

Welcome to WinGuard !!! [ShareWare Version]

I would like to start this note by saying "Thank-You!" for trying out the ShareWare version of WinGuard. It is hoped that you will find WinGuard a useful program, either for use on the family computer, or for protecting multiple computers at an institution (school or business).

The ShareWare version of WinGuard is being distributed for people to try out and then decide whether they wish to keep it. The trial period is for 14 days from the date of initial installation, and then the user must either register his/her use of WinGuard or uninstall it.

There are two licenses available, as follows:

Individual License: An Individual License can be obtained for the installation and use of WinGuard on a single computer, by the registered user. The price for an Individual License is \$14.95 (\$9.95 for registration plus \$5.00 for shipping). The registered user will receive a copy of the latest version of WinGuard, as well as full documentation. If the user wishes to obtain the source code, it is available on disk for an additional \$10.00 (\$24.95 total).

Site License: A Site License can be obtained for the installation and use of WinGuard on any number of computers at one single institution (such as a school or a business). The price for a Site License is \$54.95 (\$49.95 for registration plus \$5.00 for shipping). The registered institution will receive a copy of the latest version of WinGuard, as well as full documentation. If the source code is wanted, it is available on disk for an additional \$10.00 (\$64.95 total).

There are several advantages to registering the use of WinGuard, as follows:

1. The latest version of WinGuard will be obtained, with the Manual Edit function enabled (allowing user-customizable Program Manager protection settings), and with the ShareWare 'reminders' removed.
2. A complete winguard.wri documentation file will be obtained (to replace the abbreviated ShareWare version of winguard.wri).
4. The user may specify a custom-appearing version of WinGuard, if so desired. For example, the screen colors can be changed to match an institution's official colors, or the window title bar can say something such as 'Podunk College WinGuard' or 'Wasti Corporation WinGuard'.
5. The user may specify a custom-functioning version of WinGuard, with one or two additional File menu items for special 'sensitive' programs, if so desired.
6. The use of WinGuard after the 14-day trial period has expired would then be both ethical and legal.

To register your use of WinGuard, and to obtain on disk the registered version of the program, please fill out a copy of the following registration

form (or include ALL of the information in a separate letter) and send it along with a check or money order for the appropriate amount to Frederick Wasti, Post Office Box 274, North Carver, MA 02355:

WINGUARD REGISTRATION
