

America's Cup™ ScreenThemes™ CD-ROM

PLEASE TAKE A MOMENT AND READ THIS ENTIRE PAGE!

Welcome!

Congratulations on winning this gorgeous collection of America's Cup™ photos, courtesy of ScreenThemes™, the leader in photographic wallpaper and screen savers. You're going to be amazed at how great your Windows desktop can look with your new America's Cup™ photos!

How do I install ScreenThemes™?

Insert the CD-ROM into your CD drive (blue/green side down). The CD will need a few seconds to get up to speed, and then the installer should appear. If it does not, then go to Start → Run and type "X:\cd_setup" (where X is your CD drive letter).

How do I install my image pack?

After the program installation finishes, a new screen will come up to let you install your image pack. If you need to come back later and re-install, just re-insert the CD, go to Start → Run, and type "X:\cd_packs" (where X is your CD drive letter).

Do I always need the ScreenThemes™ CD in my CD drive?

No: once you install your pack, you can remove the CD and store it in a safe place for backup.

How does ScreenThemes™ work?

Unless you change the settings, ScreenThemes™ will automatically put a random new America's Cup™ photograph on your desktop every day. ScreenThemes™ doesn't get in your way, yet it also gives you the freedom to explore your photos with an attractive "slide-sorter" interface.

What about registration keys for my image pack?

ScreenThemes™ should not prompt you for any registration keys. If it does, you should install the pack again: re-insert the CD, go to Start → Run, and type "X:\cd_packs" (where X is your CD drive letter). If that doesn't help, go to our support page on the web, listed below.

What if I need tech support?

You might want to read our basic help file (under "Help" in the main menu). Or, visit our support page at: <http://www.screenthemes.com/help.htm>

How can I get more America's Cup™ images?

Just take a few moments to visit our web site and you can order them today...
