

01/FAX FOR WORKGROUPS

Easy-to-Use, Affordable Network Fax Software

"The most cost effective LAN fax server software for small businesses or departmental LANs... an exceptional value."

Peter Davidson, Publisher FaxWire

NETWORK FAX SOFTWARE

Now there's an affordable network fax solution for small to medium sized LANs. 01/FAX for WorkGroups allows network users to fax any Windows document, send/receive faxes in background mode and personalize fax broadcasts. Users can be set up in minutes with just one fax modem, a single phone line and 01/FAX for WorkGroups.

A fully-integrated, powerful multi-user Contact Manager helps you organize, search and sort customer databases. The 01/FAX for WorkGroups Contact Manager supports an unlimited number of public and private phone books and customer records. Also built-in, the OCR converts incoming faxes to editable text for use in other Windows documents, and a powerful Graphics Editor allows users to modify or create images.

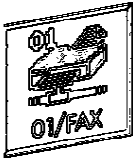

- Unlimited User Licenses
- Network OS Independent
- Multi-User Contact Manager
- Graphics Editor and OCR
- Easy-to-Use
- Affordable!
