Software designed and developed by
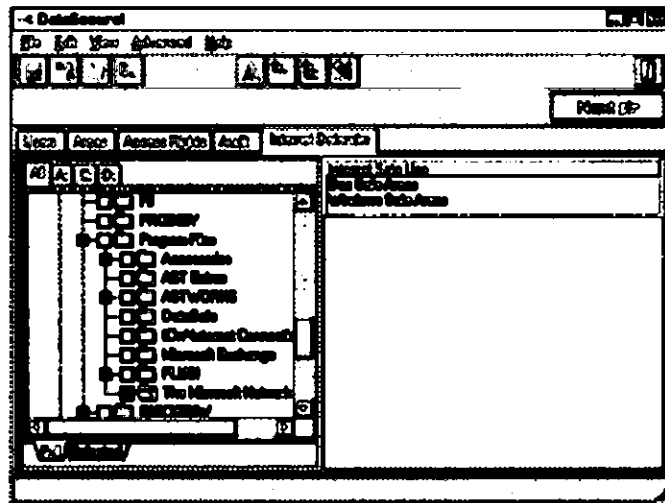

NISITA

Don't let hackers read your e-mail or tamper with your important data. Keep it safe with Data Secure!

Data Secure! provides you with the only complete security system for your PC.

Get full administration functions with the Data Safe tool

▶ Customize and control the users' access rights

▶ Choose one of the four industry standard encryption methods (D.E.S, N.E.P1, N.E.P4, Just Protect)

▶ Encryption is totally invisible to unauthorized users

▶ Restrict access to floppy disks and other removable media

▶ Backup and restore encrypted files
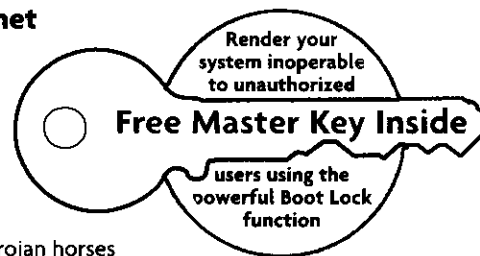

▶ Log and track all attempts at entry into your system

Protect your e-mail and file folders while sending & receiving them electronically

▶ Encrypt and decrypt all portions of the message on the fly

▶ Passwords can be made optional

▶ Encrypt and decrypt text documents without losing their formatting

▶ Send your friend, colleague or loved one the decryption module for **FREE**

Get peace of mind while you bank, trade stocks or conduct personal business on the Internet with the Internet Defender tool

▶ Get a complete firewall that restricts access and protects your PC from unauthorized users

▶ Use the "hide while on the Internet" feature to protect files from the view of hackers

▶ Prevent the spread of all viruses and even the entry of Trojan horses

RUNS ON WINDOWS 95 **CD ROM**

Render your system inoperable to unauthorized
Free Master Key Inside
users using the powerful Boot Lock function

Package Dimensions: L 8" x H 10" x W 2"

Product Code: DSSOFT1   UPC: 7-28055-12035-0   MO56 • Rev. 1.0 • 3/97

Data Secure! is really THREE integrated security and privacy applications!

▶ **Keep prying eyes and unauthorized users away from your data**

▶ **Prevent viruses from contaminating your PC while on the Internet**

▶ **Encrypt and decrypt e-mail and other documents on the fly**
