

UnInstaller™

Cleans Windows . . . Automatically™

Key Features

- ❖ Safe and simple.
- ❖ Uninstalls any application - even those that Windows can't.
- ❖ Identifies duplicate and junk files that can be safely deleted.
- ❖ Moves applications to another folder, drive or computer - with all links intact.
- ❖ The only software in its category that won't remove critical or required files.
- ❖ Makes your PC like new again!
- ❖ Updates itself automatically with CyberMedia's exclusive Oil Change™ technology.

Keep your PC humming like new with UnInstaller. It's the easy, automatic way to keep your PC clean of unwanted software and junk files. UnInstaller identifies and removes all those unnecessary files that accumulate on your PC - Internet cache files, temp files, duplicate files and more. UnInstaller lets you identify the amount of disk space you want to free and then recommends files for deletion.

The Ideal House Cleaner

If you're like most people, your PC is cluttered with files from software you no longer use; duplicate files; unused fonts; clip art and other junk files. That's because every new software program or software upgrade you install gets stored in bits and pieces on your hard drive. All these files occupy valuable disk space, slow down your PC, and can cause problems. If you try to remove these files yourself you may overlook some, or worse, delete required or critical files.

The Safest Way To Clean Up Your PC

Now you don't have to be a PC genius to clean out the clutter on your PC and keep it humming like new. UnInstaller makes it a snap to completely remove those unwanted software files hidden on your hard drive. And unlike poor imitations, award-winning UnInstaller never deletes critical windows files, making it the safest way to clean up your PC.

UnInstaller™

5 out of 5 PC Experts Recommend UnInstaller's Cleaning Power!

"It's even more careful than Quarterdeck's CleanSweep 95 and Remove-It, so if you want to reclaim hard disk space with a minimum of nail-biting, give UnInstaller a close look."

- Windows Sources

"...powerful and yet so easy to use...everyone should have this tool on their system."

- MicroTimes

"...easy to use and extremely thorough."

- Home Office Computing

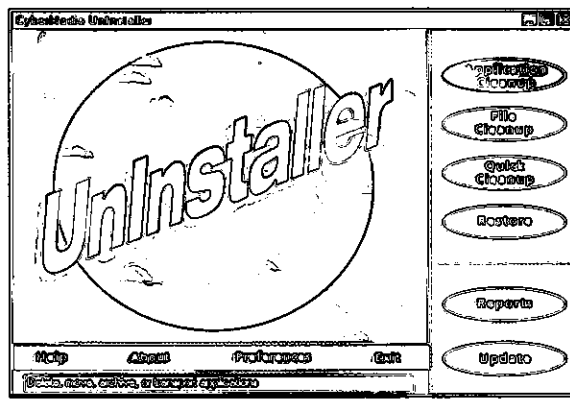

"...stands out as the best."

- MultiMedia World

"...for extra peace of mind, you'll find UnInstaller the ideal house cleaner for your overstuffed system."

- PC Magazine

Safe and Simple!

Why UnInstaller is Your Best Choice:

① TOUGH ON JUNK FILES

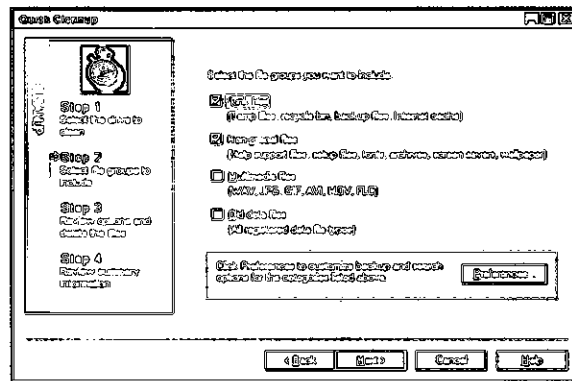

UnInstaller identifies and helps you remove all those unnecessary files that accumulate on your PC - Internet cache files, temp files, duplicate files, unused fonts, screen savers and more. UnInstaller lets you specify the amount of disk space you want to free and then recommends files for deletion.

② SAFE FOR CRITICAL FILES

UnInstaller safely uninstalls any windows application. It uses exclusive Smart Links™ technology to completely remove any software program - without deleting shared or critical files.

③ OUTSTANDING CLEANING POWER

UnInstaller cleans up what Windows 95 leaves behind. It safely removes the many software programs, games and 16-bit applications that Windows 95 doesn't uninstall.

Helps to identify unnecessary files.
