Computer Consultation For Competitive Business

1530 East 18th Street, Suite 6H • Brooklyn, New York 11230 • Corporate 718.375.1261 • Sales 718.375.2997 • Fax 718.375.6261

Dear Windows User,

Word for Windows can do great things! *Fileware*[™] is a good example. Ask yourself what you really wish computers could do. Then call us.

Total System Solutions, Inc. creates customized Windows solutions for serious business users. We've developed turn-key Word for Windows applications to automate document processing for many major corporations. If you work with words or numbers in Windows, we can really help you.

For example, we recently developed a system to automate the generation of commercial leases for one of the largest commercial real estate management companies in the world. The time required for the creation of customized leases was cut from over 2 weeks to under 20 minutes per lease!

We can save your company time and money while improving and standardizing the quality of your output.

Call us today at 718-375-1261 for more information.

Yours truly,

Daniel Goodman
President
