1 INTRODUCTION – GETTING STARTED

- [intro.pdf](#) [Welcome to the Skylab/ASTP/Gemini Gallery CD-ROM](#)

SECTION ONE – GEMINI IMAGE GALLERIES

NASA's original GIF and JPG image files are reproduced in our **IMAGE GALLERY** along with their captions, providing a computerized "photo album" suitable for quick browsing. Within the IMAGE ARCHIVE directory, the original files are grouped by flight or subject. You can browse through the gallery to identify photos by reading the captions that are associated with the file numbers. These files can be copied onto your computer and used as you would any graphics file.
