	51
The following are descriptions of each field which	51
is contained in a Freight+ Junior Transaction.	51
	51
	51
-COD = A 'X' marks transaction as COD and will ad	51
current UPS COD rates and print a COD tag.	51
(Only print tags if Freight+ Junior Purchased)	51
	51
-TAG = A 'X' marks transaction to Print a Shipping	51
(Only prints tags if Freight+ Junior Purchased)	51
	51
-SAT = 'X' Adds Saturday delivery charges	51
	51
-CASH = 'X' Places "CASH ONLY" on COD tags	51
	51
-OVER = Over sized package. Over sized package	51
are charges a minimum 25 lb. rate.	51
	51
-CHECK OK = 'X' Places "COMPANY CHECK OK"	51
tag. (Only if Freight+ Junior Purchased)	51
	51
-CON = 'X' Marks a transaction as Confirmation of	51
delivery was requested.	51
	51
Ref = The Referance Number you want to appear	51
the UPS Shipping Tag, COD tag and as the alterna	51
control number. Freight+ Junior can be set up	51
to automatically assign this number. To automat-	51
ically assign ref. go to Freight+ INSTALL MENU	51
found on Freight+ Main Menu. Press 'I' for Install	51
next select 'General Setup' from the Setup Menu	51
look in the lower right hand corner for Auto Ref.	51
if any number other than 0 is placed in this field	51
Freight+ and Freight+ Junior will automatically	51
increment this number every time a transaction is	51
created. (Only used it Freight+ Junior Purchased)	51
	51
Decl = Declared Value of the current package beinç	51
shipped. This is used to calculate UPS insurance.	51
	51
Lbs. = Weight field. Enter the weight of the box	51
being shipped.	51
	51
ADD = Additional Charges. This amount is extrac	51
from Freight+'s 'General Setup' screen. Where	51
you can define a additional charge for each	51
shipment entered. (Automatically add Handeling	51

Charges if Freight+ Junior purchased) 51
 51
 Ship = UPS Shipping charge 51
 51
 Tship = Total Shipping charges. Includes COD,CO 51
 ADD, SAT, UPS Shipping 51
 51
 Inv. = Invoice amount. The Invoice amount + the 51
 TShip is the COD amount to be collected. 51
 51
 Total = All charges for current shipment and the 51
 amount to appear on a COD Tag. 51
 51
 Desc. = Description of current shipment. If used 51
 this will appear on the Shipping Tag and in the 51
 Freight+ history files. 51
 Freight+ UPS Rate Look-up (TSR) calculates all U 50
 rates and special services. In order to properly 50
 calculate UPS rates you must install your local 50
 Ground Zone Chart and Canadian Zone Charts. A 50
 Ground Zone Chart is a chart distributed by UPS 50
 which has three digit zip code ranges and the UPS 50
 zone that applies to the zip code range. Don't 50
 confuse the Zone Charts with the UPS Rate Tables 50
 A UPS Ground Zone Chart for USA will have the 50
 following information on it: 50
 Example: 900-909 Zone 2 50
 50
 You may optionally input your own UPS Ground Z 50
 chart from the main menu by pressing 'Z'. This 50
 places you into a full editing window. Where you 50
 may delete and add zip code records. 50
