

# Boston Business Computing, Ltd.

---

OpenVms Software Tools for  
UNIX and Windows

[www.bosbc.com](http://www.bosbc.com)

# Cost/Frustration Reduction

---

**Familiar and powerful tools  
reduce the cost and frustration  
of integrating UNIX or Windows  
systems into an OpenVMS  
environment.**

# Preserve OpenVMS Investment

---

An substantial investment has been made in OpenVMS training.

Boston Business Computing's tools will allow OpenVMS users to use their existing skills when migrating to or integrating with UNIX systems

# Products

---

- EDT+
- Vbackup
- VCL
- Vmail

The logo graphic consists of a vertical black line intersecting a horizontal black line. To the left of the intersection, there are three overlapping squares: a yellow one at the top, a red one in the middle, and a blue one at the bottom. The text "EDT+" is positioned to the right of the vertical line, with the "E" and "+" in blue and the "DT" in a lighter blue color.

# EDT+

---

- OpenVMS EDT on UNIX and Windows
- Familiar “**GOLD**” Key editing
- Three editing modes
  - Line mode
  - Keypad mode
  - No keypad mode
- EVE/TPU editing features
- Disaster recovery

# Vbackup

---

- Read OpenVMS BACKUP save sets on non-OpenVMS systems.
- Move data reliably between OpenVMS and other systems.
- Backup running systems with familiar options.

# VCL

---

- Preserve the investment made in OpenVMS training.
- Provide a powerful familiar user interface.
- Preserve the investment in DCL command files.
- Allow users to retrain at their own pace.

# Vmail

---

- Move OpenVMS mail files to UNIX.
- Provide a powerful familiar mail interface.
- Provide all the functionality of VAX MAIL plus most Berkeley mail extensions.
