- USG Stone Finish
- ORIENTAL Exterior Stucco Finish

USG Abuse-Resistant Systems

Check this screen for information on a wide range of U.S. Gypsum Company products and systems designed to meet the highest standards for abuse-resistance in residential, commercial, institutional and security settings.

SHEETROCK® Brand Gypsum Panels with ULTRACODE® Core

For fire-rated assemblies with fewer layers of gypsum panels.

SHEETROCK First Coat

The unique primer/sealer that equalizes absorption and texture variations of the substrate to minimize decorating problems.

DUROCK Underlayment

The ideal substrate for ceramic tile on floors and countertops. Thinner profile minimizes level variations; helps eliminate transition trim.

Metal Products

See these all-new snapshots:

"Steel Framed Drywall Systems"

"Metal Lath for Conventional Plaster Systems"

ROCKLATH® Plaster Base

Paper-faced solid gypsum board lath for maximum plaster bond.

IMPERIAL® Gypsum Base

Solid gypsum lath with blue face paper for veneer plaster systems.
