# RIPspace version 2.0 By Jonathan Carroll

## Introduction

Welcome to RipSPACE. This utility is designed to provide information about how your drives are being used.

RipSPACE will analyze drives, letting you know how much space directories are taking up. You'd be surprised for instance, how big your Windows installation gets!

### New In This Version

Bug that caused RipSPACE to "miss" certain directories is fixed.

Preference settings include font choice, and file tracking.

File Reports provide information about user-specified file types.

Options to customize the sorting of directories within a report.

Improved results display.

## Where to go from here

RipSPACE is easy to use, but you should read through the help file once to get a feel for what the program does, and how it does it.

## So what does it cost?

RipSPACE is shareware. The version you have in your hands is a complete working version. There are no annoying reminder screens about what it costs, and there are no disabled features. If however, you find this application useful and you use it regularly, I'd appreciate the modest sum of \$10. If you don't think RipSPACE is worth \$10, send me mail (or email) and tell me why-- perhaps your suggestions will be incorporated in a future version.

## Installation

#### Windows Users

Installation is easy. Place **RIPSPC16.EXE** and **RIPSPACE.HLP** in a directory of their own-- and enjoy. You can add RipSPACE to your Program Manager (or Norton Desktop etc.). Finally, place **CTL3D.DLL** in your Windows System directory. You're ready to run!

#### Windows NT Users

Installation is easy. Place **RIPSPC32.EXE** and **RIPSPACE.HLP** in a directory of their own-- and enjoy. You can add RipSPACE to your Program Manager (or Norton Desktop etc.). Finally, place **CTL3D32.DLL** in your Windows System directory. You're ready to run!

# Where to find me

If you try / use RipSPACE, I'd like to hear what you think. There are four ways to get ahold of me:

#### **Conventional Mail**

Jonathan Carroll 28 Parkland Pointe Claire, Quebec CANADA H9R 2E8

#### CompuServe

user id: 74017,3242

#### **GEnie**

user id: J.H.CARROLL
