Digi 4700H Series Workgroup Hubs

Digi's Workgroup Hubs Have High Performance Connectivity With an Eye on the Future

-
- ❖ 4710H and 4711H interconnect eight 10BaseT link segments via shielded RJ45 connectors
 - ❖ 4720H interconnects four 10Base2 link segments via BNC connectors
 - ❖ 4730H interconnects four 10BaseFL link segments via ST-type connectors
 - ❖ Supports 10 Mbps transmission rates
 - ❖ Modular Ethernet uplink on rear panel supports 10BaseT, 10Base2, 10BaseFL (single-mode and multimode) and 10Base5 connectivity via Digi's Micro Modules
 - ❖ Diagnostic LEDs show Link/Receive and Polarity/Partition
 - ❖ Status activity indicators on each port
 - ❖ Power and Collision LED indicators
 - ❖ Compact aluminum housing
 - ❖ Wall-mountable hardware included

Additional 4711 Hub Features

- ❖ FastManage graphical user interface
- ❖ Supports SNMP
- ❖ In-band management over TCP/IP and IPX
- ❖ EIA-232 port for out-of-band configuration

When working with corporate networks, one thing's for certain: change is inevitable. It can also be costly. Digi's 4700H series Workgroup Hubs minimize the impact of change by combining the connectivity you need for today with a flexible design that accommodates your future needs.

Each product offers four or eight ports in a compact, space-saving desktop, wall-mountable design. Other advanced features include diagnostic LEDs for monitoring port status, auto-port partitioning on the Fiber and UTP hubs and manual partitioning on the 10Base2 hub. In addition, each hub has a modular network uplink port that can be equipped with a Digi Micro Module to accommodate any Ethernet media including thin coax, thick coax, UTP or fiber.

Digi 4710H UTP Workgroup Hub

The 4710H has eight 10BaseT ports making it the perfect solution for high-traffic workgroups. It also features an upgradable design that lets you add all the management functionality of the 4711H when the need arises. This protects your investment by allowing you to start with an entry-level workgroup hub and upgrade it to a fully-managed solution as your network grows.

Digi 4711H Managed Workgroup Hub

The 4711H is an ideal eight-port 10BaseT managed hub offering an unsurpassed price/performance ratio. This, coupled with Digi's FastManage configuration and management tool, makes it the perfect solution for workgroups requiring easy, yet powerful network management.

For simplicity and ease of use, the 4711H Workgroup Hub includes FastManage, Digi's powerful new graphical management tool. FastManage accesses the MIB-II and hub MIBs of the 4711H by using the SNMP protocol with both in-band (over TCP/IP and IPX protocols) as well as out-of-band management through an EIA-232 port.

Digi 4720H Thin Coax Workgroup Hub

Here's a great way to connect legacy systems and new networks. Simply plug in the Digi Micro Module that supports your new network cabling into the 4720H's modular uplink port and connect your coax links via the hub's four ports. Other features include two switch-selectable controls that enable/ disable individual ports.

Digi 4730H Fiber Optic Workgroup Hub

The 4730H is a four-port fiber optic hub that fits the profile of an intermediate node for connecting high-speed fiber links to existing networks. A fifth fiber port (multimode or single-mode), or 10BaseT, 10Base2 or AUI port may be inserted into the Micro Module bay increasing the connectivity flexibility of this product.

Rack Mount Assembly

Clean up your wiring closet with Digi's RMEX 19-inch rack mount assembly. It accommodates any two 4700H Series Hubs or other five-inch extrusion modules. This assembly consists of two U-brackets and two L-brackets.

Specifications

Power Requirements

- 110V/220V, 50/60 Hz switchable desktop power supply included

Environmental Requirements

- Operating temperature: 32°F to 131°F (0°C to 55°C)
 - Relative humidity: (10% to 90%)
-

Regulatory Approvals

- FCC Class A
 - UL 1950
 - CSA 22.2 No.950
 - TUV
 - CE
 - EN55022 Class A
 - EN50082
 - EN60950
-

Dimensions

Workgroup Hubs	Depth	Width	Height	Weight
4710H,4711H,	5.0 in	6.0 in	1.75 in	1.5 lbs
4720H,4730H	(12.7 cm)	(15.24 cm)	(4.44 cm)	(0.681 kg)
Rack Mount	5.0 in	6.0 in	1.75 in	1.5 lbs
Assembly	(12.7 cm)	(15.24 cm)	(4.44 cm)	(0.681 kg)

Digi Service And Support

You can purchase with confidence knowing that Digi is here to support you with expert technical support, the industry's strongest warranty (five full years) and a 30-day money-back guarantee.
