genealogical Seminar series co-sponsored by the Prince George's County Memorial Library system. It will be held in the Hyattsville Branch on Thursday, March 15, 22, and 29 from 7 to 9 PM and on Saturday, March 31, 1984, 9 AM to 5 PM. This will be an excellent program for beginners.

Because of no reservations for a visit on December 8 to the Maryland Hall of Records to be conducted by Olive Jones, this tour was canceled.

On Saturday, January 14th, Jim Reep will hold a seminar from 9 AM to 4 PM at the Belair Mansion for those who want to learn how to start a family association. Attendance is by reservation only. No charge for the series, but a charge of \$2.00 for handouts prepared especially for this seminar. Bag lunch suggested.

On February 11, Bea Kennard will lead another genealogical encounter group. This begins at 9 AM at Belair Mansion. Bag lunch suggested.

On December 9th, a series of lectures were announced at the Enoch Pratt Library in Baltimore. It is about "Yesterday's News". How to use newspapers for genealogical research.

A request for the ballots completed by several members in connection with the program were turned over to Ed Wright and the counters, Jane McCafferty and Ruth Stultz.

Jean Sargent indicated that our Christmas Present, STONES AND BONES is almost ready. There have been some delays resulting from persons who are reading the historical descriptions. Also some retyping is required. Several maps for indicating location of cemeteries. Paging and indexing will follow shortly and Easter looks like a good publication date.

In deference to Bill Wiseman, the Bible Record BINGO game was not played. This is where three ping pong balls are picked out of a hat. If you have submitted a Bible Record and the number matches your membership number, you are a winner!

Prizes were awarded for the best stories afterward the meeting was adjourned at 9:10 PM. Number present 55.

Respectfully submitted,

PGCGS JAN 84

## ....NEW SOURCES....

On the 11th of January, Mr. Edward Raser presented an excellent indepth program of New Jersey and sources. Most of us have put a trip to Trenton and the State Library or to Rutgers Univ. at New Brunswick, as our first "genie" trip as soon as time and weather permits.

Mr. Raser has been researching and compiling New Jersey genealogies since 1945. He has been the Associate Editor for The Genealogical Magazine for New Jersey for over 25 years.

We thank him for his time and helpful program. His Overview of Record Sources for New Jersey Genealogical Research is included on pp 90-93.

FEBRUARY 1ST 1984

FIRST WEDNESDAY

7:00 PM

GREENBELT LIBRARY

WILLIAM BOWKER CLIFTON

On February 1st we will take a look at one of the first migrations to the New World. Our member Bill Clifton will talk on The Pilgrims: SAINTS AND STRANGERS.

Bill analyzes the two diverse groups which sailed the Mayflower. Bill has compiled and digested the works of many recognized researchers and writers to give us a perspective on how the Pilgrims managed to make the long trip, finally landing hundreds of miles from their intended destination.

Bill and his wife Hannah have been members for four years. He has been patiently researching the early days of the Pilgrims for many years. Bill descends from Peter Brown and Francis Cooke of the Mayflower and the Fords who followed in the ship Fortune. Bill has more than a little curiosity in the history of the Pilgrims.

PRESIDENT'S MESSAGE

The great event last year was our intent to incorporate and on November 29 at 9:20 A.M. the Maryland State Department of Taxation and Assessments granted the Articles of Incorporation. They are presently being recorded in Baltimore, Maryland. We should have our approved copy shortly.

The growth of the SOCIETY, its increasing net worth and the need to provide legal protection from litigation against sitting officers made Incorporation attractive. Our corporate address is our Library and Research Center, Belair Mansion, 12207 Tulip Grove Drive, Bowie, MD. 20715. We continue to use our P.O. Box 819, Bowie, MD. 20715-0819 for our publications and general correspondence. Of course if you

wish to write to the President or Editor use 613 Rosier Road, Fort Washington, Md. 20744.

1984 represents the 15th year of the Prince George's County Genealogical Society. Founded in 1969 the Society held its first formal meeting in September 1969. There were 36 Charter Members. Today several of these Charter Members continue their support and the organization is reached 388 as of our last meeting. This does not include some 70 Exchanges which receive the Society Bulletin.

The Council will meet shortly to discuss ways we can celebrate our 15th Birthday. If you have an idea to share, send it to me before February 1, 1984.

The Washington, D.C. Metro Area has been seized by unusually cold weather. This appears to be a similar problem across the country. Don't let weather dismay you, but begin your planning for Spring trips. If you get a "shut in day" because of snow or ice, sit down and write that genie letter you have been putting off, or organize your files.

1984 promises to be a better year than last because we are all a year wiser. Promise to finish one family line, take that photograph of your original home or write up your own family history.

Thanks for listening.

Jim McCafferty, President

PROOF POSITIVE" Article appeared in the Cincinnati Post, author Si Cornell.

"Ah, Red Tape! We give you the Cincinnati Bar Assn. news report on the attorney who knifed his way through a red tape knot.

This lawyer had a client who sought a loan from the Fed. Govt's Reconstruction Finance Corp. As collateral, the business man pledged property in LA. RFC told the attorney the loan would be approved if title to the property could be proved.

The attorney spent three months running down the title, which dated to 1803. RFC commended this effort, but sent word there could be no final approval on the loan until the property title was cleared back beyond 1802.

The attorney replied: "I was unaware that any educated man failed to know LA was purchased from France in 1803. Title to the land was acquired by France by right of conquest from Spain. The land came into the possession of Spain by right of discovery made in 1492 by a sailor named Christopher Columbus, who had been granted the privilege of seeking a new route to India by the reigning monarch, Queen Isabella. The good queen, took the precaution of securing the blessing of the Pope for the voyage before she sold her jewels to help Columbus. Now, the Pope, as you know, is the emissary of Jesus Christ, the son of God, who it is commonly accepted made the world. Therefore, I believe it is safe to presume that he also made the part of the world called Louisiana, and I HOPE TO HELL YOU ARE SATISFIED!"

NATIONAL ARCHIVES STAMP WILL SALUTE 50TH ANNIVERSARY.

The U.S. Postal service has unveiled the design of a 20 cent commemorative stamp recognizing the 50th anniversary of the National Archives. The first day of issue will be on 16 April 1984.

The brown, black and red vertically oriented National Archives stamp was designed by Michael David Brown of Rockville, MD. This stamp will capture the spirit of our nation's heritage as preserved by the Archives, using silhouettes of Pres. Washington and Lincoln. Two lines of black type running from bottom to top along the left side of the stamp read "National Archives, What Is Past Is Prologue 1934-1984".

## Book Reviews

By Shirley Langdon Wilcox C.G.

VIRGINIA MARRIAGE RECORDS, From the Virginia Magazine of History and Biography, the William and Mary College Quarterly, and Tyler's Quarterly, indexed by Elizabeth Petty Bentley. Baltimore. Genealogical Publishing Co., Inc. 1982. 794 pp. Purchased by the Society.

This volume is the first of a series of books containing abstracts from The VA Magazine of History and Biography, The William and Mary College Quarterly Historical Magazine and Tyler's Quarterly Historical and Genealogical Magazine. The abstracts are listed in alphabetical order by county. These are by no means a complete record of all Virginia marriages, but marriages from 44 counties are included and about 20,000 marriages are recorded. A complete index makes this volume easy for genealogists to use. Much time can be saved by using this volume instead of going through back issues of the individual periodicals.

GUIDE TO GENEALOGICAL RESEARCH IN THE NATIONAL ARCHIVES. National Archives and Records Service. Washington, D.C. 1982. 304 pp. Purchased by the Society.

This revised and expanded guide has long been awaited for by the genealogical community. It is divided into four sections and each section is broken down into chapters. Included are many copies of original documents so the reader has a better idea of what can be found in the individual records. The four sections are population and immigration, military records, records relating to particular groups, and other useful records. Some of these, particularly those in the last section are found in depositories other than the building on Constitution Ave. The publication is indexed, but the indexing is to chapter and sub-heading rather than to page numbers. This is one of those books that should be in the personal libraries of all serious genealogists.

THE MARRIAGE OF CATHERINE & DAVID. A History of Southwestern Pennsylvania Families by LaVonne R. Hanlon. Laurel, MD. Fay-West Heritage Publications. 1982. 68 pp. \$7 + \$1.50 postage and handling. A gift of the author. Order from Fay-West Heritage Publications, 247 Ironshire South, Laurel, MD 20707.

The author devoted five years to gathering the information for this book on her ancestors. Instead of waiting until she had all complete information (a day never comes) she has put down what she knows so that it can be shared with others. The four major families covered are Davenport, Rowe, Sechrist and Shirey. There are also chapters on Breakiron, Shrader, Cook, Freed, Sell and Schuster. Many photos are included and everything is indexed.

CANFIELD TOWNSHIP CEMETERY AND DEATH RECORDS, MAHONING CO., OHIO By Margaret Miller and Simon. Youngstown, OH. Mahoning Co. Chapter, OH Gen. Soc. 1983. 148 pp.

This is the first volume in a series of volumes planned by the Mahoning Co. Chapter of the OH Gen. Soc. Each volume will cover one of the fifteen townships in the county and will include cemeteries, veterans' grave registrations, death records, census mortality schedules and other records that might be available and useful. An index at the back of the book makes checking easy. It is obvious that great care has gone into the compiling of this volume. The varied sources, some of which give conflicting data, will be much appreciated by genealogists. This is a marvelous undertaking and it would be nice to see other chapters of the OH Gen. Soc. try similar projects.

Overview of Record Sources for  
NEW JERSEY GENEALOGICAL RESEARCH

DEEDS

For all practical purposes records start with the establishment of NJ as an English colony in 1664. In 1676 the colony was divided into East and West Jersey with their own Proprietors. In 1702 the Proprietors lost political control but retain to this day ownership of all undeeded land. Original warrants and surveys are recorded/ filed in the offices of the Proprietors at Perth Amboy (East Jersey) and Burlington (West Jersey). West Jersey records are accessible; East Jersey records accessibility currently unknown. Some Proprietors records are in England, but microfilm copies at AL/RU. Many West Jersey Proprietors records are readily available on microfilm at AL/RU.

By the act of 1700, records of conveyances were transferred from the Proprietors to the new state government. These records, from 1664 to circa 1800, can be found in the AHB/SL; They are estimated to cover only 25% of the land transactions made to this time. An alphabetical index by grantor and grantee is available.

The records acquired from the Proprietors also included patents, mortgages, lists of imported indentured servants, and other miscellaneous records, including a few wills, interleaved among the deeds. A valuable abstract of these records, 1664-1703, with given name index, appears in the published NJA vol. 21: Calender of New Jersey Records.

Since ca. 1800 all deeds, mortgages, etc. have been recorded in the county clerks' offices. Some early deeds can be found in some counties. No published indices are available.

NOTE: Do to the influx of East Jersey settlers from down states New York and Long Island, many references to New Jersey heirs and properties in New Jersey can be found in early New York deeds, wills and town records.

WILLS, ETC.

By an act of 1790, wills, inventories, intestate papers, guardianship papers, etc. were transferred from the provincial officers to the new state government in Trenton. From circa 1800 wills and inventories (copies?) were sent from the county courts to be filed by the state.

All state records can now be found in the AHB/SL. The records from 1663-1900 are indexed in the published Index to wills, inventories, etc., in the Office of the State of State Prior to 1901 (3 vols.) 1912-13.

Valuable abstracts of the above records (with given name indices) for the period 1670-1817 can be found in NJA in the Abstracts of Wills subseries (13 Vols). The Abstracts are not always complete an accurate; in some reference to the original may be warranted.

Since circa 1800 wills and other probate papers have been records in the Surrogates' offices of the counties. No published indices are available.

NOTE: Many early wills never were probated/recorded, even though the wishes of the decedents were carried out.

From 1702, when the Proprietors lost political control and the Royal Province of New Jersey was placed under the rule of the Governor of New York, until 1738, when New

*continued on p. 91*

Jersey received its own governor, certain probate affairs were handled and recorded in New York.

#### VITAL RECORDS

From 1665 - circa 1800, marriage licenses/bonds were required. When the new state government was formed these records were stored in Trenton; they are now stored in AHB/SL. Abstracts of the bonds can be found in NJA vol. 22; Marriage Records, 1665-1800; many inaccuracies and omissions have been reported. The originals should be consulted for supplementary date, including bondsmen and autographs. An occasional consent from parents can be found.

In 1795 compulsory marriage registration began at the county level. Marriage books are kept in the clerk's office of the various counties. Many of the marriage books have been published in abstract form, in books, magazines, etc. and are of varying quality.

Since 1848 compulsory birth, marriage and death recording has been done at the state level, with records filed with the State board of Health. Early records (at least 1848-78) are now in the AHB/SL; indices are available.

#### TAX RATEABLES

Beginning in 1773 annual assessments were made against individuals owning real and selected personal property. Property identification and valuation was made at the township/town level; more than 1000 original books of valuations and assessments up to 1822 are on file in the AHB/SL; microfilm copies are available for easy re-search. Many books were not saved, so that annual coverage in townships of interest maybe spotty; an AHB card index indicates extent records by township.

An abstract of tax rateables for three early periods: 1773-4, 1778-80 and 1784-86, was published in the Genealogical Magazine of New Jersey, beginning in vol. 36 (May 1961). A given name index of the persons in the rateables papers in Revolutionary Census of New Jersey, by Kenn Stryker-Rodda. See GMNJ 48:141 for an article which describes how the township boundaries at the time of the rateables can be determined.

#### MILITARY RECORDS

Extensive Revolutionary War records are available in the AHB/SL; index card abstracts are available to researchers. Published lists of soldiers in the Official Register of the Officers and Men of New Jersey in the Revolutionary War compiled by W. S. Stryker (1872) are incomplete and should not discourage anyone from searching.

#### OTHER RECORDS OF INTEREST in the AHB/SL

1. Loan Office Mortgages. Burlington, Gloucester, Hunterdon and Somerset Counties, various years 1724-86. Card indices.
2. Inquisitions on the Dead, 1688-1798. Card indices.
3. Papers relating to insolvent debtors, 1747-1818. Index.
4. Petitions for Naturalizing, 1749-1810; also Naturalizations in Chancery, 1834-42. Card index.
5. Tavern Licenses. Camden, Essex, Hunterdon, Mercer, Ocean, Somerset and Sussex Counties, various years 1726-1895. Card indices.
6. Claims for Damages by British and Americans in NJ, 1776-1782. Indices.
7. Card file to marriage and death records from sundry newspapers, 1776-1900.
8. WPA card file to birth, marriage and death records from sundry sources. Very incomplete, but useful for leads.
9. Liber of Commissions, 1703-74.
10. State Census Records. Taken at periods between federal census records; copies available for 1855, 65, 85, 95.

CHURCH RECORDS

In general, the records of various religious denominations in New Jersey is extremely spotty. Most early records of genealogical value, except as noted below, have been published in assorted books, pamphlets and magazines; no handy finding aids are available. Only two groups have reasonably extensive records:

DUTCH REFORMED. These records primarily apply to north Jersey before 1850; the records, especially baptisms, were carefully kept. Most early records were transcribed for the Holland Society, and many were published in the Collections of the Holland Society of New York.

QUAKERS. These records primarily apply to south Jersey before 1850. The Quakers kept good records, which have been well preserved. On deposit in Philadelphia, Swarthmore College, and New York City. Many of these records are abstracted in the Encyclopedia of American Quaker Genealogy, by William W. Hinshaw (1936-46) (in particular, Vol. 2, for New Jersey and Pennsylvania.)

PROGRESS REPORT - STONES AND BONES - CEMETERY RECORDS OF  
PRINCE GEORGE'S COUNTY, MARYLAND

Work is continuing on the indexing of the 617 pages of County cemetery records, and we have found about 3300 surnames so far. Of course there are many slight variations of a similar name, such as Bell, Beal, Beale, Beall, and Talbert, Talbot, Talbott, Talburt, Talburtt, Tolbertt, Torbert!!!

For the long of it we have Schollenberger, and the short of it - Su, and names range from Aaro to Zug. We have Wolfe and Fox and Dove and Bird. We have White, Gray, Brown, Green, and Black, and also Vermillion (red). We have Bakers and Millers and Taylors and Smiths and Coopers. We have Marsh and Brooke and Stone and Stubblefield. We have Waters and Wells. We have Frye and Cook. We have Newman and Freeman, and we have Castles and Chapels.

These are just examples of the interesting names found in our listing. The name which appears on the most pages is Brown, but many of our County names such as Mullikin and Sasscer and Duvall and Clagett, and Sansbury, and Townshend and Beall appear in many parts of the County under various religions.

It is hoped that our part on the work will be finished by early February and then it will be off to the printers. The total pages will be around 700, and after the indexing we still have some more work to do on the maps and possible illustrations. The price is still undetermined, but we should be able to tell you that soon. We will keep you posted!

BY IDENTIFYING OLD PHOTOGRAPHS, THIS CAN LEAD TO THE TIME PERIOD, THE PHOTOGRAPHER AND HIS REGISTER, WHICH CAN PROBABLY HELP YOU IDENTIFY YOUR FAMILY PHOTOGRAPH.

Compiled by Jane R. McCafferty

Many people have old photographs and many have no idea of which family member it is a copy of. If you can determine what kind of a photograph it is, then you have narrowed the time period down that it was taken in.

The second thing is to look for an identifying photographer's name or style. If you can find the name of the photographer, then it's probably that he kept a register of his business. Every photographer's register gave all kinds of information, like the date and place it was taken, who the subject was and how much they paid for the picture. By 1840 it was quite common to have your picture taken and no one individually had a camera, so they had to go to a photographer. These registers are collectable and available IF you have found out the name of the photographer. These registers can be located by looking in the National Union Catalog Manuscript Collection. These books are found in all large libraries and the office responsible for this series is located in the Library of Congress. At the Manuscript Special Materials Cataloguing Office there are several different indexes that can be used to help you identify the area or state that your photographer worked. With this information, you can find out where your photographers's registers have been preserved at.

The photographer Bell (Beall) was popular in the Washington DC area and his registers are located at the Library of Congress.

Mr. Bill Rogers, of Rogers Studios in Frankfort, KY is a world renowned specialist in reconstructing old pictures and helping to identify a person, if several photo's might be of the same person. He says that by just studying a small area like the one eye or ear area on one picture and then compare that same area on the second picture, with a magnifying glass, most time you can identify that they are the same person, only photographed in a different time period.

Remember that in that period that your kind of photograph was taken, there were not many photographers in that area or state in that particular time period. Once you find out who took the picture, find out where his registers are, and by a process of elimination, you can find out more about your specific picture.

### THE CHRONOLOGY OF PHOTOGRAPHY

1. The DAGUERRETYPE, 1839-1857, invented by L. J. M. Daguerre in 1837. This is the oldest of the commercially made photographs. It is a positive, one of a kind photograph that has a shiny, mirror-like appearance. It sometimes appears positive, sometimes negative, depending on the angle which it is held or viewed. It has a fragile silver surface on a copper plate. Each daguerreotype was originally enclosed in a case, and still needs that protection.

2. The AMBROTYPE, 1852-1863, invented by Archer & Frye in 1851. This is a positive on a glass and will have a coating of read or black paper or cloth behind the glass. Ambrotypes were enclosed in cases.

3. The MELAINOTYPES, FERROTYPE or TINTYPE, 1856-20th Century were positives. The tintype can arrange in size from tiny (3/4 inch) to 8 by 10 or larger. They are not shiny like daguerreotypes, not like on glass like the ambrotypes, but they are an image on metal. They can be found in cases or in paper frames, wall frames, albums or just loose. If they were slipped in cases or pasted in paper frames, they are more likely to be earlier. If they were just slipped into a frame, they are probably later in the period. If the pose was formal, the earlier the time. The more casual or a group of people, the later in time. Tintypes were taken in great numbers at fairs and amusement parks. Look for signs of the photographer on the back of the paste or paper. Also, compare the clothing fashions of that era for a time clue.

4. The CARTE de VISITE, 1859-1914, invented by Disderi in 1854. These were the first paper photographs, 2 1/2 by 4 1/4 in size and called visiting cards. Many were never put in albums, but some could be found there, with or without tintypes and cabinet portraits. The earlier ones were the thinnest while later ones were heavier and thicker. This type was continued to be made in Great Britain and Scandinavia after it was discontinued in the U. S. by the turn of the century.

5. The CABINET PORTRAIT, 1866-1914, invented by Window in 1866. This is a negative the size of 4 1/4 by 6 1/2 and was found in albums, wall frames and often just loose. Again, study the fashions for a closer determination within the time period. One hint, if the photograph is an oval pasted on the card or if the photograph is surrounded by dark grey or a black mount, it was probably made after 1900.

6. The POST CARD, 1905-1930. These can be found in great profuse and sometimes they were mailed, so look for the postmark as a clue for the time and area.

Sometimes on the back of the Tintype and the Carte de Viste photographs you can find a revenue stamp. This is a good clue that the picture was taken during the time of the Civil War. The photograph was taxed and the revenue stamps indicates that the tax was paid. Sometimes the stamp will have the date and maybe even the photographers name or initials is on it in ink.

Copies of photographs were made from at least 1860 on. Dauguerreotypes were copied on Tintypes and Cabinets, so it pays to check with an expert when in doubt.

GENEALOGY, Willard Heiss, Nov.83, #81, QUAKERS AND FAMILY HISTORY.

Excerpts from the article informs us that Quakers, generally, have been more interested in family history than most other cultural or social groups. Friends or Quakers as they are usually called seem to have an almost unnatural interest in ancestors. QUAKER GENEALOGIES published in 1974 lists some five hundred titles of printed family histories. A revised edition now being edited will contain over thousand titles.

Those with Quaker ancestors are twice blessed. Not only do they have the superb records that Quakers compiled but the plethora of published family histories which have preserved much of their heritage. The usefulness of Quaker records is well known, The wealth of information found in these records is legendary. Many family historians idly wish for a Quaker ancestor. A few clues about Quaker first (or Christian) names may sometime be helpful in fitting a piece into a puzzle.

Early Friends seem to give little attention to names other than perhaps repeating family names, which has been a custom in most culture. But by the late eighteenth and early nineteenth century, Quakers had come to use first names that were uniquely Quaker. These names used generations later may offer a clue to Quaker forebears.

Some commonly names used were: Guleilma, Lucretia, Karenhappuck (sometimes shorten to Karen),Charlotte (always pronounced Charlotty), Clark or Clarkson, Anthony, Charity, Gurney, Keziah, Ascenith and Rhoda.

**MASSACHUSETTS VITAL RECORDS BILL BECOMES LAW**

Governor Dukakis of Massachusetts signed into law H-5995, the Vital Records Bill initiated by THE Massachusetts Society of Genealogists and supported by the rest of the Genealogical community in the State.

The new law transfers all vital records in the custody of the State from 1841 through 1890 from the Registry of Vital Records to the State Archives. All restrictions on access to these records are removed. All indexes will be transferred. The transfer will also allow for the microfilming and preservation of these records, some of which had been allowed to deteriorate to a deplorable condition. The bill also calls for the transfer of the oldest five years worth of records every fifth year. Thus the records covering 1890-1895 will be transferred automatically by December 31, 1986.

Researchers should be aware of the locations of Vital Records of Massachusetts.

Records before 1841: In local cities or towns. Many published.

Records from 1841 to 1890: In Massachusetts State Archives, State House, Boston MA 02133 open 9:00 a.m. to 1:00 p.m. weekdays, phone: 727-2816. By mail: certified copies \$2 ea. Researchers may be restricted to the use of microfilm copies of some registers due to deteriorating condition.

Records from 1891 to Present: In Registry of Vital Records, (new address) 150 Tremont Street, Room B-2, Boston MA 02108. Open Monday, Wednesday, and Friday - 2:00 to 4:00 p.m.; Tuesday and Thursday - 9:00 to 11:30 a.m. Some restrictions may apply.

This bill also lifts the restrictions on the same vital records held in local cities and towns including adoptions and out-of-wedlock births and others.

**BEATRICE BAYLEY AGAIN**

Delegate Nell Woodard, San Diego Genealogical Association, has brought to our attention a full-page ad that appeared in "The Elks Magazine" Vol. 62, No. 3, September 1983. It reads "Since Beatrice Bayley's retirement from school teaching, she has created the FAMILY HERITAGE SERIES based on research of locations of her own and other families across the United States. It is a personal guide to the discovery and documentation of your family heritage"

If you have friends that are "Elks" please notify them, your family and other acquaintances, that this book is ONLY a computer print-out of names and addresses taken from city directories and telephone books, plus a few pages of "how to's" and blank forms. It is NOT a family genealogy.

**FRIEND FAMILY ASSOCIATION**

The Friend Family Association of America will hold its 7th Biennial workshop/genealogical seminar, headquartered at Grantville, MD Holiday Inn, Aug 10-12, 1984. Friendship, MD was founded in 1765 by John Friend, Sr. who emigrated from Hampshire Co., W. VA and settled on the west bank of the Youghiogheny River with his wife Karrenhappuch Hyatt and their children.

THE LANCASTER MENNONITE HISTORICAL SOCIETY will have their SIXTH ANNUAL GENEALOGY CONFERENCE on 31 March 1984. Raymond B. Clark, Jr, Editor of The Maryland and Delaware Genealogist for the past 24 years, will serve as the keynote speaker.

Deadline for registration is 17 Mar. Members \$15 & \$20 for non-members. Detailed program and registration from David J. Smucker, 2215 Millstream Road, Lancaster, PA 17602. (717) 393-9745.

"MARYLAND MARRIAGE LICENSES--KENT CO.

Here is a little story of the marriage license records: John Lewin and Robert Curry both took out license to marry Jane Bird. Both licenses were issued the same day, viz.: 22 April 1797. A note by the clerk on the page on which the records were made, just under Curry's name, says, "Curry was successful". Here is a whole two-volume romance condensed in two names and dates, and a sentence of three words. Probably the shortest novel ever written.

**APPLE II FOR GENEALOGISTS**

On March 7th, Sue Johnston, Secretary for the Howard County Genealogical Society, Secretary for the Genealogical Section of the Catonsville Historical Society and Secretary to the Genealogical Council of Maryland will talk about the use of the computer in genealogy and discuss types of software that "genies" need if they want to fully use the power of a personal computer.

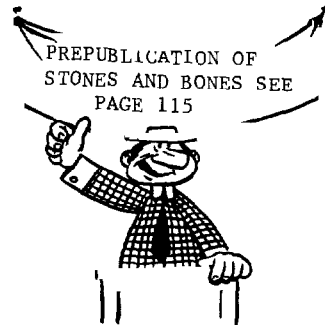

Though Ms. Johnston uses an Apple II computer, her talk will stress various applications and stay away from bits and bytes!

In the last few months several members have obtained personal computers. This should be a valuable session since it will include "live demonstrations".

Come and join us for an evening of application of family group sheets, and indexes on a computer.

## PRESIDENT'S MESSAGE

As I write this message I think about an earlier one where I it was suggested that we make certain that our genealogy will not be lost when our future becomes uncertain. I think back on that message today.

Your Editor Jane R. McCafferty wrote the following note before she entered the NIH Clinical Center on 7 February 1984.

"A note from your Bulletin,

I have enjoyed working on the Bulletin and hope most of you have benefitted from the tips.

I have to take an early stop and I want to say for all the thanks and help that you have given me. Elise Jennings and friends will continue for a few months.

I appreciate your friendships, messages & prayers that you have shown me this past couple of weeks-

I will be looking for the future month's issues.

Sincerely,

Jane McC

The above was written on a pad a few minutes before we left the house. I promised Jane I would not edit it...

Jane was quite tired in the last few months of her mother's life. She was cared for at our home with live-in help. The day before her mother died Jane was given a full physical. Seven weeks later she returned to her doctor who recommended a neurologist consultation. This was done on 30 Jan. with an immediate EEG, followed by a cat scan on the next day and the diagnosis of a brain tumor in the left temporal lobe on 1 February.

To use Jane's language, this was devastating. Because of the nature of the presumed tumor NIH accepted her as an Outpatient and she was given a consultation on 3 February followed by hospitalization on 7 February.

Jane does not have the classic symptoms, headaches, dizziness, pain or problems in reasoning or answering questions. Her problem is only mixed up patterns of speech which to those close to her might overlook.

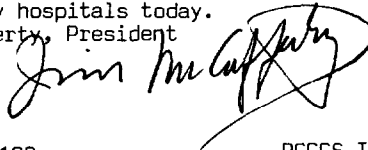

With her strong constitution as well as understanding of what is ahead, her family and friends expect her home by late February and on her road to recovery during the summer of '84.

Many of you may wonder why this isn't a private affair.. why the details? Jane and I have always been open and communicators. As a genealogist she has always presented the facts as she found them. She did the same in her personal life. We cannot act on rumor or poor information. We, therefore, find a great message in her present illness. Keep your genealogy work up to date, write those letters, call those contacts and keep your records straight. Except for a few letters to her genealogy clients, Jane was completely current. I thank her for that. Will you do the same for your family should an emergency rise in your life?

If you want to send her a card, send it to our home and we will take it to her at the hospital. Jane R. McCafferty, 613 Rosier Road, Fort Washington, MD. 20744. I cannot promise to respond to all of them, but do realize that they will be given to her.

Finally, the care and love provided at NIH equals the skills of the medical team. This support for the patient and the family is unbelievable. It is devoid of the impersonalization that occurs in many hospitals today.

Sincerely, Jim McCafferty, President

**"SAINTS AND STRANGERS" PRESENTED BY WILLIAM BOWKER CLIFTON  
AT THE FEBRUARY 1ST SOCIETY MEETING**

**HIGHLIGHTS:**

Being the lives of the Pilgrim Fathers and their families, with their friends and foes; and an account of their posthumous wanderings in limbo, their final resurrection and rise to glory and the strange pilgrimages of Plymouth Rock.

More, perhaps, has been written about the Pilgrims than any other small group in history. And yet they are still extravagantly praised for accomplishing what they never attempted or intended, and are even more foolishly abused for possessing attitudes and attributes quite foreign to them.

In the popular mind they are still generally confused -- to their great disadvantage -- with the Puritans who settled to the north of them around Boston Bay. Even Longfellow, who should have known better, dubbed Myles Standish "the Puritan Captain" and always referred to Priscilla Mullins as a "Puritan Maid".

"So they left that goodly & plesante citie, which had been their resting place near 12 years; but they knew they were pilgrims, & looked not much on those things, but lift (ed) up their eyes to ye heavens, their dearest countrie, and quieted their spirits."

-- Of Plimoth Plantation

A total of 362 individuals are numbered in the Pilgrim Company. They were all "Saints", "Strangers", hired hands and servants who came on any of the ships -- Mayflower, Fortune, Anne, Little James, Talbot, Handmaid and the 2nd. Mayflower. In addition there were members of the Green Gate Congregation who came at anytime, various merchant adventurers who settled in the colony and all others who were granted land in Plymouth prior to 1631.

108 Saints  
133 Strangers  
5 Hired hand - Only on the Mayflower  
56 Servants  
60 Unclassified passengers on the Handmaid.

NOTE ON THIS ISSUE OF THE PGCGS, INC. BULLETIN

Good Editors maintain copy several months ahead and when we learned that Jane would be unable to put together the March Bulletin, Jim decided to type up the information from the last meeting, plus material that Jane had laid aside for this Bulletin. So in between hospital visits to NIH the copy was prepared.

On the weekend of February 11 Jane was granted a pass to come home before her operation on February 13. She approved this copy before it went to press. In the printing trade a wrap up is called a "30". This is Jane's final "30", she looks forward to serving as a contributor in the months ahead.

NEW PGCGS, INC. BULLETIN EDITOR APPOINTED

The outpouring of concern for Jane R. McCafferty included a note from Elise Jennings #96 and her husband. Elise offered to help on the Bulletin and President James A. McCafferty invited her to the February 8th Meeting of the Society Council and announced her appointment as Editor for the Bulletin through the June 1984 issue.

Picking up a Bulletin at this time is not easy, and your assistance is needed to keep up the high standards we have set over the years. Elise will need your help. If you prepare copy it should be either 40 typewriter spaces per line and single spaced for a column or 80 spaces for a full page. Copy should be clean and free of erasures. If you have a problem use white out instead of retyping a complete page.

Items of genealogical nature should be sent directly to her. All Editors have the right to defer or reject copy either because it is unsuitable or is too long for inclusion. Use this address for sending copy:

Elise H. Jennings, Editor  
PGCGS, Inc. Bulletin  
6324 Brightlea Drive  
Lanham, MD. 20706

If you have a question about something you want to submit, give her a call at (301) 459-6244.

On behalf of the Council, President Jim McCafferty thanks Elise for accepting this appointment. We already know that Jane is pleased.

Jane completed 17 months as Editor of the Society Bulletin. Please give Elise the same cooperation and support as she edits your Society's contribution to genealogical knowledge. We know you will.

Finally, this Bulletin was mailed out by Phyllis Cox and friends who will be listed in the next Bulletin. We thank each of them for keeping the Society's Bulletin on schedule.

BEATITUDES OF A FAMILY GENEALOGIST

By Wilma Mauk,

Submitted by Corrine Afton to the Midwest  
Historical and Genealogical Register, Volume 18, # 2.

Blessed are the great grandfathers, who saved embarkation and citizenship papers.

For they tell whence them came.

Blessed are the great grandmothers, who hoarded newspaper clippings and old letters,

For these tell the story of their time.

Blessed are all grandfathers, who filed every legal document,

For this provides the proof.

Blessed are the grandmothers, who preserved family Bibles and diaries,

For this is our heritage.

Blessed are fathers, who elect officials that answer letters of inquiry,

For -- to some-- the only link to the past.

Blessed are mothers, who relate family tradition and legend to the family.

For one of their children will surely remember.

Blessed are the relatives, who fill in family sheets with extra data,

For to them we owe the family history.

Blessed is any family, whose member strives for the preservation of records,

For their's a labor of love.

Blessed are the children, who will never say, "Grandma, you have told that old story twice today".

## COMPUTERS IN GENEALOGY

On March 7th, Mrs Sue Johnston presented a very informative program on the use of computers in genealogy. She discussed using a computer to set up voluminous files that can be quickly accessed and sorted in different ways.

Mrs Johnston uses software compatible with her Apple II Computer, but she gave examples and information on several genealogy programs that are usable on different computers. A computer and printer were demonstrated at the end of the meeting for those members who were interested. For her views on "Computer Software for the Genealogist" see page 123.

## REMINDER

Mid Atlantic Genealogy Conference to be held in Baltimore, MD, July 12-14, 1984. The Conference will be held at The Pikesville-Hilton Inn, Baltimore, MD.

The Conference is sponsored by the Genealogy Committee of the Maryland Historical Society, The Maryland Seminar Committee and The Genealogical Council of Maryland. For further information contact: Mary K. Meyer, Chairman, 8768-C Town & Country Blvd. Ellicott City, MD. 21403 or Margaret S. Keigler, 130 Warwick Dr., Lutherville, MD 21093.

On April 4th we will take a look at our Ancestor's journey west and their encounters.

Mrs Netti Schreiner-Yantis of Springfield, VA will speak on probable routes, means of transportation, and travel conditions of our early ancestors as they moved west. Mrs Schreiner-Yantis tells many amusing and revealing anecdotes of these migrations.

Mrs. Netti Schreiner-Yantis is a noted genealogist. She is past president of The National Genealogical Society, on the Board of Trustees for The Certification of Genealogists, and a member of the Advisory Council to the National Archives.

Mrs Schreiner-Yantis graduated from Purdue University. She is the author of several genealogical source books. Her most known publication is Genealogical Books In Print.

## PRESIDENT'S MESSAGE

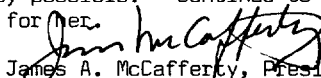

Our Society is quite excited about the pre-publication announcement of *STONES AND BONES* edited by our own Jean Sargent. Don't miss out on the pre-pub price. Other books with far less information sell for more dollars. If you have descendants who were buried in the church related cemeteries of Prince George's County, get your book right away.

The Nominating Committee for the 1984-85 membership year is hard at work. It is under the leadership of Freeman E. Morgan, Jr. (434-5736) as Chair with members Irene Allen D'Amato (490-8441); Karen M. Aamot Lowman (262-9339) and J. Evelyn Weir Miner (262-3076). In previous years the nominating committee has been announced in the April meeting; however, this early start provides more time for this important process. At the May meeting the Nominating Committee will announce its slate. The election is set for June 6th. Nominations can be made from the floor; however, the consent of any nominee must be obtained prior to such nomination.

As I think back on the last month, it was one that my family and I could not have endured without the support and prayers of our friends and family. Jane had most of her brain tumor removed by the fine surgeons at the NIH Clinical Center on 13 February. She returned home on 25 February. She was evaluated on 27-28 February for radiation treatments at the George Washington University Hospital and received her first treatment on 29 February. These treatments will continue for eight plus weeks, 5 times a week.

We have a long road ahead, but the stimulation of your cards, calls and visits has made this medical journey possible. Continue to keep Jane in your prayers. We thank you for your moments for her.

  
James A. McCafferty, President

P.S. The last Bulletin could not have reached you without the tremendous help of Arthur and Phyllis Cox. With my many trips to the NIH Clinical Center they took over dealing with the printers, stapling, putting the address labels on and zipsorting. Then they made the trek to the Post Office's Bulk Mailing Depot in Riverdale.

Regarding future Bulletins give your new Editor, Elise Jennings, the fine support you gave to Jane. She is picking up a difficult task, so give her letter perfect copy. She also has a computer, but her skills are needed in putting the copy together not retyping your works!

Finally my apology in omitting Jean Sargent's queries last month. Also I left off the gavel on this page!

## NOTICE

THE NATIONAL GENEALOGICAL SOCIETY'S 4TH ANNUAL CONFERENCE IN THE STATES WILL BE HELD AT THE SHERATON PLACE HOTEL, SAN FRANCISCO, CA. MAY 24-26, 1984. THE THEME OF THE CONFERENCE IS "DISCOVER FAMILY LORE IN '84". (Please Note the corrected date. The month was erroneously given as March in the March Bulletin.)

## COMPUTER SOFTWARE FOR THE GENEALOGIST

When you are looking for any program for your computer, whether it is word-processor, data base, or game, try it out in the store first. For genealogy programs, this will usually not be possible. Instead, call or write the company, and ask detailed questions on what the program does and how it does it. If the people do not answer your questions satisfactorily, try another program. There are enough to choose from without being forced to deal with an unhelpful group. Before buying the program, buy the manual and read it. This will give you more complete information. Then decide whether you want the program. Before you walk into a store, think about what you want your program to do. For example, a good data base program should be like your dream filing system: maximum referencing, cross-linking, and reporting, with a minimum of effort on your part. When considering any program, make sure it's easy to use. If it's not, you won't use it, no matter how much money you spent on it. When it comes to money, the most expensive program is not always the best, but good programs are usually not cheap.

The following are some points I looked for when choosing my genealogy program. Some are also good points to keep in mind when choosing any program.

1. DON'T FORGET HARDWARE COMPATIBILITY! This may seem obvious, but don't fall in love with a program which won't run on your IBM.
2. Ease of use (How easy is it to enter data? How readable is the manual? Are the command functions easy to learn and use? Is there a global-update function?)
3. Flexibility (Can you define your own fields and reports? Can you write your own programs to use your data?)
  - a. If you choose a program which allows "user-definition," can it be reorganized if you need to make changes in the format?
4. Size limitations (How many people can be stored on one disk? How many disks will the system allow?)
  - a. Watch out for programs which store direct line ancestors only.
  - b. Watch out for programs with a maximum storage size of 1,000 people.
5. Reports (What reports, charts, and forms come with the program? Are reports generated from one disk only, or will they span the entire data base? Can you define your own reports?)
  - a. Make sure that the program comes with at least a Family Group Sheet, Pedigree Chart, Family Tree Chart, and Index.
6. Searching and sorting capability (Does it have AND/OR capability? How many fields can be searched at one time? Does it sort on any field? Can sorted subsets be sent to the printer or a new disk? What is the limitation on number of disks searched?)
7. Company back-up (Is the company actively working on the program? Do they seem to be willing to help customers? Is there an upgrading option?)
8. User groups (Are there groups near you actively using the same program?)

This is a story about four people named Everybody, Somebody, Anybody and Nobody. There was an important job to be done and Everybody was sure that Somebody would do it. Anybody could have done it but Nobody did it. Somebody got angry about it, because it was Everybody's job. Everybody thought Anybody could do it. Nobody realized that Everybody wouldn't do it. It ended up that Everybody blamed Somebody when Nobody did what Anybody could have done. Submitted by Merl Seavey -- Midwest Genealogical & Historical Soc.

GENEALOGIST: ONE WHO TRACES BACK YOUR FAMILY AS FAR AS YOUR MONEY WILL GO.- -  
Anonymous - - Douglas Co., KS Gen. Soc.

## ARCHIVES GIFT FUND

The Archives Gift Fund was the result of a consensus of opinion of genealogists attending national conferences in 1981 and 1982. The thrust of this joint effort was enthusiastic support for a program that would solicit at least one dollar per year per researcher. This fund raising would be used to pay for the preparation of new finding aids at the U.S. National Archives--aids that will no longer be paid for from government funds because of budget and manpower cuts.

Some of the finding aids that are being considered are: complete pension files for Revolution and War of 1812, completing the index to Passport Applications and microfilming it, and microfilming Civil War Records (service records, volunteer records). A distinguished group of genealogists decide where the donated funds should be spent by determining which aids would be beneficial to the most researchers. The first project has been announced as the microfilming of the street indexes to the 1910 census of the 39 largest cities.

During the Fund's first two years, our Society donated a total of over \$90, which help to make up the \$7,000 total reported as available in the Aug/Sep 1983 issue of the Federation of Genealogical Societies' Newsletter.

This Society's Council--and general membership--approved the donation of a minimum of \$25.00 this year. However, as you well know, that is a far cry from the one dollar per researcher per year for this Society with its 398 members. We, as a Society, should certainly be able to do much better than \$25.00.

As "Washingtonians", we enjoy a special privilege--that of living as close as a subway ride from the National Archives. And, that repository contains some records that are not available anywhere else in the World. It would appear that we have a special opportunity, along with this special privilege, to help provide funding for aids which will help researchers all across the country--and at the same time, help ourselves. That opportunity is to do our part as a large, active genealogical

society. I challenge each of you to match or exceed my \$2.00 gift for 1984 in a drive toward at least a total gift of \$100 from our P.C. Society. If only half of our membership matched my small gift, the total would be nearly \$400. This also would be an excellent way to wish the National Archives, Happy Birthday on its 50th anniversary (June 19, 1984).

Write your check for your gift, now! Make it payable to the Prince George's County Genealogical Society and we will send a consolidated gift check in the near future. If you prefer, the treasurer can give you the mailing address for you to make your gift direct to the Archives Gift Fund. (...and of course, the donations are tax deductible...)

(Jim Reep, Treasurer)

## Book Reviews

By Shirley Langdon Wilcox C.G.

GIDEON THOMAS LEASE AND HIS DESCENDANTS  
by C. Walter England, Ph. D., C. G. 1983  
136pp. A gift of the author.

The author's late wife, Alma Estelle Lease, was a third generation granddaughter of Gideon Thomas Lease. Most of the data in this genealogy was furnished by living descendants of Gideon. The emigrant to America was William Lease Sr. who came from Germany and settled in Frederick Co., MD. His son, William Lease Jr., was born at Mt. Pleasant, Frederick Co., MD 19 Nov. 1774. Gideon Thomas Lease, son of Daniel Lease, was the grandson of William Lease Jr. The first three pages concern Gideon's ancestors, as outlined above, and the rest of the book consists of data on Gideon's descendants. References are cited at the end of each biographical sketch, and the names and addresses of persons who furnished data are found at the end of the book. An every name index makes searching for particular persons an easy job.

IRISH CELTS, A CYCLOPEDIA OF RACE HISTORY, Detroit: L. F. Kilroy & Company, 1884. The two Irish books are gifts of Brother David Richardson.

This book has an alphabetical listing of biographical sketches of noted Irishmen. A large time span is covered. Some persons flourished B.C., others were living in the late nineteenth century. There are sketches on six United States Presidents and numerous "patriots" of the Revolution. Statesmen, lawyers, soldiers, divines, military heroes, authors, actors, and artists are among those Americans for whom biographical sketches can be found. Due to the age and condition of the book it will be available for reference only.

IRISH PEDIGREES, OR THE ORIGIN AND STEM OF THE IRISH NATION by John O'Hart. New York: P. Murphy & Son. 1915. 2 vols.

According to the author, these two volumes "contain all the Irish Genealogies and any other interesting matter bearing on ancient Irish history which we have met with in our life-long research." The data on each family is necessarily brief. For persons who have no idea where in Ireland their family came from, the material in the appendix might be helpful. Some sections show where certain names were common during different time periods. This might help narrow a search. There is an index to surnames. Due to age and condition these volumes are available for reference only.

## DID YOU KNOW ?

Compiled by Pat Paulkovich

WHATACOM GENEALOGICAL SOC Bulletin Vol. 14, No. 2, Winter 1983, tells us that if we are looking for marriages in Washington State and having no luck, we should try looking in Idaho. It seems that many couples went to Idaho, to avoid the three-day waiting period in Washington. Also, Vancouver, Canada, could be searched for Pacific Northwest marriages.

WEST-CENTRAL KY FAMILY RESEARCH ASSN Bulletin reminds us that we should know our genetic roots -- a certain disease running in your family may mean that adjustments may need to be made in eating habits or that we may need more frequent checkups. Or you might fine your risk of a certain disorder is not as high as you thought. For help in tracing your medical genetic roots, send a stamped (37 cents) SASE to National Genetics Foundation, 555 West 57th St., New York, NY 10019.

MIAMI VALLEY GENEALOGICAL SOCIETY AIDS BULLETIN, Vol. 13, #3, Winter 1984, has a listing of family associations, with their addresses.

ILLINOIS STATE GENEALOGICAL SOCIETY NEWSLETTER 11/83. New legislation in New York State now makes it possible for natural parents to be reunited with their children if both sides agree. The State Health Dept. will give adopted children, at age 21, information about the religion, medical history, racial and ethnic backgrounds of their natural parents.

GENEALOGICAL CLUB OF MONTGOMERY CO. HISTORICAL SOC. Vol. IV, #2, Feb. 1984. Allegany Co., MD newspaper has a free monthly genealogy query column. Queries should be limited to 50 words pertaining to Allegany Co. ancestors. No limit to queries, but different query for each family line is requested. Mail queries to "OLD PIKE" TRAVELERS, P.O. Box 3103, LaVale, MD 21504

COWETA CO., GEORGIA GEN. SOC. MAGAZINE, Vol. 3, #2, Winter 1983, defines "talis juror" for us, from the dictionary as (1) Persons to be summoned for jury duty to make up a deficiency when the regular panel is exhausted by challenges; (2) The writ for summoning such persons.

THE SEARCHER, SoCALGenSoc, Vol. XXI, #2, has published a partial list of libraries in California, with hours of operation and phone numbers.

GENEALOGY, Indiana Historical Soc. publication Nos. 82-83, Jan-Feb. 1984, has a very informative review of Jessie Carney Smith's source book, Ethnic Genealogy. The book does not deal with all ethnic groups (impossible!) but does explore ways for those with American Indian, Asian, Hispanic, or black ancestry to search for their ancestors.

SOUTH SUBURBAN GEN and HISTORICAL SOC BULLETIN, Vol. 14:2, Winter 1984 (So. Holland, IL). Mrs. Florence Hutchinson, Pres., Jacksonville Area Gen. & Historical Soc. tells us that if we are looking for the names of parents, together with other vital statistics such as we might expect to find from birth, marriage, and death records, we will not find them on Illinois death records prior to 1910. In 1910 the law was changed to include the names of parents. About 1920, the name of spouse was added. She has summarized the information required before and after 1910.

COPPER STATE BULLETIN (AZ), Vol. XVIII, #2, Spring 1983. The General Commission on Archives & History of The United Methodist Church on the campus of Drew University, Madison, NJ, has many rich resources for genealogical researchers, and this material is available to visitors. THE PRINCE GEORGE'S COUNTY GENEALOGICAL SOCIETY, INC. MEETING  
7 MARCH 1984

The meeting of the Prince George's County Genealogical Society was held March 7, 1984, at the Greenbelt Library, Greenbelt, Maryland. After the usual 7:00 PM hospitality period the President, James A. McCafferty, welcomed guests and members to the meeting. A show of hands indicated many present had computers in their homes.

Vice President, Ed Wright, introduced the speaker, Mrs. Sue Johnston, who spoke on the use of the computer in Genealogy and discussed the types of software that "genies" need in the use of their personal computer. A question and answer period followed Mrs. Johnston's talk and slide presentation.

At 8:30 the President, James A. McCafferty, commenced the business meeting. A warm welcome was given to the large number of members and guests in attendance. Greetings were also conveyed to the members from Jane McCafferty, who is now home recuperating from her recent operation.

After Show and Tell, Vice President Wright announced the program on April 4th will be migrations, travel conditions, trails and routes taken West.

Dorothy Rainwater asked for members to volunteer to help in the Seminars that will be held soon. She reminded the members that once we were all beginners and needed help, now it is time for us to help the beginners.

## MIGRATIONS

On April 4th, Mrs Nett1 Schreiner-Yantis gave a very informative talk on our early ancestors and their travels west. She described the early road conditions and when some of the early roads where built. One of the main means of transportation was the use of rivers and canals. Mrs Schreiner-Yantis gave us some interesting stories from journals of people who made this early trek from east to west. All present certainly have a better understanding of routes, means of transportation , travel conditions , and reasons our early ancestors moved west.

### CELEBRATING A 350<sup>TH</sup> BIRTHDAY

### MARCH GENEALOGICAL SEMINARS A SUCCESS!

The Education Chairman, Dorothy Rainwater, reported that 65 people attended each of the series of genealogical seminars held in March at the Hyattsville Branch Library. Mrs Rainwater wishes to express her appreciation to those who took part in the Seminars. We all are indebted to Shirley Wilcox, Ann Wellhouse, Olive Jones and Jean Sargent for their informative lectures. Also thanks goes to Shirley Wilcox, William E. Miller, Olive Jones, Jean Sargent, Elise Jennings and James Reep for their assistance with the workshop on Saturday. We are deeply indebted to the Prince George's Memorial Library System and to Margaret Thresher and John Krivak for their help.

### OUT ON A LIMB? NEED HELP?

MAY 2nd

GREENBELT, LIBRARY

7:00 P.M.

MEMBERS PRESENT RESEARCH PROBLEMS

On May 2nd we will hear some of our member's research problems. For the benefit of those who need help (don't we all) our May program will solicit presentations by those with special problems. This type of program has always been successful in the past - allowing all of us to gain from each others experience and knowledge. Any problem, little or big, will suffice.

In order for Ed Wright to be able to plan sufficient time for all the presentations, he would greatly appreciate your contacting him at home (384-0617) . You may also want his help in making up hand-outs. Our audience can better understand your problem with a chart in hand. Secondly, many folks get inspirations well after the meeting. So include your telephone number on the hand-out so that they can contact you at a later date.

Last minute presentations? Don't worry; we'll let you have the floor even if you don't let us know ahead of time.

## PRESIDENT'S MESSAGE

The Metropolitan D.C. area will soon be in full bloom with color and tourists galore. It is time when Archives and the Library of Congress see many new faces all frantically making every minute count as visitors try to pull together many years of information in a few brief moments. The wisest of them will find no recourse when they failed to bring the linking information. Each will sigh and admit that another trip will be necessary.

We are delighted with the Prepub sales of STONES AND BONES edited by Jean Sargent. Shortly this remarkable book will be ready for distribution well ahead of the June 1 date after which the cost will rise from \$22.00 to \$28.00. (Maryland residents must pay 5% tax.) If you have priced books of this type you know this is a bargain. (We are living up to our non-profit status!) So get your order in and add a book to your collection which will gain value.

Recently a cousin who has been most helpful in providing linkages to my lines finds it necessary to move. Fortunately her genie library and many notes as well as copies of primary documents are in good order. She will be able to set up her library again without too much trouble. Have you thought what you would do if you were going to move next week?

Most genies are great collectors and poor organizers. My advice to you is to take a course on how to organize your work. This probably should be first on your agenda before you put your \$\$\$ toward a computer, printer and all of the gadgets you will want. Computers are helpful in organizing, but without a plan you may end up putting away the same confusion as your manual system.

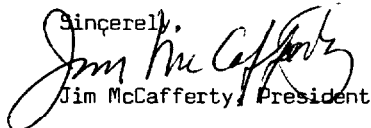

So we understand some help is on the way. According to USA TODAY, Monday April 2, 1984 the "Computer Plots your Family Tree". Yes, The Mormon Church will offer a new software package to aid home computer owners who are assembling a family tree.

The program will be IBM-compatible and will be marketed under the trade name of Personal Ancestral File. It is supposed to print plain or complete pedigree charts and family group sheets. It will also link families and link one generation to another. So here is some help on the way to organizing your files.

We are most pleased with the Society Bulletin. Elise Jennings, our current Editor, is doing a great job. She continues to provide useful information to those who want to keep current with our Society and provides considerable genealogical offerings. She can always use Ancestor Charts. See how they are typed up and send yours along.

Finally on a personal note, Jane continues to improve. She completes her first course of radiation and will get a week respite before she begins her second two week course. We are told that by the first week of May she will complete the radiation series and receive a Catscan. We are hopeful for a remission.

She appreciates your cards. She can have visitors and enjoys phone calls. She has been home since February 25. Her phone number is (301)839-5812.

Sincerely,  
  
Jim McCafferty, President

## BIBLE RECORDS BINGO

The Bible Records Committee of our Society is searching for any unpublished Bible Records dating before 1920. Many members have already submitted Bible Records and some members have submitted more than one, so to reward their effort and to encourage other members, we have begun a Bible Record Bingo Game. There is only one requirement to play the game -- submit an unpublished Bible Record to our Chairman Bill Wiseman or Karen Miles. When your record is received your membership number automatically joins the growing bingo pool. The pool will consist of only those members who have submitted a Bible record. Each month we will draw a member's number and award a prize that night.

## Book Reviews

By Shirley Langdon Wilcox C.G.

THOMAS STONESTREET OF BIRCHDEN, WITHYHAM, EAST SUSSEX, AND OF "BIRCHDEN" IN CHARLES COUNTY, MARYLAND, WITH HIS POSTERITY DOWN TO THE SIXTH GENERATION, by Warren Skidmore. Akron, Ohio. 1983. 119pp. A gift of Donald A. Schuder.

Five generations of the descendants of Thomas Stonestreet of Charles County are covered in this volume. References are footnotes, and the sources are given at the end of each family group. Some of these early families were in Prince George's County. In an appendix is material concerning the Stonestreet family in Sussex, England, and unidentified persons in America named Stonestreet. An index makes searching for ancestors easy. This volume will make a nice addition to our small but growing library of books on local families.

WEST VIRGINIA REVOLUTIONARY ANCESTORS by Anne Waller Reddy. Baltimore. Genealogical Publishing Company, Inc. 1983. 93pp. A gift of Robert Stewart.

Persons listed in this book are those recorded in the Public Claims for "supplies furnished the army and navy...for riding express, transporting prisoners, transporting the sick, transporting provisions, [and] manufacturing firearms. The names of the civil officers of the county and state, serving under the new United States government, are also frequently found." This book contains an alphabetical listing of names followed by county of residence. It does not give the details of the service rendered. That information can be found at the Virginia State Library.

HISTORICAL REGISTER OF VIRGINIANS IN THE REVOLUTION, SOLDIERS, SAILORS, MARINES, 1775-1783 by John H. Gwathmey. Baltimore. Genealogical Publishing Co., Inc. 1979. 872pp. A gift of Robert Stewart.

This book is one of the standard reference books for Virginians who fought in the Revolution. The names of persons are arranged alphabetically followed by a reference symbol. Eighteen different sources are shown in the Key to Abbreviations and Symbols. Thousands of members of the army, navy and marine corps are listed in this volume, and it is sure to be a very popular book in our library.

KENTUCKIANS IN MISSOURI, INCLUDING MANY WHO MIGRATED BY WAY OF OHIO, INDIANA, OR ILLINOIS by Stuart Seely Sprague. Baltimore, MD. Genealogical Publishing Co., Inc. 1983. 209pp. A gift of Robert Stewart.

Biographical sketches of Missouri county histories, compilations and similar works were examined for persons who were from Kentucky. The data is arranged by Kentucky counties and then alphabetically by surname. The name of the biographee is shown, also his or her birthdate, parents and the year and state of their birth and the name of the Missouri County in which they settled (and date) are given in most instances. A code showing the source and page number allows the reader to refer to the original biographical sketch to obtain more information. All names are indexed. This is a very useful reference tool, and it would be nice if similar volumes were available for other states.

In 1981 she published a book on an early Boston ancestor, Valentine Hill, Sparkplug of Early New England.

THOUGHT ABOUT A GIFT TO YOUR FAVORITE LIBRARY?

STONES AND BONES would make a great gift to your favorite library which has a genealogical collection. We expect this new book to herald efforts to capture the cemetery records across Maryland. Why don't you buy a copy and give it to your library? With funds being cut back for book purchases, this fine library edition will be most acceptable. But first find out if the library is interested and then invest in a great treasure.

## DID YOU KNOW ?

Compiled by Pat Paulkovich

Wei T'o (pronounced Way-Tow) is a deacidification spray, which when applied to paper, neutralizes the acids. This is a nonaqueous process, developed by Wei T'o Associates, Inc., of Matteson, IL, and uses "Freon" 12 as the medium for deacidification. The inventor says the method is safe because it will not burn or explode on exposure to air. It is also claimed that it won't attack inks, glues or binding materials, and won't harm the skin if contact is made. The low temperature evaporation of "Freon" speeds drying after treatment. The Hollinger Corp., 3810 South Four Mile Run Drive, P.O. Box 6185, Arlington, VA 22206 carries the Wei T'o spray, as well as acid free paper. (request a catalog and price list from them.) If you want to use an acid free glue for pasting items on acid free paper, Stickflat glue can be purchased from G & W Associates, 3067 Lemay Ave., Salt Lake City, UT 84119, latest price \$8.50 pt.

SYCAMORE LEAVES, Wabash Valley Gen. Soc., IL - Because of renovation, the Newberry Library in Chicago will be closed to the general public from May through September 1984.
