## ORDER FORM for WinCat/PRO Disk & CD-ROM Catalog Version 3.xx

Please use the attached orderform to order your license to use WinCat/PRO 3.xx.

Paying the registrationfee entitles you to use WinCat/PRO version 3.0, and all other subsequent 3.x RELEASES that may be distributed.

You only have to re-new your registration if you want to use the new VERSION 4.x which may (or may not) be offered in the future.

Two types of licenses are available: the one for personal use, and the multi-workstation license for company use.

## License for personal use:

This license can be transfered freely from machine to machine as long as there is no chance that it is ever in use on more than one machine.

You are encouraged to share your evaluation copy of WinCat, but you may not distribute registered copies or registration numbers under any circumstance.

The registration number (which disables the AidWare notice) will be send to you immediately after I've received the registration-fee.

## Multi-workstation licenses:

For companies, public services and other organisations multi-workstation site licenses are available.

The multi-workstation license allows you to install and use the registered copy of WinCat/PRO 3.xx on as many workstations as stated on the license-agreement.

If you install WinCat/PRO on a LAN server-station, you're allowed to use it from as many workstations as stated on the license-agreement.

You may not distribute your registered copy of WinCat/PRO to, or use it on, workstations that aren't used by employees of your company. You can always upgrade your existing license for use on more work-stations; the required fee will be the difference between the normal fee for the new license and the fee you already paid.

If you order the 'up to 5 workstations' or 'up to 10 workstations' license, I will send you the registration-number immediately after I've received the registration-fee.

Starting with the 'up to 25 workstations' license you'll receive a disk with an adapted version of WinCat/PRO :

- it doesn't need a registration number
- the 'Hall of Fame' window will be replaced by a 'Registered to...' window, which displays your company's name and, if you supply the appropriate graphic in BMP format, your company's logo.

Optionally, you can also have a logo on WinCat's main window (instead of the WinCat/PRO logo).

- you will also automaticly receive any new release of WinCat 3.xx on disk, again with your company's name and optional logo included.

The disk with the adapted version of WinCat 3.xx will be send to you immediately after I've received the registration-fee.

Please complete the form and send it to:

Mart Heubel
De Heugden 161
6411 DR Heerlen
