

Problem This worksheet is loaded whenever you boot 1-2-3 with the TAX456 disk in drive B. It displays getting started information and calls up a menu. The options in this menu will load either the example tax worksheet or the blank one.

See DOC files 5102 and 5103 for more info on this application.

Block Diagram

Tips

Use of special file name (AUTO123.WKS) to cause a worksheet to be loaded automatically.

Use of autoexecute macro \0, to cause a set of macros to be executed automatically when a worksheet is loaded.
