US and other non French Users!

Please do register! It's really easy;

Just use an international Postal money order. Go to your nearest post office and ask for an international money order sent in French Francs. They will make the conversion for you and we will receive some French Francs whatever is your country legal currency. US \$1 is about 5 to 6 French Francs at the time we write this document.

If you do not have a French checking account in French Francs, do not send personal checks. It's nearly impossible for us to cash your check.
