What is WinLite?

>WinLite is simply Windows 3.x

>But Windows has been
slimmed down

>So now it will fit on a floppy
diskette

>The batch files will create the floppy

>Just run them and see!

WINLITE© CAN BE USED FOR:

>On-the-Road Presentations to Clients and Automatic Slide Show Demonstrations

>Creating Multiple Windows Setups

>Making Windows easily portable

>Experimenting with Windows

TIPS ON USING WINLITE 1.0:

>Copy the floppy to a new directory on your hard disk and run WinLite from there

>Experiment freely -- you can't hurt your main Windows setup!

>Try out new software before installing it in your main Windows directory

TIPS ON USING WINLITE 2.0:

>Install from floppy with INSTALL, then run from your hard disk

>Create a new floppy with any changes you've made using UPDATE.

>Use the Macro Recorder Accessory to create looping slide shows like this one

WinLite does graphics too!

Bit-mapped graphic

In Living Black and White or Color

Don't Delay -- Get WinLite Today ($14.95)

You can even paste in graphs from Excel:

miles/total gallons

Just put it on the Clipboard first!

WinLite's Sales are soaring...

Revenues

North America

Far East

93 92 91   Europe

So make Windows FUN again...
