Key-Symbol

If you want to run applications you have to log on to SignOn! for Windows.

To log on click the  key.

A box will appear in which you have to enter your user-ID and your password.

Then you will be able to access the menus (user/administration) according to your access rights.

The access to the system will be denied if a user enters wrong data three times.

Settings

You can decide here which application is to be pre-selected in the drop down list-box when you access SignOn!

Choose an application and click on OK.

If you don't want to change the settings, click on Cancel.

Change Password

Enter your User-ID, your old and twice your new password. You have to type in your new password twice to ensure the correct spelling of the password..

Caution: You can only change your password if YOU signed on with your user-ID!!!

Sign Off

You will get to the initial mode.

The red key in the menu-bar will appear.

All menus - except Help - will be deactivated.

Another user can sign on now.

Exit Windows

If this menu-entry appears black, you are allowed to leave Windows.

A administrator decides if a user may leave Windows.

View User

Administrator(s) only

All user will be displayed.

Select a name in the list box to view more details.

Create User

Administrator(s) only

First, enter the ID of new user (up to 8 characters).

Then you can check the following boxes:

- administrator: assigns the user as an administrator
- user may exit Windows: allows the user to leave Windows (if checked)

Now, enter the time, when the user may access Windows (00-23h).

The password of the new user will be 'NEW'

The user should change it when he signs on the first time.

Delete User

Administrator(s) only

To delete an user select him and click on OK.

Assign AutoRun Applications

AutoRun Applications will be executed when the first user of a Windows session signs on.

To assign AutoRun-Apps, select them in the directory box and click on Add. To remove one, choose the application in the applications-box and click on Remove.

If you want to enter a remark, e.g. the full name of the program, click on the Remark.Button.

Caution: You may assign only 3 AutoRun-Apps in the shareware version!

Assign Applications for User

A Window with all user-IDs will appear. Choose the ID and click on Select.

If you want to assign an application for an user, select the program in the directory-box and click on Add.

If you want to remove an app, select it and click on Remove.

You can add an explanation to an application (e.g. the full name) by clicking on Remark.

Caution: **You may only assign 3 applications per user in the shareware-version.!**
