Three Stooges

These Three Stooges shorts (that is film shorts - nyuk, nyuk, nyuk) will have you and your family in stitches! The timeless humor of the Three Stooges has entertained and amused us for more than 50 years. Their timing, sight gags, physical humor and silly banter foreshadowed the work of comedic greats like Jerry Lewis and Jim Carrey. Includes two complete episodes.

Betty Boop

Betty Boop is the animation world's first modern heroine. In this wonderful collection, we see Betty face the trial and tribulations of modern life. From running an automobile "hospital" (So Does an Automobile) to promoting understanding in prewar Japan (A Language All My Own) to cleaning house (House Cleaning Blues), Betty does it all with a wink, a smile, and a song. The whole family will enjoy these collected works. A must for any Betty Boop collector or animation buff. Also includes Swat that Fly, No a Thousand Times No, Musical Mountaineers, Stop that Noise, and Little King. From the Simply Entertainment Series.

Night of the Living Dead

Night of the Living Dead sparked not only many sequels, but it also kicked off a new genre in cinema, the slasher film. It is presented here in its original black and white format. In only 96 minutes, Director George Romero treats us to all the gory goodies of a great slasher film: decaying corpses, dead animals, cannibalism, flesh-eating ghouls, re-animators, children turning against parents, radiation, lonely country roads, and outer space. Your flesh will crawl! Your computer will scream! And you may just die laughing! Peter Scisco of CD-ROM Today says, "George Romero's classic horror film makes the ultimate CD-ROM gag gift -- and I do mean gag. Even in this day of Freddy Krueger and Jason, this 90 minute black-and-white ghoulfest can still give you the willies."
