Manage an unlimited number of phone books and contacts with the powerful built-in Contact Manager

Send voice mail

Send and receive Internet e-mail

COMMUNICATE! in AnyWay

Getting in touch with your contacts is now a breeze! Select who you want to reach, the method of delivery - fax, Internet e-mail, voice or data transfer - and COMMUNICATE! sends the information the way you want. Receiving incoming voice calls, faxes, Internet e-mail, fax back, and data transfers on one phone line is no longer a problem since COMMUNICATE! detects the type of incoming call and answers it appropriately. The universal in-box makes it easy to keep track of all inbound and outbound messages. With COMMUNICATE!, productivity increases since you no longer waste time switching among different applications. With features like these, COMMUNICATE! is the only computer communications tool you will ever need!

COMMUNICATE! with AnyOne

Keeping your personal and business contact information organized is so easy with COMMUNICATE!'s powerful built-in Contact Manager. You can create targeted fax, e-mail and voice broadcasts quickly and easily as well as manage your voice, fax, data, e-mail, on-line service numbers and other contact information. COMMUNICATE!'s multiple search features, hot-list capabilities, pre-defined and customizable information fields let you manage your contacts like never before. No need to purchase and learn a separate contact manager. Everything you need for contact management is included.

COMMUNICATE! from AnyWhere

COMMUNICATE! converts your PC into an intelligent auto-attendant so you can manage your voice and fax messages as well as administrative options from anywhere in the world! COMMUNICATE! answers your calls with your own pre-recorded message or standard greeting while you're away. And you can customize your voice mail system to hold an unlimited number of password-protected mailboxes. Calls will be answered and routed to the appropriate mailboxes. With COMMUNICATE! you can retrieve and forward your faxes to wherever you are and easily create an automatic fax back service to provide your callers with information via fax. Without busting your budget, COMMUNICATE! brings your office a variety of resources that were previously only available to large corporations.

The All-In-One Communications Software Solution

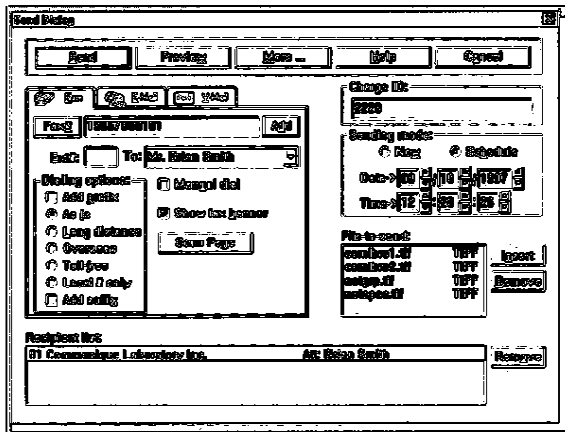

POINT

COMMUNICATE!

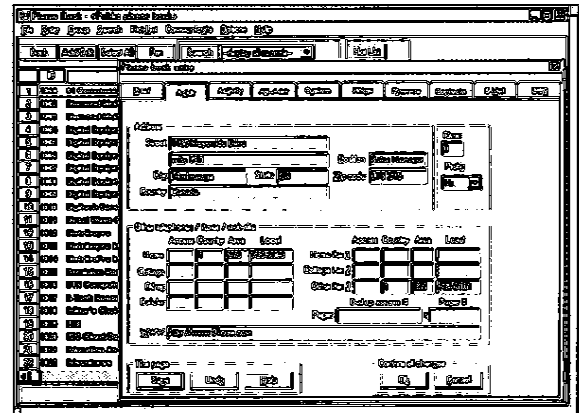

Send and Receive Faxes

- Send faxes from within any Windows application
- Send documents from different applications as a single fax
- Scan and fax from HP or TWAIN compatible scanners
- Traffic Monitor re-schedules, holds, or cancels outbound faxes
- Re-send and re-queue capabilities
- Merge with Contact Manager to broadcast faxes to an unlimited number of recipients
- View incoming faxes on screen, print or forward them to another fax number
- Compresses fax images, saving valuable hard disk space

Contact Management

- Powerful, built-in Contact Manager
- Unlimited number of phone books and contacts
- Over 100 pre-defined and 10 customizable fields store telephone, fax, Internet e-mail, WWW URL, BBS, pager, cellular numbers and many more
