

# The HP LaserJet 98X toner cartridge — MaXimum convenience, minimum cost.

The HP LaserJet 98X toner cartridge gives you more of what you want from a cartridge — a greater number of crisp, clear copies before that “toner low” message comes on, and a lower cost per page. All this, plus the same excellent quality and reliability you’ve come to expect only from HP.

**The HP 98X cartridge is backed by a unique lifetime warranty. Every HP LaserJet toner cartridge is warranted to be free from defects or malfunctions until the HP toner is depleted, no matter how long you’ve owned the cartridge.**

## Save money on the brand you trust.

- The HP 98X has a 30% greater capacity than the standard HP LaserJet 98A toner cartridge, giving you the lowest cost per page of any HP 98 family cartridge (approximately 8,800 pages per cartridge at 5% coverage).
- MaXimum capacity means you’ll save on shipping and inventory costs.

## Get the quality you expect from HP.

- The only expanded-capacity cartridge designed and engineered to meet HP’s stringent quality standards.
- Designed to hold the maXimum amount of toner without sacrificing print quality.
- Tested under extreme usage and environmental conditions to ensure you get maXimum HP quality.
- Microfine toner guarantees richer blacks and smoother grays.
- Because Hewlett-Packard designs HP toner cartridges and HP LaserJet printers to work together, they interact precisely to generate printouts that are clear and sharp every time.
- HP’s reputation for reliability ensures you get consistent, reliable performance from every cartridge.

## Save time and effort.

- Thanks to its approximate 8,800 pages per cartridge capacity, you’ll spend less time changing cartridges.
- MaXimum capacity means you can reduce stock inventory and order less frequently.
- Since it’s HP, you know you won’t have to spend time dealing with downtime or inconsistent quality.

## Preserve natural resources.

- Empty cartridges can be returned to HP for recycling, either singles or in bulk.
- MaXimum capacity means fewer cartridges are created, and fewer empties need to be recycled.
- Shipping cartons contain recycled content.

## There’s a member of the HP 98 toner cartridge family that’s right for you.

In addition to the HP 98X, there are three other toner cartridge choices designed specifically to work with HP LaserJet 4/4M, 4 Plus/4M Plus, and 5/5M/5N printers:

- The HP 98A (92298A) is the standard HP toner choice and is the one that comes with your HP LaserJet printer. It is designed for average use, delivering approximately 6,800 pages per cartridge.
- The HP 98e (C3973A) is the lowest priced HP toner cartridge, ideal for low-volume users. It delivers approximately 4,000 pages per cartridge.
- The HP 98S MultiPak (92298S) is a five-pack of HP 98A cartridges for users who wish to take advantage of a bulk-purchase discount.

## Environmental storage requirements:

35% to 85% Relative Humidity (RH), stored  
 0° to 35° C RH, stored  
 10% to 80%, in use  
 15° to 32.5° C RH, in use
