COLOR MFC

PRINT * COPY * SCAN

PLAIN PAPER FAX

No compromises here. The MFC-7000FC is a full function plain paper fax that handles all your faxing needs. It includes a high speed 14.4k bps fax modem, a large 2 MB memory for broadcasting, out of paper reception or dual access, and a 30-page document feeder for unattended operation. Plus its built-in Fax/Tel Switch works with your existing phone line.

COLOR PRINTER

A high quality 720 x 720 color ink jet printing system means you'll produce vibrant and crisp results on all your color charts, reports, or business presentations. It can deliver an impressive 5 ppm print speed for black and white printing and 3 ppm for color. Plus, its 200 sheet paper cassette accepts a wide variety of paper stock.

MESSAGE CENTER

Now you can retrieve or forward all your voice and fax messages...anytime and from virtually anywhere. Or have your pager activated each time you've received a message. It's all possible with this built-in Message Center, featuring 50 minutes of digital voice storage, remote fax retrieval, fax forwarding, and a PC Message Center for hard disk storage.

COLOR COPIER

No more running to the local copy shop for those simple color copy jobs. Now you can make color copies right at your desk of anything from photos, graphs, charts, or color proofs. No PC is required, so you make copies quickly and easily. It even reduces and enlarges from 50% to 200%.

COLOR PC FAX

More and more color documents are being created and distributed every day. Many are sent via the internet as an attachment to E-mail. But for those *"time sensitive"* documents, the MFC-7000FC can send a Color PC Fax** to anyone that has a PC and fax modem. It's the perfect complement to E-mail.

COLOR SCANNER

Scan photos, logos, and images...in color. You can seamlessly add images to your reports and presentations at up to 1200 x 1200 dpi (interpolated) resolution. Plus, it includes award-winning Visioneer Paperport® document management software and Xerox® TextBridge® OCR for enhanced productivity.

It makes **COLOR** work for you
...in more ways than one

If you're ready to add a real edge to the way you do business, you're ready for the MFC-7000FC Color Multi-Function Center.™ That's because it's designed to take full advantage of the most important weapon in your professional arsenal...color. From its high resolution color printer, color copier and color scanner to its unique ability to send color faxes,

our MFC-7000FC gives your image all the color edge it needs—right at your fingertips. Speaking of image, its exclusive built-in video-capture function lets you capture images from a VCR, camcorder or digital camera. Combine that with a full feature plain paper fax and a digital message center, and you can see why the MFC-7000FC will work for you... in color...and in more ways than one.
