Product Manager for OS/2

<Address>

Dear <Name>:

I am a very satisfied user of OS/2 2.x, and I believe it has an exciting future. I am very interested in OS/2 products that is offering. Please send me information and a demonstration diskette if available.

If <Name> is not currently offering OS/2 products, please put me on the list of potential customers. In the meantime I will continue inquiring other companies.

Mentioning somewhere on the software box that non-OS/2 products were tested under OS/2 will also help me as a consumer.

I would be happy to participate in beta testing, and would gladly provide additional information about my system if necessary.

Thank you,
