MPLAN.APP   12-Sep-84 36450   Accesses: 6

This Symphony Data Model Add-In (binary file) allows an unrefined
transfer of data from a Multiplan(tm) SYLK file directly to Symphony
cells, and from a range of cells to a SYLK file. Formula conversion
not done. Press {SERVICES}, select Application Attach MPLAN.APP, an
then look at the File Import and Xtract menus for proper use.
