
CMPQWK Reader Upgrade Registration Form

If you are a registered user of **OLX**, **SLIMER**, or **WinQWK** or another offline mail reader *and* you register **CMPQwk** *within the first 30 days of its release* (look at the file dates if you're not sure, they should say 07/01/93) we will upgrade you to **CMPQwk** for \$25. You **MUST** take one of two extra steps to prove your legal ownership of these other mail readers.

Upgrade Procedure

1) Call one of the support BBS systems and download a QWK packet. Using your OLD mail reader---not the unregistered version of **CMPQwk**---send Derek Backus a message in the **CMPQwk** conference asking him to upgrade you. In the message you **MUST** also leave the serial number of your original mail reader and you **MUST** have a tagline displaying the mail reader's name and serial number.

Upon receipt of the message you'll receive an acknowledgement, and after we verify your ownership by checking with the authors of the original product, we will ask you to mail in the upgrade offer with your check or money order.

2) Remove the original title page of your **OLX** or **WinQWK** manual and mail it with this form. Your original mail reader's serial number **MUST** be written on the title page, along with your full name, phone number, address, etc. also on the title page (as well as this form). We will verify that you legally own the product in question and then happily give you the upgrade price.

3) You **MUST** include a check for \$25 with this form in any case. Your check will not be cashed until we've verified legal ownership of the original product. If we cannot verify your ownership we will return your check to you via U.S. mail.

DO NOT SEND CASH!

Please make your check or money order out to Derek Backus. If you pay by check, your registration key will be mailed to you as soon as the check has been processed, which generally amounts to about ten working days. Money orders are usually faster, but in any event expect your registration postcard to arrive within two to three weeks for orders in the continental United States. Foreign orders may take from eight to sixteen weeks or more, depending on the mail service and mailing method.

Upgrades may take longer than "new" orders due to the verification process.

Please fill in the information below. If you have any questions or comments, put them on another piece of paper or better yet, send them to Derek via The Patchbay BBS, The Dataphile BBS or Compuserve. See the help file for details on this.
