This program is copyrighted under the laws of the United States. It is to be used only for commercial apartment rentals. Except as mentioned in the license agreement, any other use, copying, or modifying is prohibited. Although thoroughly verified and evaluated under normal property management standards, this program is not guaranteed, and FreeBooter's (tm) sole liability is limited to the replacement of the program diskette.

FreeBooter(tm) Software  
P.O. BOX  
Portland, OR 97219  
(503)244-4800

\*\*\*\*\*

The Apartment Renter template is designed to totally replace the `pegboard' type of journal entry that is currently being used in many apartment complexes.

Sheet1

This software is not free. This is shareware. It's continued use requires registration of \$35.00. For this registration you'll receive a updated copy of the Apartment Renter and it's accompanying manual.

Please remit payment to:

This section allows for the start-up of new rental data. If you proceed, all old records will be erased. Please ensure that this is the operation you wish to perform before continuing.

On the initial data start-up, enter the total number of studios, 1BR, 2BR, 3BR, and 4BR units. With each classification add the rent and square footage.

If individual variations exist within classifications, they can be entered on a case by case basis later.

E.G. - Most 1BR units are 950 sq.ft. but unit #103 is 980 sq.ft. Enter 950 sq.ft. for most units and unit #103's change can be made when resident data is entered.

Number of Studio Apts. -

Number of 1 Bedrm Apts.-

Number of 2 Bedrm Apts.-

Number of 3 Bedrm Apts.-

Number of 4 Bedrm Apts.-

Note: The values for rent and Sq. Ft. are for the majority of

CAR

-----  
WARNING! STARTING THIS SECTION WILL ERASE OLD RECORDS  
-----

INITIAL COMPLEX SET-UP DATA SCREEN

the apartments. Variations can be taken care of later.

Proceeding further into the manual spreadsheet entry  
will invalidate your warranty.

Call DSF Associates at (503)244-4800 before activating

the proceed command. Only in this way will your warranty be preserved.

Naturally some individuals will want to customized this spreadsheet for their own purposes but we also feel that we need some control of the warranty when this occurs.

Once the proceed is activated a flag will be posted that indicates a breach of the spreadsheet's security.
