

MR-MANUFACTURER

USG® Exterior Stone Finish is manufactured by United States Gypsum Company, a leader in construction materials and building systems for 90 years.

PP-PRODUCT PRESENTATION

USG Exterior Stone Finish provides the look of stone at a fraction of the cost and weight. USG Exterior High-Definition Stone Finish provides a coarser-textured, enhanced stone-like appearance. Both products are based on a 100% acrylic polymer providing excellent resistance to ultraviolet degradation and superior durability. Apply coating with trowel. Coating bonds tightly to properly basecoated substrate. Suitable for most climates and environments. Available in five colors.

UA-USES, APPLICATIONS

USG Exterior Stone Finish is designed for use in USG Exterior Wall Systems such as USG EIFS, DUROCK® EIFS and DUROCK Direct-Applied Exterior Systems. It also can be used over properly prepared conventional stucco (brown coat), monolithic concrete or unit masonry. It is recommended that all basecoats are primed before applying High Definition Stone Finish.

AI-ASSEMBLY, INSTALLATION

Trowel-apply USG Exterior Stone Finish in a uniform layer over surfaces properly prepared and basecoated according to directions.

MF-MATERIALS, FINISHES

USG Exterior Stone Finish, USG Exterior High Definition Stone Finish, 67.5 lb. net weight pail; USG Exterior Basecoat; USG Exterior Primer.

CS-COATINGS, SURFACING

USG Exterior Stone Finish and High-Definition Stone Finish are available in five colors: Silver Stone, Sand Stone, Granite, Rose Quartz and Forest Green.
